## **Ordinary Places Sacred Spaces:**

**Ordinary Places, Sacred Spaces** Evelyn Mattern, Ordinary Places Sacred Spaces Grace is waiting for us in the most unlikely places we need only stop to take notice Ordinary Places Sacred Spaces is an extraordinary work of original prose poetry and art that explores the sacredness of our surroundings Both a spiritual journey and a celebration Ordinary Places Sacred Spaces beautifully illuminates the everyday areas of our lives the humble places our souls call home **Ordinary Places, Sacred Spaces** Evelyn Mattern, 2005 Spiritual journey and celebration this original work explores the everyday areas of our lives the humble places our souls call home Sacred Places, Sacred Spaces Robert H. Stoddard, E. Alan Morinis, 1997 *Shopping Malls and Other Sacred Spaces* Jon Pahl, 2008-12-29 Christian historian Sidney Mead has observed In America space has played the part that time has played in older cultures of the world In *Shopping Malls and Other Sacred Spaces* Jon Pahl examines this provocative statement in conversation with what he calls the spatial character of American theology He argues that places are always imaginatively constructed by the human beings who inhabit them Sometimes this spatial theology works to our benefit other times it poses spiritual risks What happens when our banal clothing of the sacred violates our genuine need for comfort and intimacy Or when we remember that the fleeting pleasures of a shopping trip or a Disneyland escape are designed to fill someone else's pocket rather than the spiritual emptiness in our own hearts Pahl develops several ways to clothe the divine from within the Christian tradition He introduces a theology of place that reveals aspects of God's character through biblical metaphors drawn from physical spaces such as the true vine the rock and the living water Accessible and thought provoking this enlightening book provides a better grasp of our particularly American way of lending religious significance to spaces of all kinds **Sacred Sites, Sacred Places** David L. Carmichael, Jane Hubert, Brian Reeves, Audhild Schanche, 2013-04-15 Sacred Sites Sacred Places explores the concept of sacred and what it means and implies to people in differing cultures It looks at why people regard some parts of the land as special and why this ascription remains constant in some cultures and changes in others Archaeologists legislators and those involved in heritage management sometimes encounter conflict with local populations over sacred sites With the aid of over 70 illustrations the book examines the extreme importance of such sacred places in all cultures and the necessity of accommodating those intimate beliefs which are such a vital part of ongoing cultural identity Sacred Sites Sacred Places therefore will be of help to those who wish to be non destructive in their conservation and excavation practices This book is unique in attempting to describe the belief systems surrounding the existence of sacred sites and at the same time bringing such beliefs and practices into relationship with the practical problems of everyday heritage management The geographical coverage of the book is exceptionally wide and its variety of contributors including indigenous peoples archaeologists and heritage professionals is unrivalled in any other publication **On the Road to Being There**, 2006-08-01 This volume consists of a collection of twelve empirical studies that address theoretical and practical issues relating to pilgrimage and

tourism activities in late modernity As a contribution to the Religion and Social Order series sponsored by the Association for the Sociology of Religion these studies are particularly directed to assessing both the role of religion in the pilgrimage tourism nexus and the ways in which religious expressions have changed as a result of the technological and social changes of late modernity that affect human behavior in a more general sense The chapters address neo pagan pilgrimage tours to ancient pagan temples travels to spiritual healers the development of historical sites by American religious movements of nineteenth century origin labyrinths pilgrimages that emphasize walking a journey rather than visiting buildings virtual pilgrimage the Roman Jubilee of 2000 Ky to s Gion Festival and similar topics

### **Landscape as Sacred**

**Space** Steven Lewis,2005-07-15 Steven Lewis s Landscape as Sacred Space Metaphors for the Spiritual Journey invites new

discussions about our spiritual journeys and allows seekers to rethink approaches to Christian spirituality and theology in light of postmodernity Landscape metaphors provide a common and accessible language to articulate one's spiritual journey Spiritual mountains deserts and valleys are dominant landscapes on our journey through life Most people have experienced the joy of a mountaintop spiritual experience the pain of spiritual deserts or perhaps the dreariness too often associated with spiritual valleys There is a tendency however to highlight spiritual mountaintops while avoiding spiritual deserts and ignoring spiritual valleys This leaves many Christians ill equipped either to deal with crises or to integrate God into ordinary life Each landscape offers rich lessons that when combined together lead us toward a maturing faith and into a deeper relationship with God Landscape as Sacred Space is intended to aid those who search for more meaningful ways to articulate their faith journey The book grants permission to struggle with life's landscapes provides safe spaces to reflect on the journey and introduces language that enables exploration and discovery African Sacred Spaces 'BioDun J. Ogundayo, Julius O.

