Nationalism Communism In Macedonia:

Nationalism and Communism in Macedonia Euangelos Kōphos,1993 *Nationalism and Communism in Macedonia* Euangelos Kōphos,1964 **The Macedonian Question and the Macedonians** Alexis Heraclides,2020-12-30 This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until 1949 and of the Macedonians and of their neighbours from the 1890s until today with the two themes intertwining The Macedonian Question was an offshoot of the wider Eastern Question i e the fate of the European remnants of the Ottoman Empire once it dissolved The initial protagonists of the Macedonian Question were Greece Bulgaria and Serbia and a Slav speaking population inhabiting geographical Macedonia in search of its destiny the largest segment of which ended up creating a new nation comprising the Macedonians something unacceptable to its three neighbours Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood with special emphasis on the Greek Bulgarian and Serbian claims to Macedonia 1870s 1919 the birth and vicissitudes of the most famous Macedonian revolutionary organization the VM O RO and of other organizations 1893 1940 the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945 Titos s crucial role in Macedonian nationhood cum federal status the Greek Macedonian name dispute 1991 2018 including the skeletons in the cupboard the deep seated reasons rendering the clash intractable for decades the final Greek Macedonian settlement the 2018 Prespa Agreement the Bulgarian Macedonian dispute 1950 today and its ephemeral settlement in 2017 the issue of the Macedonian language and the Macedonian national historical narrative The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great This monograph will be an essential resource for scholars working on Macedonian history Balkan politics and conflict resolution *The Balkans Beyond Nationalism and Identity* Pavlos Hatzopoulos,2007-12-19 For decades we have come to accept that nationalism formed the basis of the modern history of the Balkans In this bold and controversial study Pavlos Hatzopoulos turns this assumption on its head Through a ground breaking examination of the non nationalist ideologies in the Balkans during the interwar period Hatzopoulos calls into question the supposedly inherent connection between the Balkans and nationalism and argues that nationalism does not form the sole ordering principle of the modern history of the Balkan region Focusing on the ideologies of communism liberal internationalism and agrarianism Hatzopoulos examines how these interact with nationalist ideology He demonstrates how non nationalist theories challenge the nationalist view of the Balkans as the sum of several national spaces He even questions the nationalist understanding of the very term the Balkans The Balkans Beyond Nationalism and Identity revisits contemporary debates on a region that is still a European crisis point and challenges the nation centric understanding that permeates it In proposing a description of the Balkans as a contested political concept the book argues for a completely fresh interpretation of the region s composition *The Macedonian Slavs in the Greek Civil War, 1944-1949* James

Horncastle,2019-06-03 In this study of Macedonian Slavs in the Greek Civil War the author examines how their participation in the conflict and the attempts by other groups to manipulate them gave rise to modern issues that continue to affect politics in the region today The Macedonian Question has confounded academics politicians and the people of the Balkans since the nineteenth century While the countries have resolved the territorial component of the Macedonian Question the critical and confusing question surrounding the ethnic and linguistic identity of the people of the region continues to be the source of international debate Part of the reason for this confusion is because the history of the Macedonian Question is shrouded in nationalist polemics The role of the Macedonian Slavs involvement in the Greek Civil War is particularly contentious and embedded in nationalist polemics which has impacted academic inquiry This book argues that the preponderance of Macedonian Slavs within the communist forces during the Greek Civil War influenced the actions of all the major actors involved and is a significant factor in shaping the modern Macedonian national identity The Politics of Majority Nationalism Neophytos Loizides,2015-09-30 What drives the politics of majority nationalism during crises stalemates and peace mediations In his innovative study of majority nationalism Neophytos Loizides answers this important question by investigating how peacemakers succeed or fail in transforming the language of ethnic nationalism and war The Politics of Majority Nationalism focuses on the contemporary politics of the post Ottoman neighborhood to explore conflict management in Greece and Turkey while extending its arguments to Serbia Georgia and Ukraine Drawing on systematic coding of parliamentary debates new datasets and elite interviews the book analyses and explains the under emphasized linkages between institutions symbols and framing processes that enable or restrict the choice of peace Emphasizing the constraints societies face when trapped in antagonistic frames Loizides argues wisely mediated institutional arrangements can allow peacemaking to progress *Entangled Histories of the Balkans - Volume Two* Roumen Daskalov,Diana Mishkova,2013-11-14 Modern Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories transfers and crossings This goes along with an interest in the way ideas institutions and techniques were selected transferred and adapted to Balkan conditions and how they interacted with those conditions resulting in m langes and hybridization The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens Contributors include Diana Mishkova Alexander Vezenkov Constantin Iordachi Roumen Daskalov Tchavdar Marinov Blagovest Njagulov **Collective Memory, National Identity, and Ethnic Conflict** Victor Roudometof,2002-12-30 Roudometof provides an in depth analysis of inter ethnic relations in the southern Balkans He examines the evolution of the Macedonian Question and the production of rival national narratives by Greeks Bulgarians and Macedonians He introduces the concept of a national narrative in order to account for the production

and proliferation of different forms of collective memory among the rival nation states Roudometof deconstructs the national narratives of the competing sides and shows the limits of these narratives and their biases He also develops an alternative interpretation of Macedonian national formation The contentious issue of Macedonian national minorities in the southern Balkans is examined as well as the issue of the Albanian movements toward self determination and succession in Kosovo and western Macedonia Roudometof argues that the Macedonian minority groups are not as numerous in the neighboring states as it is conventionally assumed With regard to the Albanian national question he provides a review of the post 1945 relations between Albania and Greece the Albanians of Kosovo and the Serbs and the Albanians and Macedonians He argues that the Albanian nationalist movements have grown out of the interaction between Albanians and their neighboring nations and ethnic groups An important resource for scholars students and other researchers involved with the Balkans and ethnic conflict resolution in general

The Macedonian Question Dimitris Livanios, 2008-04-17 The Macedonian Question the struggle for control over a territory with historically ill defined borders and conflicting national identities is one of the most intractable problems in modern Balkan history In this lucid and persuasive study Dimitris Livanios explores the British dimension to the Macedonian Question from the outbreak of the Second World War to the aftermath of the Tito Stalin split Investigating British policy towards the Bulgar Yugoslav controversy over Macedonia the author assesses the impact of British actions and strategy during this period with a particular focus on wartime planning concerning the future of Yugoslavia and Bulgaria and attempts to prevent Tito from creating a federation of the South Slavs both during and after the war Making extensive use of British archives Livanios brings to light important documentary evidence to offer a fresh perspective on the emergence of the federal Macedonian unit within Tito's Yugoslavia and on the efforts to create a functioning Macedonian national ideology
