Orchids IUCN/SSC Orchid Specialist Group, 1996 This action plan chronicles the threats faced by wild orchids but more importantly to critical habitats that host extraordinarily high orchid diversity and endemism It explores and recommends specific ways that national and local government legislators scientists and orchid conservationists as well as growers can all help to reverse present trends The facts and viewpoints presented in this comprehensive document update and supplement the information available to conservation organizations and agencies through the world so that they can lobby their appropriate government offices more effectively
