

EVERYDAY STALINISM

ORDINARY LIFE IN EXTRAORDINARY
TIMES: SOVIET RUSSIA IN THE 1930s

SHEILA FITZPATRICK

Ordinary Stalinism

Silvio Pons, Robert Service

Ordinary Stalinism:

Everyday Stalinism Sheila Fitzpatrick, 1999-03-04 Here is a pioneering account of everyday life under Stalin written by a leading authority on modern Russian history Focusing on the urban population Fitzpatrick depicts a world of privation overcrowding endless lines and broken homes in which the regime's promises of future socialist abundance rang hollowly We read of a government bureaucracy that often turned life into a nightmare and of how ordinary citizens tried to circumvent it We also read of the secret police whose constant surveillance was endemic at this time and the waves of terror like the Great Purges of 1937 which periodically cast society into turmoil

Ordinary Stalinism Ronald Tiersky, 1989 Ordinary Stalinism Ronald Tiersky, 1985-01-01

Stalinism Alter L. Litvin, John L. H. Keep, 2005 This volume the fruit of co operation between a British and Russian historian seeks to review comparatively the progress made in recent years largely thanks to the opening of the Russian archives in enlarging our understanding of Stalin and

Stalinism Reloaded Sándor Horváth, 2017-03-27 The Hungarian city of Sztefnváros or Stalin City was intended to be the paradigmatic urban community of the new communist society in the 1950s In Stalinism Reloaded Sándor Horváth explores how Stalin City and the socialist regime were built and stabilized not only by the state but also by the people who came there with hope for a better future By focusing on the everyday experiences of citizens Horváth considers the contradictions in the Stalinist policies and the strategies these bricklayers bureaucrats shop girls and even children put in place in order to cope with and shape the expectations of the state Stalinism Reloaded reveals how the state influenced marriage patterns family structure and gender relations While the devastating effects of this regime are considered a convincing case is made that ordinary citizens had significant agency in shaping the political policies that governed them

Stalinism at War Mark Edele, 2021-09-23 Masterfully told and compellingly reinterpreted The Moscow Times Stalinism at War tells the epic story of the Soviet Union in World War Two Starting with Soviet involvement in the war in Asia and ending with a bloody counter insurgency in the borderlands of Ukraine Belarus and the Baltics the Soviet Union's war was both considerably longer and more all encompassing than is sometimes appreciated Here acclaimed scholar Mark Edele explores the complex experiences of both ordinary and extraordinary citizens Russians and Koreans Ukrainians and Jews Lithuanians and Georgians men and women loyal Stalinists and critics of his regime to reveal how the Soviet Union and leadership of a ruthless dictator propelled Allied victory over Germany and Japan In doing so Edele weaves together material on the society and culture of the wartime years with high level politics and unites the military economic and political history of the Soviet Union with broader popular histories from below The result is an engaging intelligent and authoritative account of the Soviet Union from 1937 to 1949

The Russian Revolution and Stalinism Graeme Gill, Roger D. Markwick, 2021-04-25 This book focuses upon significant aspects of Stalinism as a system in the USSR It sheds new light on established questions and addresses issues that have never before been raised in the study of Stalinism Stalinism constitutes one of the most striking and contentious phenomena

of the twentieth century It not only transformed the Soviet Union into a major military industrial power but through both the Second World War and the ensuing Cold War and its effect on the political Left throughout much of the world it also transformed much of that world This collection of papers by an international cast of authors investigates a variety of major aspects of Stalinism Significant new questions like the role of private enterprise and violence in state making as well as some of the more established questions like the number of Soviet citizens who died in the Second World War whether agricultural collectivisation was genocidal nationality policy the politics of executive power and the Leningrad affair are addressed here in innovative and stimulating ways The chapters in this book were originally published as a special issue of Europe Asia Studies

Bolshevism, Stalinism and the Comintern N. LaPorte, K. Morgan, M. Worley, 2008-07-24 Bringing together leading authorities and cutting edge scholars this collection re examines the defining concepts of Stalinism and the Stalinization odel The aim of the book is to explore how the common imperatives of a centralized movement were experienced across national boundaries

Practicing Stalinism J. Arch Getty, 2013-08-28 In old Russia patron client relations clan politics and a variety of other informal practices spanned the centuries Government was understood to be patrimonial and personal rather than legal and office holding was far less important than proximity to patrons Working from heretofore unused documents from the Communist archives J Arch Getty shows how these political practices and traditions from old Russia have persisted throughout the twentieth century Soviet Union and down to the present day Getty examines a number of case studies of political practices in the Stalin era and after These include cults of personality the transformation of Old Bolsheviks into noble grandees the Communist Party s personnel selection system and the rise of political clans family circles after the 1917 Revolutions Stalin s conflicts with these clans and his eventual destruction of them were key elements of the Great Purges of the 1930s But although Stalin could destroy the competing clans he could not destroy the historically embedded patron client relationship as a final chapter on political practice under Putin shows

Debates on Stalinism Mark Edele, 2020-06-11 Debates on Stalinism introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled Debates on Stalinism allows readers to better understand not only the history of history writing but also contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine

The Nature of Stalin's Dictatorship E. A. Rees, 2003-11-14 This is the first attempt to systematically study the nature of the political leadership system under Stalin It focuses both on the formal institutions of power such as the Politburo and on the informal networks of decision making that were a central feature of his system of rule It draws on a wealth of new archival material to

highlight Stalin's relations with his co-leaders and wider elite groups and offers different perspectives on the nature and degree of Stalin's system of personal power The Origins of the Stalinist Political System Graeme Gill, Graeme J. Gill, 2002-07-18 New and challenging perspectives on Soviet political development from 1917 to 1941 **A Dictionary of 20th-Century Communism** Silvio Pons, Robert Service, 2012-03-04 Shelf List Add To Favorites With more than 400 concise entries this unique reference provides encyclopedic coverage of 20th century communism and its enormous impact on world history from the Russian Revolution through the collapse of the Soviet Union and beyond Drawing on the archives of former communist states this indispensable work reflects the most up to date understanding of communism as an ideological and political force Examines the political intellectual and social influences of communism around the globe Features contributions from an international team of 160 scholars Includes more than 400 entries on major topics such as Figures Lenin Mao Stalin Ho Chi Minh Pol Pot Castro Gorbachev Events Cold War Prague Spring Cultural Revolution Sandinista Revolution Ideas and concepts Marxism Leninism cult of personality labor Organizations and movements KGB Comintern Gulag Khmer Rouge Related topics totalitarianism nationalism antifascism anticommunism McCarthyism Guides readers to further research through bibliographies cross references and an index Quatrième de couverture *Work of History* Peter Beilharz, Sian Supski, 2022-07-05 Stuart Macintyre was an eminent figure within the world of Australian history scholarship for 45 years This collection of essays and responses revisits and extends this extraordinary life of achievement and engagement Leading scholars write here of Macintyre's contribution to understanding radicalism and communism postwar reconstruction education and civics universities liberalism historiography and the history wars They also tell us about collegiality and friendship The practice of history writing and telling has long been central to the narrative of the nation in Australia The Work of History connects us to that past It raises the question of what comes next and re-values Macintyre's contribution serving both as a snapshot of the state of the historian's art and an introduction to those who come more recently to this highly contested field **Familiar Strangers** Erik R. Scott, 2017 Familiar Strangers examines how the Soviet empire was built and ultimately dismantled by ethnic outsiders Scott retells Soviet history from the perspective of the socialist state's internal Georgian diaspora illuminating processes of mobility within Soviet borders and offering an understanding of empire that transcends the divide between colonizer and colonized The Cambridge History of Russia: Volume 3, The Twentieth Century Maureen Perrie, Ronald Grigor Suny, 2006-11-02 A major history of twentieth century Russia by leading scholars in the field *Symbols and Legitimacy in Soviet Politics* Graeme Gill, 2011-03-24 Symbols and Legitimacy in Soviet Politics analyses the way in which Soviet symbolism and ritual changed from the regime's birth in 1917 to its fall in 1991 Graeme Gill focuses on the symbolism in party policy and leaders' speeches artwork and political posters and urban redevelopment and on ritual in the political system He shows how this symbolism and ritual were worked into a dominant metanarrative which underpinned Soviet political development Gill also shows how in each of these spheres the

images changed both over the life of the regime and during particular stages the Leninist era metanarrative differed from that of the Stalin period which differed from that of the Khrushchev and Brezhnev periods which was in turn changed significantly under Gorbachev In charting this development the book lays bare the dynamics of the Soviet regime and a major reason for its fall Zizek and Politics Matthew Sharpe, 2010-03-14 In Zizek and Politics Geoff Boucher and Matthew Sharpe go beyond standard introductions to spell out a new approach to reading Zizek one that can be highly critical as well as deeply appreciative They show that Zizek has a raft of fundamental positions that enable his theoretical positions to be put to work on practical problems Explaining these positions with clear examples they outline why Zizek's confrontation with thinkers such as Derrida Foucault and Deleuze has so radically changed how we think about society They then go on to track Zizek's own intellectual development during the last twenty years as he has grappled with theoretical problems and the political climate of the War on Terror This book is a major addition to the literature on Zizek and a crucial critical introduction to his thought

Building Socialism Yiannis Kokosalakis, 2023-05-25 By placing the party grassroots at the centre of its focus *Building Socialism* presents an original account of the formative first two decades of the Soviet system Assembled in a large network of primary party organisations PPO the Bolshevik rank and file was an army of activists made up of ordinary people While far removed from the levers of power they were nevertheless charged with promoting the Party's programme of revolutionary social transformation in their workplaces neighbourhoods and households Their regular meetings conferences and campaigns have generated a voluminous source base This rich material provides a unique view of the practical manifestation of the Party's revolutionary mission and forms the basis of this insightful new narrative of how the Soviet republic functioned in the period from the end of the Russian Civil War in 1921 to its invasion by Nazi Germany in 1941

When Reason Goes on Holiday Neven Sesardic, 2016-11-15 Philosophers usually emphasize the importance of logic clarity and reason Therefore when they address political issues they will usually inject a dose of rationality in these discussions right Wrong This book gives a lot of examples showing the unexpected level of political irrationality among leading contemporary philosophers The body of the book presents a detailed analysis of extreme leftist views of a number of famous philosophers and their occasional descent into apology for and occasionally even active participation in totalitarian politics Most of these episodes are either virtually unknown even inside the philosophical community or have received very little attention The author tries to explain how it was possible that so many luminaries of twentieth century philosophy who invoked reason and exhibited rigor and careful thinking in their professional work succumbed to irrationality and ended up supporting some of the most murderous political regimes and ideologies The huge leftist bias in contemporary philosophy and its persistence over the years is certainly a factor but it is far from being the whole story Interestingly the indisputably high intelligence of these philosophers did not actually protect them from descending into political insanity It is argued that on the contrary both their brilliance and the high esteem they enjoyed in the profession only made them more self confident

and less cautious thereby eventually making them blind to their betrayal of reason and the monstrosity of the causes they defended

The Enigmatic Realm of **Ordinary Stalinism**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Ordinary Stalinism** a literary masterpiece penned with a renowned author, readers embark on a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect on the hearts and minds of people who partake in its reading experience.