Adekunle, 2019-02-06 African Sacred Spaces Culture History and Change is a collection of carefully and analytically written essays on different aspects of African sacred spaces The interaction between the past and present points to Africans continuing recognition of certain natural phenomena and places as sacred Western influence the introduction of Christianity and Islam as well as modernity have not succeeded in completely obliterating African spirituality and sacred observances especially as these relate to space in its various iterations Indeed Africans on the continent and in the Diasporas have responded to the challenges of history environmentalism and sustainability with sober and versatile responses in their reverence for sacred space as expressed through a variety of religious historical and spiritual practices as this volume attempts to show **The Geography of Religion** Roger W. Stump, 2008-04-04 The only book of its kind this balanced and

accessibly written text explores the geographical study of religion Roger W Stump presents a clear and meticulous examination of the intersection of religious belief and practice with the concepts of place and space He begins by analyzing the factors that have shaped the spatial distributions of religious groups including the seminal events that have fostered the organization of religions in diverse hearths and the subsequent processes of migration and conversion that have spread religious beliefs The author then assesses how major religions have diversified as they have become established in disparate places producing a variety of religious systems from a common tradition Stump explores the efforts of religious groups to control secular space at various scales relating their own uses of particular spaces and the meanings they attribute to space beyond the boundaries of their own communities Examining sacred space as a diverse but recurring theme in religious belief the book considers its role in religious forms of spatial behavior and as a source of conflict within and between religious groups Refreshingly jargon free and impartial this text provides a broad comparative view of religion as a focus of geographical inquiry **American Sacred Space** David Chidester, Edward T. Linenthal, 1995-11-22 In a series of pioneering studies this book examines the creation and the conflict behind the creation of sacred space in America The essays in this

volume visit places in America where economic political and social forces clash over the sacred and the profane from wilderness areas in the American West to the Mall in Washington D C and they investigate visions of America as sacred space at home and abroad Here are the beginnings of a new American religious history told as the story of the contested spaces it has inhabited The contributors are David Chidester Matthew Glass Edward T Linenthal Colleen McDannell Robert S Michaelson Rowland A Sherrill and Bron Taylor

**Cultural Politics of Targeted Killing** Kyle Grayson, 2016-07-15 The deployment of remotely piloted air platforms RPAs or drones has become a defining feature of contemporary counter insurgency operations Scholarly analysis and public debate has primarily focused on two issues the legality of targeted killing and whether the practice is effective at disrupting insurgency networks and the intensive media and activist scrutiny of the policy processes through which targeted killing decisions have been made While contributing to these ongoing discussions this book aims to determine how targeted killing has become possible in contemporary counter insurgency operations undertaken by liberal regimes Each chapter is oriented around a problematisation that has shaped the cultural politics of the targeted killing assemblage Grayson argues that in order to understand how specific forms of violence become prevalent it is important to determine how problematisations that enable them are shaped by a politico cultural system in which culture operates in conjunction with technological economic governmental and geostrategic elements The book also demonstrates that the actors involved what they may be attempting to achieve through the deployment of this form of violence how they attempt to achieve it and where they attempt to achieve it are also shaped by culture The book demonstrates how the current social relations prevalent in liberal societies contain the potential for targeted killing as a normal rather than extraordinary practice It will be of great use for academic specialists and graduate students in international studies geography sociology cultural studies and legal studies

**Sacred Space in Israel and Palestine** Marshall J. Breger, Yitzhak Reiter, Leonard Hammer, 2013-06-19 Religion and religious nationalism have long played a central role in many ethnic and national conflicts and the importance of religion to national identity means that territorial disputes can often focus on the contestation of holy places and sacred territory Looking at the case of Israel and Palestine this book highlights the nexus between religion and politics through the process of classifying holy places giving them meaning and interpreting their standing in religious and civil law within governmental policy and within international and local communities Written by a team of renowned scholars from within and outside the region this book follows on from Holy Places in the Israeli Palestinian Conflict Confrontation and Co existence to provide an insightful look into the politics of religion and space Examining Jerusalem s holy basin from a variety of perspectives and disciplines it provides unique insights into the way Jewish Christian and Muslim authorities scholars and jurists regard sacred space and the processes grass roots and official by which spaces become holy in the eyes of particular communities Filling an important gap in the literature on Middle East peacemaking the book will be of interest to scholars and students of the Middle East conflict conflict resolution political science urban studies and history of religion

*Sacred Space for the Missional Church* William R. McAlpine, 2011-02-14 Sacred Space for the Missional Church examines the strong link between the theology and mission of the Church and the spaces in which and from which that theology and mission are lived out The author demonstrates that the built environment is not incidental or even subservient to mission Rather it is a key player in the fulfillment and the communication of that mission The book begins with a working definition of the missional church underscoring the connection between God's mission *missio Dei* and the Church's mission The reader is presented with historical and theological frameworks for sacred space and reminded of the pivotal role of the built environment in the fulfillment of the mission of the Church The design and construction of sacred spaces are shown to be fundamentally a theological exercise and not solely a matter of function pragmatics and fiscal astuteness The author questions the uncritical application of blanket statements such form must follow function and challenges the conviction that it does not matter where worship occurs only that it occurs The book addresses genuine concerns such as legitimizing the cost of church buildings and concludes with practical suggestions and essential questions that must be considered in posturing the built environment within the missional praxis of the Church
