Once and Future Myths Phil Cousineau, 2003-06-01 Drawing from history movies pop culture and his own life experience filmmaker and writer Phil Cousineau shows how ancient myths continue to affect and shape our contemporary lives Each chapter moves from the ancient to the modern from the once to the now to the future Chapters include both retellings of classical myths Sisyphus Odysseus Kronos along with new accounts of contemporary myths of time cities vampires even baseball Sisyphus is shown to be the inspiration for the French Resistance and Cousineau's own struggles as a writer Dionysus is made current by rock legend Jim Morrison and new science and technology are laid at the feet of Hermes Cousineau long time student of Joseph Campbell makes a compelling case that myths the enduring fantastical tales of gods and goddesses heroines and heroes provide a map by which to chart the stories of our own lives In *Once and Future Myths* he presents a unique path to personal growth with a deep examination of our lives in the context of the world's great myths

Mircea Eliade Nicolae Babuts, 2017-07-28 Mircea Eliade 1907 1986 was one of the twentieth century's foremost students of religion and cultural environments This book examines the emergence function and value of religion and myth in his work Nicolae Babuts Robert Ellwood Eric Ziolkowski John Dadosky Robert Segal Mac Linscott Ricketts Douglas Allen and Liviu Borda examine Eliade's views on the interaction between the sacred and the profane Each explores Eliade's

phenomenological approach to the study of religion and myth They show that modern rites of initiation cultural activities and spectacles like bullfighting film and perhaps surprisingly reading and writing all harken back to the archetypal structures of the mythical imagination Perhaps the greatest achievement of Eliade's phenomenological approach is that it reveals what we have in common with pre Socratic man the mind's structural capacity to endow objects and events with spiritual values and meanings As a study of Eliade's concept of the mythic imagination the book posits an analogy between the myths of the past and modern imitations The authors suggest that in spite of their differences and their separate historical sources myths represent basic structures of human consciousness This book is essential reading for all students of religion philosophy and literature

Reimagining Korea Yohan Yoo, Song Chong Lee, 2025-07-14 This volume project explores how evolving values and identities in contemporary Korean society are interpreted particularly through the lens of religion positioning it as a window into Korea's dynamic cultural and social landscape As Korea grapples with rapid modernization shifting religious beliefs and expressions reflect new aspects of the Korean people's values and identity in both personal and communal dimensions We believe that this dynamic backdrop creates a complex web of tensions as Koreans negotiate between established norms and newly infused or internally emerging global ideas inspiring and provoking efforts to navigate and advocate for future directions both within and beyond the country

Constructing the Field Vered Amit, 2003-12-16 Ethnographic fieldwork is traditionally seen as what distinguishes social and cultural anthropology from the other social sciences This collection responds to the intensifying scrutiny of fieldwork in recent years It challenges the idea of the necessity for the total immersion of the ethnographer in the field and for the clear separation of professional and personal areas of activity The very existence of the field as an entity separate from everyday life is questioned Fresh perspectives on contemporary fieldwork are provided by diverse case studies from across North America and Europe These contributions give a thorough appraisal of what fieldwork is and should be and an extra dimension is added through fascinating accounts of the personal experiences of anthropologists in the field

Welcome to Your Designer Planet! Richard Leviton, 2007-09 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this

hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth s thousands of sacred sites hold a secret they are functional parts of the planet s geomantic body consciousness nodes in the Earth s subtle body Each veils a Light temple each once known widely and remembered in myth and Welcome to Your Designer Planet documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth s Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth s geomantic reality based on 24 years of research The world s myths are the doorway into this fantastic domain of the Earth s visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet **The Allure of Decadent**

Thinking Carl Olson,2013-03-07 The use of postmodern thought to approach the study of religion threatens to call into question the values and representational mode of thinking typical of the field Religious studies with a radical scepticism grounded in an embrace of decadence by postmodern thinkers has the potential to undermine subvert and distort the study of religion making it difficult to understand the subject if such an approach is uncritically adopted by scholars seeking new ways to study it **The Politics of Myth** Robert Ellwood,1999-09-02 At the same time they themselves tended toward individualistic views of the power of myth believing that the world of ancient myth contained resources that could be of

immense help to people baffled by the ambiguities and superficiality of modern life BOOK JACKET **God and Dreams**

