**We Band of Angels** Elizabeth Norman, 2013-10-29 In the fall of 1941 the Philippines was a gardenia scented paradise for the American Army and Navy nurses stationed there War was a distant rumor life a routine of easy shifts and dinners under the stars On December 8 all that changed as Japanese bombs began raining down on American bases in Luzon and this paradise became a fiery hell Caught in the raging battle the nurses set up field hospitals in the jungles of Bataan and the tunnels of Corregidor where they tended to the most devastating injuries of war and suffered the terrors of shells and shrapnel But the worst was yet to come After Bataan and Corregidor fell the nurses were herded into internment camps where they would endure three years of fear brutality and starvation Once liberated they returned to an America that at first celebrated them but later refused to honor their leaders with the medals they clearly deserved Here in letters diaries and riveting firsthand accounts is the story of what really happened during those dark days woven together in a deeply affecting

saga of women in war Praise for We Band of Angels Gripping a war story in which the main characters never kill one of the enemy or even shoot at him but are nevertheless heroes Americans today should thank God we had such women Stephen E Ambrose Remarkable and uplifting USA Today Elizabeth M Norman brings a quiet scholarly voice to this narrative In just a little over six months these women had turned from plucky young girls on a mild adventure to authentic heroes Every page of this history is fascinating Carolyn See The Washington Post Riveting poignant and powerful The Dallas Morning News Winner of the Lavinia Dock Award for historical scholarship the American Academy of Nursing National Media Award and the Agnes Dillon Randolph Award *POW Baseball in World War II* Tim Wolter, 2001-12-18 Nearly 130 000 American soldiers and 19 000 American civilians were captured by the enemy during the Second World War The conditions under which they were held varied enormously but baseball in various forms was a common activity among these prisoners of war Not just Americans but Canadians British Australians and New Zealanders took the field as well as the Japanese and even a few Germans In the best of the German Stalags permanent German camps where these prisoners were held shortened from Stamm Lager there were often several leagues active at a time with dozens of teams playing games continuously during the warm weather months In the harsher Stalags and in some Japanese camps there was only makeshift ball playing In places like Camp O Donnell the worst of the camps there was no energy left for anything but the struggle to survive This work is the story of POW baseball complete with guard versus prisoner ball games radio parts hidden in baseballs and future major leaguers The book is divided into the various prison camps and describes the types of prisoners held there and the degree to which baseball was played *Victory in World War II* Gerald W. Thomas, Monroe Lee Billington, Roger D. Walker, 1994 No state in the Union made any more significant contributions to victory in World War II than New Mexico These contributions ranged from extensive strategic research to the sacrifices made in combat by individuals and military units A disproportionate number of New Mexicans were killed in action or turned up on MIA or POW lists The New Mexico National Guard was the first to fire on Japanese enemies in the Philippine Islands after the surprise attack on Pearl Harbor Many New Mexicans were forced into the Bataan Death March Gen Douglas MacArthur stated that New Mexican bravery accounted for slowing down the Japanese advance so that the nation had time to organize a massive counter offensive for victory New Mexico and the Navajo Nation made another contribution to the war effort with the Navajo Code Talkers A contingent of the U S Marines they developed the only secret code that was never broken by enemy forces The rocket experiments of Dr Robert Goddard had a significant impact on both German and Allied warfare The secret research at Los Alamos resulted in the development of the first atomic bomb the single most important factor in bringing the war to an end Established near the end of the war the White Sands Missile Range tested the V 2 rocket and became strategically important in the Cold War and in developments in modern space technology On the home front New Mexicans made an all out commitment to the war effort The slogan Food Will Win the War was nowhere more relevant than in New Mexico as that rural state more than doubled its

agricultural production Women worked in fields factories and military installations and they planted victory gardens and saved precious resources Likewise the state played a role in the stepped up production of strategic minerals and oil These topics and more are covered in this book providing a sampling of the diversity and extent of New Mexico's contributions to victory in World War II This document *Biography*, 1987 **The Cumulative Book Index**, 1985 A world list of books in the English language **Amazons to Fighter Pilots: R-Z** Reina Pennington, Robin Higham, 2003 With entries overviewing groups such as the Amazons women in the Spanish Civil War and Native American women and entries profiling over 300 women tells their stories focusing particularly on women who fought With a focus on those who fought this two volume reference for scholars and general readers contains alphabetically arranged entries on some 300 military women from antiquity to the present The entries are also listed by geographic region time period branch of service prisoner status and by group or organization Pennington affiliation not cited presents a historical overview of women in the military and in war in the introduction while an extensive timeline traces the accomplishments of women in military history reaching back to 9000 BCE Bibliographic surveys of women as prisoners of war and women's participation in military medicine are found in the appendix **The Ancestry of Chamberlin and Grant** June G. **On Slavery's Border**  
Diane Mutti Burke, 2010-12-01

On Slavery's Border is a bottom-up examination of how slavery and slaveholding were influenced by both the geography and the scale of the slaveholding enterprise. Missouri's strategic access to important waterways made it a key site at the periphery of the Atlantic world. By the time of statehood in 1821, people were moving there in large numbers, especially from the upper South, hoping to replicate the slave society they'd left behind. Diane Mutti Burke focuses on the Missouri counties located along the Mississippi and Missouri rivers to investigate small-scale slavery at the level of the household and neighborhood. She examines such topics as small slaveholders' child-rearing and fiscal strategies, the economics of slavery, relations between slaves and owners, the challenges faced by slave families, sociability among enslaved and free Missourians within rural neighborhoods, and the disintegration of slavery during the Civil War. Mutti Burke argues that economic and social factors gave Missouri slavery an especially intimate quality. Owners directly oversaw their slaves and lived in close proximity with them, sometimes in the same building. White Missourians believed this made for a milder version of bondage. Some slaves who expressed fear of being sold further south seemed to agree. Mutti Burke reveals, however, that while small slaveholding created some advantages for slaves, it also made them more vulnerable to abuse and interference in their personal lives. In a region with easy access to the free states, the perception that slavery was threatened spawned white anxiety, which frequently led to violent reassertions of supremacy.
