Oracles And Mysteries:

Oracles and Mysteries ,1995 *Mysteries and Secrets Revealed* Loren Pankratz,2021-04-01 *Mysteries and Secrets Revealed* uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding The journey begins in the ancient Greek city of Delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers But their concocted story concealed an embarrassing blunder Those sufficiently savvy to catch the lie became aware of even deeper problems Author Loren Pankratz then guides us through the conflicts of Renaissance scholars including Galileo who explained things in ways that enraged philosophers and infuriated priests Galileo s methods of investigation were perpetuated by the meticulous work of the Academy of Experiment and Bernard Fontenelle s enthralling dialogue enabled common people to accept life in the rearranged sun centered universe Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures If any of this was real how was it possible One nineteenth century mesmeric savant Alexis Didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations On the other hand explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted with the methods of trickery Each story in *Mysteries and Secrets Revealed* captures the tension of conflict the thrill of discovery and the strategies of science that unmasked frauds fakes false belief and the enigmas of our natural world The Guide to Knowledge, Or Repertory of Facts Robert Sears,1844 **On the Blissful Islands with Nietzsche & Jung** Paul Bishop,2016-11-03 What are the blissful islands And where are they This book takes as its starting point the chapter called On the Blissful Islands in Part Two of Nietzsche s *Thus Spoke Zarathustra* and its enigmatic conclusion The beauty of the Superman came to me as a shadow From this remarkable and powerful passage it disengages the Nietzschean idea of the Superman and the Jungian notion of the shadow moving these concepts into a new interdisciplinary direction In particular On the Blissful Islands seeks to develop the kind of interpretative approach that Jung himself employed Its chief topics are classical the motif of the blissful islands psychological the shadow and philosophical the *bermensch* or superman blended together to produce a rich intellectual historical discussion By bringing context and depth to a nexus of highly problematic concepts it offers something new to the specialist and the general reader alike So this book considers the significance of the statue in the culture of antiquity and in alchemy and investigates the associated notion of self sculpting as a form of existential exercise This Neoplatonic theme is pursued in relation to a poem by Schiller at the centre of which lies the notion

of self sculpting thus highlighting Nietzsche's and Jung's relationship to Idealism. Its conclusion directly addresses the vexed and controversial question of Nietzsche's relation to Plato. This book's main ambition is to provide a cross cultural interdisciplinary reading of key themes and motifs using Jungian ideas in general and Jung's vast seminar on Zarathustra in particular to uncover a dimension of deep meaning in key passages in Nietzsche. Engaging the reader directly on major existential questions it aims to be an original thought provoking contribution to the history of ideas and to show that Zarathustra was right. There still are blissful islands. This book will be stimulating reading for analytical psychologists including those in training and academics and scholars of Jungian studies. Nietzsche and the history of ideas *Reading Goethe at Midlife* Paul Bishop, 2020-07-13 This book explores the history of the idea of the midlife crisis using the writings of C. G. Jung and Goethe to investigate its relevance for today. Tracing how the ages of humankind became the stages of life in which the midlife crisis represents a pivotal moment, Paul Bishop offers a detailed analysis of a paper by Jung on this subject. He then shifts the focus to Goethe's interest in Orphic wisdom and one of Goethe's major later poems, *Primal Words* (Orphic Urworte Orphisch). Using Jungian ideas to explore the psychological implications of this poem, Bishop draws on Goethe's own commentary and other background material to uncover its vital message. *Reading Goethe at Midlife* reveals the remarkable symmetry between the ideas of Jung and Goethe. Jung's analysis of the stages of life and his advice to heed the call of the self are brought into the conjunction with Goethe's emphasis on the importance of hope, showing an underlying continuity of thought and relevance from ancient wisdom via German classicism to analytical psychology. At a time when many Jungians are turning to neuroscience to provide an external underpinning for Analytical Psychology, this scholarly book is very welcome: it returns to psychology's home territory, placing Jung firmly in a long cultural tradition. Impressively well read in many fields extending from literature and the history of ideas to psychoanalysis and Jungian studies, Paul Bishop allows a text by Jung and a late poem by Goethe to mirror and enhance each other, demonstrating Jung's intellectual proximity to the tradition of German classicism. The wealth of amplifications that Bishop brings to the many themes treated allows us to experience a living reality, a continuity of ideas across different times and cultures. *The Oracle* Jonathan Cahn, 2019-09-03 New York Times and USA Today Best Seller Discover the amazing secret of the ages and the mystery of your life. *The Oracle* will reveal the mystery behind everything: the past, the present, current events, even what is yet to come.
