Oranzhevaia Revoliutsiia Versii Khronika Dokumenty

Taras Kuzio

Oranzhevaia Revoliutsiia Versii Khronika Dokumenty:

Patronal Politics Henry E. Hale, 2015 This book proposes a new way of understanding events throughout the world that are usually interpreted as democratization rising authoritarianism or revolution Where the rule of law is weak and corruption pervasive what may appear to be democratic or authoritarian breakthroughs are often just regular predictable phases in longer term cyclic dynamics patronal politics This is shown through in depth narratives of the post 1991 political history of all post Soviet polities that are not in the European Union This book also includes chapters on czarist and Soviet history and on global patterns

Aspects of the Orange Revolution VI Taras Kuzio, 2007-11-22 Post communist democratic revolutions have so far taken place in six countries Slovakia 1998 Croatia 1999 2000 Serbia 2000 Georgia 2003 Ukraine 2004 and Kyrgyzstan 2005 The seven chapters in this volume situate these events within a theoretical and comparative perspective The book draws upon extensive experience and field research conducted by political scientists specializing in comparative democratization regime politics political transitions electoral studies and the post communist world The papers by Valerie Bunce and Sharon Wolchik Henry Hale Paul D Anieri David R Marples Taras Kuzio Lucan A Way and Steven Levitsky as well as Anika Locke Binnendijk and Ivan Marovic explore different regime types and opposition strategies in post communist states the diffusion of opposition strategies between states in which democratic revolutions were attempted the strategic importance of youth NGO s in mobilizing oppositions towards democratic revolutions the use of non violent strategies by the opposition path dependent theoretical and comparative explanations of the sources of successful and failed democratic revolutions and the factors that lie behind divergent post revolutionary trajectories The volume represents a breakthrough in our understanding of why and how democratic revolutions take place in the post communist world It provides an integrated analysis of why such upheavals succeed in some but fail in other states The contributions point to among other issues why the post revolutionary breakthroughs in Serbia Ukraine and Kyrgyzstan have encountered obstacles the ousted regime was never fully defeated and its representatives were able to launch counter revolutions as well as why in Serbia and Ukraine the political forces of the ousted regimes have returned to power in free elections held after democratic revolutions

Post Communist Democratic Revolutions in Comparative Perspective is essential reading for scholars and policy makers alike

Aspects of the Orange Revolution I Paul D'Anieri, Taras Kuzio, 2007-11-22 Ukraine s 2004 presidential election was falsified spurring the Orange Revolution To many observers the Orange Revolution was a shock and the stolen election a recent development However both the election fraud and the effort to topple the government of Leonid Kuchma emerged from political dynamics that had appeared in earlier Ukrainian elections In this path breaking volume leading scholars place Ukraine s 2004 Orange Revolution in the longer perspective of Ukraine s post Soviet electoral politics Covering both presidential and parliamentary elections over the entire post Soviet period the chapters clarify the manner in which earlier elections had emerged as part of the battle for power in Ukraine well before 2004 The opposition that came to power in 2004

had also won the 2002 elections and had developed its strategies during opposition protests that had been catalyzed by the Kuchmagate crisis in 2000 The evolution of the dynamics that led to the fraudulent 2004 election reveals that the events of 2004 represented continuity as well as change By placing the 2004 elections within a longer trajectory the volume enriches our understanding of the Orange Revolution and helps us to understand the difficulties faced in consolidating Ukraine's democratic breakthrough following the Orange Revolution The volume contains an introduction to Aspects of the Orange Revolution I VI by Andreas Umland followed by eight chapters by Robert K Christensen Edward R Rakhimkulov and Charles Wise Paul D Anieri Robert Kravchuk and Victor Chudowsky Paul Kubicek Taras Kuzio Lucan Way and Anna Makhorkina These authors bring complex and varied perspectives that situate Ukraine's post Soviet elections in economic reforms constitutional law foreign policy objectives of integrating into Europe as well as in the broader context of the rough and tumble competition for political control of Ukraine

Afanasii Shchapov and the Significance of Religious Dissent in Imperial Russia, 1848-70 Thomas Marsden, 2008-01-14 In the 1650s and 1660s the head of the Russian Orthodox Church Patriarch Nikon carried out a series of reforms which were rejected by a large number of the faithful The split that resulted the Great Schism or raskol led a large proportion of the Russian population to become completely isolated from the official church Known as raskolniki they were seen as stubborn opponents of both church and government and were fiercely persecuted Two centuries later amidst peasant protests revolutionary conspiracies and government paranoia Russia's religious dissenters were again at the forefront of national concerns Russia's autocratic rulers while equating Orthodoxy with political loyalty saw the heterodox as a threat to internal security At the same time Russian revolutionaries began to look to the people as an instrument of political change Where all too often loyalty to the Tsar was the defining feature of the peasants the raskolniki with their persecuted history and stubborn resistance seemed to promise a well of opposition from which the radicals could draw The historian and radical thinker Afanasii Shchapov 1830-1876 championed religious dissent as a politically democratic movement More than anyone else he defined the relationship between political and religious dissent that was to persist until the revolution of 1917 In examining Shchapov's works together with a wide range of printed and archival sources Thomas Marsden reveals that the raskolniki were central to the most important questions of mid nineteenth century Russian society those of revolution nationality and progress
