Ambivalent Conventions Anne Elizabeth Cobby, 2023-12-18 Much work has already been done on the conventions and formulae of Old French literature particularly epic literature and on parody in the French Middle Ages This book links these approaches widens the concept of formula and aims to show that certain authors far from being enslaved by the conventions within which they worked were conscious of them and could master them with sufficient independence to exploit them for calculated literary effect and in particular for parody It studies the fabliaux Aucassin et Nicolette and Le Plerinage de Charlemagne texts in which formulae play a varied and subtle part In the fabliaux we find that formulae borrowed from serious literature add parodic depth to the often simple humour of these tales but that the genre as a whole is not essentially parodic Aucassin et Nicolette uses conventions to arouse expectations which may or may not be satisfied parody proves to be fundamental to this work The approach shows its full potential when applied to Le Plerinage de Charlemagne study of this text s use of formulae of the epic and romance traditions reveals a high degree of complexity and a finely nuanced parody

An Oral-Formulaic Study of the Qur'an Andrew G. Bannister, 2014-04-24 The Qur'an makes extensive use of older religious material stories and traditions that predate the origins of Islam and there has long been a fierce debate about how this material found its way into the Qur'an This unique book argues that this debate has largely been characterized by a failure to fully appreciate the Qur'an as a predominately oral product Using innovative computerized linguistic analysis this study demonstrates that the Qur'an displays many of the signs of oral composition that have been found in other traditional literature When one then combines these computerized results with other clues to the Qur'an s origins such as the demonstrably oral culture that both predated and preceded the Qur'an as well as the folk memory in the Islamic tradition that Muhammad was an oral performer these multiple lines of evidence converge and point to the conclusion that large portions of the Qur'an need to be understood as being constructed live in oral performance Combining historical linguistic and statistical analysis much of it made possible

for the first time due to new computerized tools developed specifically for this book Bannister argues that the implications of orality have long been overlooked in studies of the Qur'an By relocating the Islamic scripture firmly back into an oral context one gains both a fresh appreciation of the Qur'an on its own terms as well as a fresh understanding of how Muhammad used early religious traditions retelling old tales afresh for a new audience

Folklore, Literature, and Cultural Theory Cathy L. Preston, 2014-06-23 First published in 1996 The need to write particularly in pre technological recording days in order to preserve and to analyze lies at the heart of folklore and yet to write means to change the medium in which much folk communication and art actually took and takes place In Part I of the collection the contributors address literary constructions of traditional and emergent cultures those of Leslie Marmon Silko Sandra Cisneros Pat Mora Carmen Tafolla Julio Cortázar Milan Kundera Franz Kafka Philip Roth Thomas Hardy and Dacia Maraini The contributors to Part II of the collection offer readings of a variety of traditional vernacular and local performances

The Interface of Orality and Writing Annette Weissenrieder, Robert B. Coote, 2015-10-13 How did the visual the oral and the written interrelate in antiquity The essays in this collection address the competing and complementary roles of visual media forms of memory oral performance and literacy and popular culture in the ancient Mediterranean world Incorporating both customary and innovative perspectives the essays advance the frontiers of our understanding of the nature of ancient texts as regards audibility and performance the vital importance of the visual in the comprehension of texts and basic concepts of communication particularly the need to account for disjunctive and non reciprocal social relations in communication Thus the contributions show how the investigation of the interface of the oral and written across the spectrum of seeing hearing and writing generates new concepts of media and mediation

Routledge Encyclopedia of Narrative Theory David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource

Beowulf Roy Liuzza, 1999-12-06 The classic story of Beowulf hero and dragon slayer appears here in a new translation accompanied by genealogical charts historical summaries and a glossary of proper names These and other documents sketching some of the cultural forces behind the poem's final creation will help readers see Beowulf as an exploration of the politics of kingship and the psychology of heroism and as an early English meditation on the bridges and chasms between the pagan past and the Christian present A generous sample of other modern versions of Beowulf sheds light on the process of translating the poem

Between Script and Scripture: Performance Criticism and Mark's Characterization of the Disciples Zach Preston Eberhart, 2024-03-25 This volume reimagines the first century reception of the Gospel of Mark within a reconstructed yet hypothetical performance event In particular it considers the disciples character and characterization through the lens of performance criticism Questions concerning the characterization of the disciples have been relatively one sided in New Testament scholarship in favor of their negative characterization This project demonstrates why such assumptions need not be necessary when we re consider the oral aural milieu in which the Gospel of Mark was first composed and received by its earliest audiences

Textual and Material Culture in Anglo-Saxon England D. G. Scragg, 2003 Significant Anglo Saxon papers with postscripts illustrate advances in knowledge of life and culture of pre Conquest England Thomas Northcote Toller of the Bosworth Toller Anglo Saxon Dictionary is one of the most influential but least known Anglo Saxon scholars of the early twentieth century The Centre for Anglo Saxon Studies at Manchester where Toller was the first professor of English Language has an annual Toller lecture delivered by an expert in the field of Anglo Saxon Studies this volume offers a selection from these lectures brought together for the first time and with supplementary material added by the authors to bring them up to date They are complemented by the 2002 Toller Lecture Peter Baker's study of Toller commissioned specially for this book and by new examinations of Toller's life and work and his influence on the development of Old English lexicography The volume is therefore both an epitome of the best scholarship in Anglo Saxon studies of the last decade and a half and a guide for the modern reader through the major advances in our knowledge of the life and culture of pre Conquest England Contributors RICHARD BAILEY PETER BAKER DABNEY ANDERSON BANKERT JANET BATELY GEORGE BROWN ROBERTA FRANK HELMUT GNEUSS JOYCE HILL DAVID A HINTON MICHAEL LAPIDGE AUDREY MEANEY KATHERINE O BRIEN O KEEFFE JOANA PROUD ALEXANDER RUMBLE

The Czech Manuscripts David L. Cooper, 2023-10-15 The Czech Manuscripts is dedicated to one of the most important literary forgeries on the model of Macpherson's Ossianic poetry The Queen's Court and Green Mountain Manuscripts discovered in 1817 and 1818 went on to play an outsized role in the Czech National Revival functioning as founding texts of the national mythology and serving as sacred works in the long period when they were considered genuine A successful literary forgery tells a lot about what a culture wants and needs at a particular moment One fascinating aspect of this story is how a successful fake was able to function in an integral way as part of the Czech cultural revival of the nineteenth century both because it played to expectations and nationalist values and because it met real cultural needs in many ways better than genuine historical

literary works and artefacts Also fascinating is the vainglorious V clav Hanka a prolific and dedicated forger who was likely the center of the conspiratorial ring that created the manuscripts and who went on as the librarian of the Czech National Museum to alter a number of others David Cooper analyzes what made the Manuscripts a convincing imitation of their Serbian and Russian models He looks at how translation shaped their composition and at the benefit of examining them as pseudotranslations and investigates the quasi religious rituals and commemorative practices that developed around them The Czech Manuscripts brings the Czech experience into the broader developments of European history
