Devastating Society Bernd Hamm, 2005-02-20 United in their opposition to the neo conservatism underpinning America's current political strategies the contributors offer a grounded critique of the real impact that these policies make at home and abroad Starting with a close analysis of the Bush administration and the neo conservative hold on power in Washington they move on to a broader historical analysis They set today's topical issues in the context of what they see as a gradual shift towards the right in American politics and the creeping corporatisation of American society The contributors show that September 11 was used by the Bush administration to clamp down on civil liberties at home and to step up an aggressive line in foreign policy The impact on American society and societies elsewhere has been deeply damaging Ranging over this and other topics including the US economy corporate crime and anti environmentalism this book is ideal for anyone who wants a critical introduction to current affairs issues set within the broader context of America's history of foreign interventions and global capitalism

Populist Rhetorics Christian Kock,Lisa Villadsen,2022-01-23 This book proposes a unified approach to populism that sees it as a primarily rhetorical concept Populism is on the rise worldwide with both populist leaders and movements gaining power and the term populism resounds in political debate journalism and scholarship Populism as a phenomenon seems to instantiate perennial issues besetting rhetoric e g the charges of manipulation exclusive reliance on opinion over knowledge and abuse of emotional appeals yet relatively little research on populism has emerged from the discipline of rhetoric This volume investigates the theory and practice of populism under the heading of rhetoric but as an interdisciplinary effort involving scholars in rhetoric as well as neighbouring disciplines such as political science and sociology Seven case studies covering Germany Greece Hungary Italy UK USA and Venezuela offer conceptual discussions as well as close analyses applying both historical and theoretical approaches In the introduction the editors outline the problem of populism and their project presenting the book s wide spanning case based explorations In an afterword they seek to distil a minimal rhetorical definition of populism The claim or pretense to speak for the people emerges as the feature that connects the highly diverse instances studied in the book and populisms in general the editors hypothesize They argue that this prevalent rhetorical move often glossed over as unremarkable and banal is in principle more debatable and deserving of more vigilant scrutiny than usually assumed

Wiki vs NWO (New World Order) Grant Elder,2014-11-05 Most people shun the word conspiracy The media has made it seem like all conspiracies are theories and that anyone who discusses them is a tinfoil hat Yet anyone who has studied history

or business knows that conspiracies are a part of the human experience Once we realize this the question arises what conspiracies are occurring in our time that are significant What perceptions of the world do we hold that are incorrect Western civilization although technologically advanced beyond the days of a Flat Earth or geocentric universe is blind to its own corruptions Our governing practices were established over a century ago and have evolved very little If we could apply the success we've had in science technology and understanding the human condition to the way we govern our society what would our world look like Be forewarned The journey starts off frightfully dark and many people do not have the emotional fortitude to face the real demons But if you make the journey it is very rewarding to realize that we have at our disposal the means to create a remarkable world for the next generation if we so choose This book blends business management strategies leveraged by technology to address the inherent problems in governments Presented in a clear step by step manner that provides readers with a unique and fresh look at alternatives to our present system **Преступность -**

Ahmed, 2005 **The Fall of the New Babylon** Frederick Guttman, The advent of the industrial age was the beginning of the U S era The young nation was beginning to leave the great empires that until then had sustained great hegemonies The Jesuits saw a unique opportunity in this American continent to reestablish Catholic power but also the European oligarchies they wanted to use these lands to expand their power and influence USA it was the ideal fertile and prosperous land from which to direct a new world government With the rise of the mighty North American empire both in the Bible and in recent and not so recent visions saw clear references to a decisive stage in our history of the hand of this nation Said country starting with promoting values biblical would become the mother of the most rotten forces that operate on our planet A den of thieves a den of spirits abhorrent greedy greedy and unscrupulous men souls sold to power and wealth prostitution and degradation at its most high levels nameless aberrations and the most sinister of all this hidden from the eyes of the people ignorant of all that takes place behind back stage As in a cunning game of chess sometimes the queen is sacrificed for a greater end sometimes the fall of an important head in the power game it can mean the rise of an empire one greater than that which has ever existed on the face of our globe On This thesis will expose what many of us are clear about is destruction of the United States of America as we know it as a Master strategy of the Masters of the World to bring up the last great empire of our time We are talking about the raising of a dictatorial world government based on surveillance technology police force and mass mind control A system that the own Bible called the Thirion or The Beast In this investigation I will explain why the book of Revelation prophesies about the power behind the US that so called Deep State of the that the Q Anon movement has propagandized that power in the shadow that is known in Christianity under the name of

the Great Harlot or The Great Babylon We do not talk about the suicide of the Deep State but of a sum of events that push the cataclysm of the USA as the headquarters of the same to make room for a world government

The UN and Counter-Terrorism Alice Martini, 2021-02-15 This book traces the evolution of the UN Security Council's actions against terrorism and extremism The work examines the progression of the UN Security Council's fight against international terrorism and its development of practices to prevent radicalisation and extremism It also looks at the consequences of these processes and how they have deeply moulded global counter terrorism The book looks at the discursive construction of a global threat and tracks how this construction evolved in relation to the Council's establishment of legal practices and bodies and by its Members discourses It argues that the very specific definition the Council provided on international terrorism in the 2000s is profoundly shaped by global hegemonies relations of power shaping the international community and its own identity To demonstrate this it offers a long genealogical perspective of the structure of the UN since the 1930s and then focuses specifically on the developments taking place in the 2000s The book thus looks at the Security Council's fight against international terrorism as a global globalised and globalising enterprise This book will be of much interest to students of critical terrorism studies security studies global governance and International Relations

The Delusion of Atheism Patrick Mooney, 2020-09-29 Both atheistic materialism and organized religion have been the two great forces which have had the greatest mind control over Western Civilization's perception and value system Both systems have used their power to keep humanity in subjugation and slavery through the tactics of fear and terror Both systems have denied humanity the dignity of its true Divine identity When social systems exist for the sole purpose of strengthening and propelling their own self interest rather the welfare of its citizens then the matrix in which humanity lives becomes corrupt and decadent When a people are denied the understanding of their own self concept as a unique person and a child of God they become disassociated from their own holographic identity Nature does not tolerate a vacuum Dystopia rushes in to replace the void caused by the split or the dualism which both atheism and organized religion cause in world which some non local Supreme Intelligence created for a more noble purpose Atheistic Materialism denies the existence of A Creator and is pessimistically Nihilistic Organized Religion while admitting an Omega or an absolute divides the soul from the body and turns this world Into a vale of tears The New Science of Quantum Physics teaches that the Whole is greater than the sum of its parts and the substrata of the atom is consciousness Quantum teaches the Cosmos is one There is no separation All that exists is linked together in the one reality of interdependence interconnection and interrelationship Consciousness is eternal It carries on after the atoms of our bodies have deteriorated and gone Consciousness tells us that despite the momentary reality of our bodies we are spiritually eternal Materialistic Atheism is temporary and built of the false promise of economy and profit It proposes tragedy instead of ecstasy Consciousness joins body and soul together Life in this world in other world is a continuum Life here is sacred and must be lived in this respect Whether we like it or not we are doomed to be spiritual It is the human spirit which is primary

Consciousness teaches us this Terribly Atheism has inverted this It makes the body and its temporality primary It forgets and denies humanity's need for transcendence Atheism stultifies It concerns itself with grasping rather than reaching Atheism is greedy It is anti compassion This world will surely fail unless we begin to become aware that love is our highest electromagnetic capability and selfishness our lowest
