Or Your Money Back:

Live a Happier A. N. T. Free Life Or Your Money Back John O'Brien, 2012-04-22 This book is presented as a coaching guide to explain how your author's more than fifty year personal struggle to find the Holy Grail of personal development emotional health and a happier life has come true as it will for you Neuroplasticity Medical research in this relatively new field of study has only recently discovered that we can literally physically alter the neuro pathways in our brains and change our life long negative thinking habits Thinkiatry's A N T extermination principles and process are now a valid medical research supported self therapy and coaching objective process millions can discover and use to alter the emotional landscape of their lives for the better forever A N T Automatic Negative Thinking is something all of us do every day yet almost all of us are totally and as you will soon learn tragically unaware of how this centuries old life long human habit controls our emotional well being physical health and the quality of each individual's day to day life On a broader scale human ANT colonies like snowflakes are unique dramatically and collectively influencing world politics governments economies religions and the quality of life for billions of people around the world Based upon the preceding statements only briefly introducing the importance of ANTS to billions of lives most would logically expect that they would be a universal core subject of study and discussion for young and old alike in schools universities media commentary and daily human interaction throughout the world However the odds are about 99% that you have never heard of an ANT without more than two legs to walk on To your author's knowledge after more than fifty years of personal emotional struggle research and study we have for centuries ignored our ANTS as nothing more than a function of being alive just like our breathing heartbeat and other bodily functions It's just the way life is It's not anymore The following is merely a partial list of emotional conditions that can be self treated and significantly reduced or in some cases eliminated as we learn to use Thinkiatry's Principles and Process to exterminate our individually unique ANT Colonies to experience lasting emotional health and happiness in our lives Divorce Weight problems Stress Anxiety Addictions Anger Sadness Hatred Obesity Jealousy Insecurity Bullying Loneliness Arrogance Hypocrisy Fear Become a Thinkiatrist and join the happiest emotionally healthy people on earth ...Or Your Money Back Gordon Randall Garrett, There are times when I don't know my own strength Or at least the strength of my advice And the case of Jason Howley was certainly an instance of one of those times When he came to my office with his gadget I heard him out trying to appear both interested and co operative which is good business But I am forced to admit that neither Howley nor his gadget were very impressive He was a lean slope shouldered individual five feet eight or nine which was shorter than he looked with straight brown hair combed straight back and blue eyes which were shielded with steel rimmed glasses The thick double concave lenses indicated a degree of myopia that must have bordered on total blindness without glasses and acute tunnel vision even with them He had a crisp incisive manner that indicated he was either a man who knew what he was doing or a man who was trying to impress me with a ready made story I listened to him and looked at his gadget without

giving any more indication than necessary of what I really thought When he was through I said You understand Mr Howley that I m not a patent lawyer I specialize in criminal law Now I can recommend But he cut me off I understand that counselor he said sharply Believe me I have no illusion whatever that this thing is patentable under the present patent system Even if it were this gadget is designed to do something that may or may not be illegal which would make it hazardous to attempt to patent it I should think You don t patent new devices for blowing safes or new drugs for doping horses do you Probably not I said dryly although as I say I m not qualified to give an opinion on patent law You say that gadget is designed to cause minute but significant changes in the velocities of small moving objects Just how does that make it illegal He frowned a little Well possibly it wouldn t except here in Nevada Specifically it is designed to influence roulette and dice games I looked at the gadget with a little more interest this time There was nothing new in the idea of inventing a gadget to cheat the red and black wheels of course the local cops turn up a dozen a day here in the city Most of them either don t work at all or else they re too obvious so the users get nabbed before they have a chance to use them *Get your money back and successfully punish the company ,*
