On Kings Marshall Sahlins, David Graeber, 2017-12-15 In anthropology as much as in popular imagination kings are figures of fascination and intrigue heroes or tyrants in ways presidents and prime ministers can never be This collection of essays by two of the world's most distinguished anthropologists David Graeber and Marshall Sahlins explores what kingship actually is historically and anthropologically As they show kings are symbols for more than just sovereignty indeed the study of kingship offers a unique window into fundamental dilemmas concerning the very nature of power meaning and the human condition Reflecting on issues such as temporality alterity and utopia not to mention the divine the strange the numinous and the bestial Graeber and Sahlins explore the role of kings as they have existed around the world from the BaKongo to the Aztec to the Shilluk and beyond Richly delivered with the wit and sharp analysis characteristic of Graeber and Sahlins this book opens up new avenues for the anthropological study of this fascinating and ubiquitous political figure

**Native Writers and Canadian Writing** W. H. New, 2011-11-01 Sometimes people are willing to listen only to those voices that confirm the conventions they already know The unfamiliar makes them fear Or makes them condescend Neither fear nor condescension encourages listening And no one who does not listen learns to hear W. H. New Learning to Listen Native Writers and Canadian Writing is a co-publication with Canadian Literature Canada's foremost literary journal of a special double issue which focuses on literature by and about Canada's Native peoples and contains original articles and poems by both Native and non-Native writers These not only reflect the growing prominence of contemporary Native writing but also direct the reader to the traditional literature from which it springs and which has been largely misunderstood by the non-Native community myths rituals and songs having been interpreted more often as artistic curiosities rather than the masterworks of a different culture Essays examining the conventional portrayals of Native people in literature touch on works which range from the eighteenth century journals of

explorer Alexander Mackenzie to the novels of James Fenimore Cooper and to early writers in Canada such as historian humourist Thomas Chandler Haliburton. Studies of Native literature focus on the oral literary traditions of the Haida and Inuit and their transcribers and on modern works by playwright Tomson Highway and authors Lee Maracle and Thomas King among others. These commentaries illuminate the way in which Native writers view themselves and their disparate worlds, their gifts for pathos, humour and self-parody and their search for their own voices and distinct forms of communication.

Viewing Canada's Native peoples in historical, anthropological and political contexts, the book exposes prejudices and misconceptions entrenched since colonial days regarding Native societies and their moral, spiritual and political values embodied in their hereditary literature. Just as Native visual art has flourished in recent years, the book records the initiatives now being taken by Native societies to preserve and promote their own cultural identity through the spoken and written word. These include control of their own education, creative writing programs, projects to preserve still extant languages, folklore, songs and rituals, and the founding of Native publishing houses. Not only are these endeavours valuable contributions to tribal cultures but they also contribute to the past and ongoing literary heritage of Canada as a nation.

Recognition of the place of Native literature as an integral part of the Canadian cultural scene is one of the main goals of *Native Writers and Canadian Writing*. As W. H. New points out, this collection is a speaking place, a series of opportunities to begin listening. *Native Writers and Canadian Writing* has been produced as one of the projects celebrating the 75th anniversary of the University of British Columbia.

The Beast of Bray Road Linda S. Godfrey, 2003. In the early 1990s, people around the small town of Elkhorn, Wisconsin, claimed to see strange, hairy, wolf-headed creatures that sometimes walked upright and seemed not afraid of man. The canid sensation was soon dubbed *Beast of Bray Road* after the location of the first reported sightings. Author Linda Godfrey began investigating this story and soon found herself in the middle of a national sensation. Nobody has ever been able to prove whether the beast is a flesh and blood werewolf or will-o-the-wisp, demon dog or noble animal. But the author gives the reader plenty to chew on. Make up your own mind if you do so at all, only after the marrow has been extracted and well digested.

*Nella Capanna di Medicina* Francesco Spagna, 2024-10-16. Cosa intendono i Nativi nordamericani per Medicina? La loro tradizione non indietro nel tempo, in un passato inarrivabile, ma qui intorno a noi, una fonte di vita alla quale sempre possiamo attingere. In questo senso, Medicina. Le loro tradizioni sciamaniche riscoperte e reinterpretate mettono in comunicazione il nostro tempo presente con un tempo ancestrale comune a tutta l'umanità. Il concetto di tradizione dei Nativi Americani viene inteso e affrontato da Francesco Spagna, antropologo, come un deposito sapienziale di risorse di cultura popolare. Nella *Capanna di Medicina*, della tradizione, scopriamo che il benessere di essere è il significato, l'insegnamento più importante. Il benessere non può essere oggettivamente descritto, traslato, rimandato a tempi a venire. Va colto nel suo accadere. Il volume *Nella Capanna di Medicina* costruisce un percorso interpretativo su diversi aspetti della storia e delle tradizioni spirituali dei Nativi Americani: la cerimonia di iniziazione sciamanica, Midewiwin, la figura mitologica

*Millenarian Dreams and Racial Nightmares* John H. Matsui, 2021-05-19 In *Millenarian Dreams and Racial Nightmares* John H Matsui argues that the political ideology and racial views of American Protestants during the Civil War mirrored their religious optimism or pessimism regarding human nature perfectibility and the millennium While previous historians have commented on the role of antebellum eschatology in political alignment none have delved deeply into how religious views complicate the standard narrative of the North versus the South Moving beyond the traditional optimism pessimism dichotomy Matsui divides American Protestants of the Civil War era into premillenarian and postmillenarian camps Both postmillenarian and premillenarian Christians held that the return of Christ would inaugurate the arrival of heaven on earth but they disagreed over its timing This disagreement was key to their disparate political stances Postmillenarians argued that God expected good Christians to actively perfect the world via moral reform of self and society and free labor ideology whereas premillenarians defended hierarchy or racial mastery or both Northern Democrats were generally comfortable with antebellum racial norms and were cynical regarding human nature they therefore opposed Republicans utopian plans to reform the South Southern Democrats who held premillenarian views like their northern counterparts pressed for or at least acquiesced in the secession of slaveholding states to preserve white supremacy Most crucially enslaved African American Protestants sought freedom a postmillenarian societal change requiring nothing less than a major revolution and the reconstruction of southern society *Millenarian Dreams and Racial Nightmares* adds a new dimension to our understanding of the Civil War as it reveals the wartime marriage of political and racial ideology to religious speculation As Matsui argues the postmillenarian ideology came to dominate the northern states during the war years and the nation as a whole following the Union victory in 1865
