Lost Letters from Vienna Sue Course, 2019-11-01 In 1977 Sue Course discovered a box of airmail letters in the dark recesses of a cupboard written in German Her German was rusty but she could see that most were from her parents and grandparents and were written from the time of the Nazi invasion of Vienna in 1938 The letters revealed a gripping tale of their war and that of their extended family the stories of those who escaped and eventually resettled across the globe and their experiences in that process The story was fleshed out through the later discovery of diaries and far flung family members war memoirs For Sue s family their entitlement to be a part of Viennese society and a citizen of the Austrian nation itself was lost when the Nazis annexed her country Sue was just four when she arrived in Australia with her family too young to appreciate the penurious circumstances of their life at a time where German speaking foreigners were viewed as enemy aliens and where there was little immediate opportunity for non English speaking professionals to find respect or employment in their professions Antipodean life was a far cry from the genteel experience of being raised in Vienna and this story documents superbly the displacement dislocation and immense struggle for those who have had to flee their countries with its destructive consequences loss of identity culture career family and social networks or any acknowledgement of value to the host society *Musical Opinion and Music Trade Review* ,1917

The American Symphony Neil Butterworth, 2019-05-23 First published in 1998 this volume is the first book to focus on the American symphony Neil Butterworth surveys the development of the symphony in the United States from early European influences in the last century to the present day and asks why American composers have shown such allegiance to a musical form which their European contemporaries appear to have discarded An overview of the growth of musical societies in America during the eighteenth century and the establishment of the first professional orchestras during the early part of the nineteenth century is followed by chronological analyses of the works of those composers who have played important parts in the progress of symphony in the United States from Charles Ives Aaron Copland and Leonard Bernstein to contemporary figures such as William Bolcom and John Harbison Complete with a comprehensive catalogue of symphonies and an extensive discography this book is an indispensable reference work
