Religion in the British Navy 1815-1879 Richard Blake, 2014 Shows how the rise of evangelical religion in the navy helped create a new kind of sailor technologically trained and steeped in a higher set of values This book examines how as the nineteenth century progressed religious piety especially evangelical piety was seen in the British navy less as eccentric and marginal and more as an essential ingredient of the character looked for in professional seamen The book traces the complex interplay between formal religious observance such as Sunday worship and pockets of zealous piety showing how evangelicalism gradually earned less grudging regard until in the 1860s and 1870s it became a dominant source of values and a force for moral reform Religion in the British Navy explains this shift outlining how Arctic expeditions showed the need for dependability and character how Health Returns revealed the full extent of sexual licence and demonstrated the urgency of moral reform and how manning difficulties in the Russian War of 1854 1856 showed that a modern fleet required a new type of sailor technologically trained and steeped in a higher set of values The book also discusses how the navy with its newly awakened religious sensibilities played a major role in the expansion of Protestant missions globally in exploration convict transportation the expansion of imperial frontiers and worldwide maritime policing operations Fervent piety had an effect in all these areas religion had helped develop a new kind of manliness where piety as well as daring had a place

Doing Time in the Depression Ethan Blue, 2014-11-22 As banks crashed belts tightened and cupboards emptied across the country American prisons grew fat *Doing Time in the Depression* tells the story of the 1930s as seen from the cell blocks and cotton fields of Texas and California prisons state institutions that held growing numbers of working people from around the country and the world overwhelmingly poor disproportionately non white and displaced by economic crisis Ethan Blue paints a vivid portrait of everyday life inside Texas and California's penal systems Each element of prison life from numbing boredom to hard labor from meager pleasure in popular culture to crushing pain from illness or violence demonstrated a contest between keepers and the kept From the moment they arrived to the day they would leave inmates struggled over the meanings of race and manhood power and poverty and of the state itself In this richly layered account Blue compellingly argues that punishment in California and Texas played a critical role in producing a distinctive set of class race and gender identities in the 1930s some of which reinforced the social hierarchies and ideologies of New Deal America and others of which undercut and troubled the established social order He reveals the underside of the modern state in two very different prison systems and the making of grim institutions whose power would only grow across the century
