Books in Print ,1991 **Médecins Sans Frontières, Evolution of an International Movement: Associative History 1971-2011** Laurence Binet,Martin Saulnier,2019-06-04 When Médecins Sans Frontières MSF was founded in 1971 it was founded with both international and associative dimensions International because it wouldn't have made sense for MSF France on its own to aid threatened populations around the world and associative because civil law in France especially the 1901 law governing charitable bodies was perfectly suited to the MSF organisation's guiding precepts which are democratic and selfless in nature Yet MSF's development from a small purely French organisation to an international associative movement was never carefully planned or particularly smooth MSF's development was the result of various compromises between the movement's leaders with their individual agendas and the integration of fait accompli when necessary The evolving modifications were debated at length to ensure that concerns raised were legitimate and that there was agreement for decisions made The nature and the validity of MSF's leadership were regularly challenged as was the question of how MSF should grow while remaining true to its humanitarian precepts This case study elaborates the history of the MSF movement from inception in 1971 through 2011 when MSF legitimised an international governance system and architecture The study is divided in two episodes Episode One reviews MSF's first three decades 1971-2000 Episode Two is about the challenges of the early 21st century from 2001 to 2011 **The Iraq War and Its Consequences** Irwin Abrams,Gungwu Wang,2003 The Iraq War and its Consequences is the first and only book that brings together more than 30 Nobel Peace laureates and eminent scholars to offer opinions analyses and insights on the war that has drawn both widespread opposition and strong support In conclusion there are two sermons related to the war by Gunnar Stalsett the Bishop of Oslo