John Pratt Bingham,2010-01-01 At one time when an individual wanted a direct personal experience of God that person turned to his or her dreams The early third century Christian defender of the faith Tertullian observed Is it not known to all people that the dream is the most usual way that God reveals himself to man Yet by the eleventh century King William II of England states They are not good Christians that regard dreams Why did this reversal of opinion occur not only in Christian thinking but in Jewish and Islamic attitudes also God and Dreams Is There a Connection traces the historic connection between God and dreams and examines why this shift happened While particular attention is given to Jewish Christian and Islamic thought several secular disciplines are discussed also After investigating the different points of view an argument is made that the connection between God and dreams still exists The Sacred and its Scholars Idinopulos,Yonan,1996-10-01

This volume of essays is devoted to a careful examination of the importance of methodology in the study of primary religious data The essays focus on the Sacred as an ultimate object of descriptive analysis and critical scrutiny on the part of a select number of North American and European methodologists in the study and teaching of the history of religions and its allied disciplines The central question to which the contributors respond are these What is the Sacred Is it a being or a concept of a

being is it a mental state or an objective reality or something else entirely Can the Sacred be described as an empirical fact or as a formal rule for religious inquiry If the Sacred is a valid category in the study and teaching of religion then what can be said about the antithesis of the sacred namely the profane or the secular This volume probes these questions with great care in order to justify a number of ways the Sacred can be construed as an indispensable notion for the study and teaching of religion

Positioning Yoga Sarah Strauss, 2020-06-03 What is yoga Stereotypical images of people practicing this ancient art range from white bearded Indian mystics chanting om on mountaintops to urban fitness fanatics contorted into uncomfortable looking positions We recognize the name but may not realize how the set of ideas and practices known as yoga moved from its birthplace on the Indian subcontinent to become a global phenomenon *Positioning Yoga* considers how the recent development of yoga from its introduction to Western audiences by the Indian Swami Vivekananda at the 1893 Parliament of the World's Religions in Chicago through to the present day has generated specific forms of modern practice Strauss takes us on an illuminating journey from India to Germany and America and back again to India While acknowledging yoga's point of origin Strauss explores how yogic practices and ideas have been transformed when they cross cultural boundaries Yoga can be defined in many ways as an attitude a philosophic system a set of practices a way of being in the world but its definition is always located within a particular historical context What makes yoga practitioners affiliated with Swami Sivananda's Divine Life Society of Rishikesh India whether they hail from India North America or Europe unique What values around the world have supported the surging popularity of yoga over the past century This absorbing book considers how lifestyle values have made yoga a global industry and shows how culture is produced and disseminated across boundaries

New Patterns for Comparative Religion William E. Paden, 2016-05-19 The cross cultural study of religion has always gone hand in hand with the worldview sciences or intellectual frameworks of the time These frames whether focused on psychology or politics gender or colonialism bring out perspectives for understanding religious behavior Today one of our common civic worldviews is represented in the shift from scriptural to evolutionary history This volume brings together in one place key essays by professor emeritus William Paden showing a progression of steps he has taken in exploring bridgeworks between comparative religion and evolutionary models of religious behavior One of the leading scholars in religious studies Paden shows ways that religion can be contextualized as part of the natural world and thus seen as reflecting the ingrained sociality and world making drive of the human species Paden argues that although comparativism has been challenged as too culture bound too western or too gendered cross over categories and concepts between religious traditions cannot be avoided Arguing that there are recurrent patterns of human behavior common to our species and that thereby underlie all cultures he proposes that the missing link in the Religion Evolution debate is comparative religion a global cross cultural perspective on religious behaviours throughout time Each article is contextualized within this overall trajectory of thought within Paden's work and the history of the discipline as a whole
