*Opus 21* Philip Wylie, 2013-10 This is a new release of the original 1949 edition      *Opus 21* Philip Wylie, 1950

*Wolf-Women and Phantom Ladies* Steven Dillon, 2015-03-17 Provides encyclopedic coverage of female sexuality in 1940s popular culture Popular culture in the 1940s is organized as patriarchal theater Men gaze upon evaluate and coerce women who are obliged in their turn to put themselves on sexual display In such a thoroughly patriarchal society what happens to female sexual desire *Wolf Women and Phantom Ladies* unearths this female desire by conducting a panoramic survey of 1940s culture that analyzes popular novels daytime radio serials magazines and magazine fiction marital textbooks Hollywood and educational films jungle comics and popular music In addition to popular works Steven Dillon discusses many lesser known texts and artists including Ella Mae Morse a key figure in the founding of Capitol Records and Lisa Ben creator of the first lesbian magazine in the United States This exciting book presents a truly capacious understanding of US culture and offers a spectacular array of analyses of how the decade s cultural discourse struggled to define female desire and how so much male literature and filmmaking sought to constrain it Dillon s study will teach scholars of modern American literature and culture a great deal more about the 1940s than they already know or think they know It is a brilliant addition to the field Gordon Hutner author of *What America Read Taste Class and the Novel 1920 1960*      ***Her Neighbor's Wife*** Lauren Jae Gutterman, 2019-11-01 At first glance Barbara Kalish fit the stereotype of a 1950s wife and mother Married at eighteen Barbara lived with her husband and two daughters in a California suburb where she was president of the Parent Teacher Association At a PTA training conference in San Francisco Barbara met Pearl another PTA president who also had two children and happened to live only a few blocks away from her To Barbara Pearl was the most gorgeous woman in the world and the two began an affair that lasted over a decade Through interviews diaries memoirs and letters *Her Neighbor's Wife* traces the stories of hundreds of women like Barbara Kalish who struggled to balance marriage and same sex desire in the postwar United States In doing so Lauren Jae Gutterman draws our attention away from the postwar landscape of urban gay bars and into the homes of married women who tended to engage in affairs with wives and mothers they met in the context of their daily lives through work at church or in their neighborhoods In the late 1960s and 1970s the lesbian feminist movement and the no fault divorce revolution transformed the lives of wives who desired women Women could now choose to divorce their husbands in order to lead openly lesbian or bisexual lives increasingly however these women were confronted by hostile state discrimination typically in legal battles over child custody Well into the 1980s many women remained ambivalent about divorce and resistant to labeling themselves as lesbian therefore complicating a simple interpretation of their lives and relationship choices By revealing the extent to which marriage has historically permitted space for wives relationships with other women *Her Neighbor's Wife* calls into question the presumed straightness of traditional American marriage      ***On Theology and Psychology*** C. G. Jung, Adolf Keller, 2022-11-29 Jung s correspondence with one of the

twentieth century's leading theologians and ecumenicists *On Theology and Psychology* brings together C G Jung's correspondence with Adolf Keller a celebrated Protestant theologian who was one of the pioneers of the modern ecumenical movement and one of the first religious leaders to become interested in analytical psychology Their relationship spanned half a century and for many years Keller was the only major religious leader to align himself with Jung and his ideas Both men shared a lifelong engagement with questions of faith and each grappled with God in his own distinctive way Presented here in English for the first time are letters that provide a rare look at Jung in dialogue with a theologian Spanning some fifty years these letters reveal an extended intellectual and spiritual discourse between two very different men as they exchange views on the nature of the divine the compatibility of Jungian psychology and Christianity the interpretation of the Bible and figures such as Jesus and Job and the phenomenon of National Socialism Although Keller was powerfully attracted to Jung's ideas his correspondence with the famed psychiatrist demonstrates that he avoided discipleship Both men struggled with essential questions about human existence spirituality and well being and both sought common ground where the concerns of psychologists and theologians converge Featuring an illuminating introduction by Marianne Jehle Wildberger *On Theology and Psychology* offers incomparable insights into the development of Jung's views on theology and religion and a unique window into a spiritual and intellectual friendship unlike any other
