concentrating on common stumbling blocks pitfalls and sources of confusion that aren't covered in other introductory wine books. Instead of presenting a curriculum in a categorical fashion, this fast-paced, witty, and literate book shows why trusting your own instincts is more important than studying diagrams of the tongue, pouring over aroma wheels, or memorizing the minute details of all the leading estates. It explains how and why labels, ratings, and reviews can be misleading; how to see through various marketing ploys; and what the most persistent misconceptions are about serving and storing wine. Readers learn how to read between reviewer's lines; how to make excellent pairings with little fuss; and how to converse with sommeliers and retailers in a way that tells whether they are trying to help or giving them the run-around. Without giving you any tables, charts, or listings of regions and producers, or requiring you to memorize a glossary of definitions before you can understand what the author is saying, this book communicates all the essential skills you need to fall in love with wine and become a very savvy consumer. Filled with unique insights and down-to-earth, practical wine advice, this book lets the reader understand what the others are really trying to say.
