Ogren, 2005-04-30 The American State Normal School is the first comprehensive history of the state normal schools in the United States Although nearly two hundred state colleges and regional universities throughout the U S began as normal schools the institutions themselves have buried their history and scholars have largely overlooked them As these institutions later became state colleges and or regional universities they distanced themselves from the low status of elementary literally erasing physical evidence of their normal school past In doing so they buried the rich history of generations of students for whom attending normal school was an enriching and sometimes life changing experience Focusing on these students the first wave of non traditional students in higher education The American State Normal School is a much needed re examination of the state normal school This book was subject of an annual History of Education Society panel for best new books in the field **The Chautauqua Moment** Andrew Chamberlin Rieser, 2003-11-05 This book traces the rise and decline of what Theodore Roosevelt once called the most American thing in America The Chautauqua movement began in 1874 on the shores of Chautauqua Lake in western New York More than a college or a summer resort or a religious assembly it was a composite of all of these completely derivative yet brilliantly innovative For five decades Chautauqua dominated adult education and reached millions with its summer assemblies reading clubs and traveling circuits Scholars have long struggled to make sense of Chautauqua's pervasive yet disorganized presence in American life In this critical study Andrew Rieser weaves the threads of Chautauqua into a single story and places it at the vital center of fin de si cle cultural and political history Famous for its commitment to democracy women's rights and social justice Chautauqua was nonetheless blind to issues of class and race How could something that trumpeted democracy be so

undemocratic in practice The answer Rieser argues lies in the historical experience of the white Protestant middle classes who struggled to reconcile their parochial interests with radically new ideas about social progress and the state The Chautauqua Moment brings color to a colorless demographic and spins a fascinating tale of modern liberalism's ambivalent but enduring cultural legacy *Sweet Cakes, Long Journey* Marie Rose Wong, 2011-07-01 Around the turn of the twentieth century and for decades thereafter Oregon had the second largest Chinese population in the United States In terms of geographical coverage Portland's two Chinatowns one an urban area of brick commercial structures one a vegetable gardening community of shanty dwellings were the largest in all of North America Marie Rose Wong chronicles the history of Portland's Chinatowns from their early beginnings in the 1850s until the repeal of the Chinese Exclusion Act in the 1940s drawing on exhaustive primary material from the National Archives including more than six thousand individual immigration files census manuscripts letters and newspaper accounts She examines both the enforcement of Exclusion Laws in the United States and the means by which Chinese immigrants gained illegal entry into the country The spatial and ethnic makeup of the combined Old Chinatown afforded much more contact and accommodation between Chinese and non Chinese people than is usually assumed to have occurred in Portland and than actually may have occurred elsewhere *Sweet Cakes Long Journey* explores the contributions that Oregon's leaders and laws had on the development of Chinese American community life and the role that the early Chinese immigrants played in determining their own community destiny and the development of their Chinatown in its urban form and vernacular architectural expression *Sweet Cakes Long Journey* is an original and notable addition to the history of Portland and to the field of Asian American studies *Undelivered Letters to Hudson's Bay Company Men on the Northwest Coast of America, 1830-57* Helen M. Buss, Judith Hudson Beattie, 2011-11-01 In the early nineteenth century when the Hudson's Bay Company sent men to its furthest posts along the coast of North America's Pacific Northwest the letters of those who cared for those men followed them in the Company's supply ships Sometimes these letters missed their objects the men had returned to Britain or deserted their ships or died The Company returned the correspondence to its London office and over the years amassed a file of undelivered letters Many of these remained sealed for 150 years and until they were opened by archivist Judith Hudson Beattie when the Company archives were moved to Canada These letters tell the fascinating stories of ordinary people whose lives are rarely recounted in traditional histories Beattie and Helen M Buss skilfully introduce us to both the lives of the letter writers and their would be recipients Their commentaries frame for contemporary readers the words of early nineteenth century working and middle class British folk as well as letters to voyageurs from Quebec The stories of their lives fathers struggling to support a family widowed mothers yearning to see their sons bereft sweethearts left behind and wives raising their children alone reach out over two centuries to offer rare insight into the varied worlds of men and women in the early nineteenth century many of whom became settlers in Washington Oregon and the new British colony of Vancouver Island *Unlikely Alliances* Zoltán Grossman, 2017-06-20

Often when Native nations assert their treaty rights and sovereignty they are confronted with a backlash from their neighbors who are fearful of losing control of the natural resources Yet when both groups are faced with an outside threat to their common environment such as mines dams or an oil pipeline these communities have unexpectedly joined together to protect the resources Some regions of the United States with the most intense conflicts were transformed into areas with the deepest cooperation between tribes and local farmers ranchers and fishers to defend sacred land and water Unlikely Alliances explores this evolution from conflict to cooperation through place based case studies in the Pacific Northwest Great Basin Northern Plains and Great Lakes regions during the 1970s through the 2010s These case studies suggest that a deep love of place can begin to overcome even the bitterest divides
