Organic Produce Supply Chains in India (CMA Publication No. 222) Sukhpal Singh, 2009-06-28 This book examines the production procurement and marketing aspects of the organic produce sector with the focus on marketing agencies and producers in each commodity product chain It analyses the various institutional

arrangements like contract farming networking and producer level co ordination prevalent in this sector Based on case studies of various type of organic players in India both in export market as well as in domestic market Organic Agriculture Acram Taji,John Reganold,2006-06-20 With global revenue surpassing twenty five billion dollars annually organic agriculture is a highly visible and rapidly growing component of agricultural production In Organic Agriculture A Global Perspective Paul Kristiansen Acram Taji and John Reganold and their international group of contributors scientifically review key aspects of organic agriculture At the intersection of research education and practice the contributors look at the organic agricultural movement s successes and limitations The first half of this book critically evaluates the agricultural production of both plants and livestock in organic farming systems All major aspects of organic agriculture are explored including historical background and underlying principles soil fertility management crop and animal production breeding strategies and crop protection This global and comprehensive overview also addresses the economic social and political aspects of organic farming These include economics and marketing standards and certification environmental impacts and social responsibility and research education and extension The book is a unique and timely science based international work documenting current practices in organic agriculture and evaluating their strengths and weaknesses For more than two decades research into organic methods by mainstream scientists has generated a large body of information that can now be integrated and used for assessing the actual impacts of organic farming in a wide range of disciplines The knowledge of selected international experts has been combined in one volume providing a comprehensive review of organic farming globally Researchers teachers extensionists students primary producers and others around the world who are interested in sustainable agriculture will find this book to be a valuable and reliable resource **Organic Input Production and**

Marketing in India Efficiency, Issues and Policies (CMA Publication No. 239) Kumara Charyulu Deevi,Subho Biswas,2011-07-25 The success of industrial agriculture and the green revolution in recent decades has often masked by significant externalities affecting natural resources and human health as well as agriculture itself Environmental and health problems associated with agriculture have been increasingly well documented but it is only recently that the scale of the costs has attracted the attention of planners and scientists Increasing consciousness about conservation of environment as well as of health hazards caused by agrochemicals has brought a major shift in consumer preference towards food quality This timely book is a one stop resource for agriculturists planners policy makers and other stakeholders who are involved in organic cultivation The findings emanated from this study would be helpful for Ministry of Agriculture organic producers organic input users and other associations involved in organic produce supply chains in the country **Organic Food and Farming in China** Steffanie Scott,Zhenzhong Si,Theresa Schumilas,Aijuan Chen,2018-10-03 Despite reports of food safety and quality scandals China has a rapidly expanding organic agriculture and food sector and there is a revolution in ecological food and ethical eating in China s cities This book shows how a set of social economic cultural and environmental conditions

have converged to shape the development of a formal organic sector created by top down state developed standards and regulations and an informal organic sector created by bottom up grassroots struggles for safe healthy and sustainable food This is generating a new civil movement focused on ecological agriculture and quality food Organic movements and markets have typically emerged in industrialized food systems that are characterized by private land ownership declining small farm sectors consolidated farm to retail chains predominance of supermarket retail standards and laws to safeguard food safety and an active civil society sector The authors contrast this with the Chinese context with its unique version of capitalism with social characteristics collective farmland ownership and predominance of smallholder agriculture and emerging diverse marketing channels China s experience also reflects a commitment to domestic food security evolving food safety legislation and a civil society with limited autonomy from a semi authoritarian state that keeps shifting the terrain of what is permitted The book will be of great interest to advanced students and researchers of agricultural and food systems and policy as well as rural sociology and Chinese studies *Southeast Asia and the Civil Society Gaze* Gabi Waibel, Judith Ehlert, Hart N.

Feuer, 2013-11-20 As developing countries with recent histories of isolation and extreme poverty followed by restoration and reform both Cambodia and Vietnam have seen new opportunities and demands for non state actors to engage in and manage the effects of rapid socio economic transformation This book examines how in both countries civil society actors and the state manage their relationship to one another in an environment that is continuously shaped and re constructed by changing legislation collaboration and negotiation advocacy and protest and social control Further it explores the countries divergent experiences whilst also uncovering the underlying basis and drivers of civil society activity that are shared by Cambodia and Vietnam Crucially this book engages with the contested nature of civil society and how it is socially constructed through research and development activities by looking at contemporary discourses and manifestations of civil society in the two countries including national and community level organisations associations and networks that operate in a variety of sectors such as gender the environment and health Drawing on extensive fieldwork conducted in Cambodia and Vietnam this book will be of huge interest to students and scholars of Southeast Asian studies Southeast Asian politics development studies and civil society

Nutrition and Feeding of Organic Cattle, 2nd Edition Robert Blair, 2021-04-28 Organic cattle farming is on the increase with consumer demand for organic milk and meat growing yearly Beginning with an overview of the aims and principles behind organic cattle production this book presents extensive information about how to feed cattle so that the milk and meat produced meet organic standards and provides a comprehensive summary of ruminant digestive processes and nutrition Since the publication of the first edition global consumers have increasingly become concerned with the sustainability of meat production Here Robert Blair considers the interrelationships of sustainable practices and profitability of organic herds reviewing how to improve forage production and quality and minimizing the need for supplementary feeding using off farm ingredients **New Frontiers in Environmental and Social Labeling** Ulrike Grote, Arnab K. Basu, Nancy

H. Chau,2007-02-17 This volume provides an in depth look at labeling and its relation to the governance of global trade The book aims at bridging the research gaps related to the link between consumers perception of a label with their willingness to pay the impact and the limitations of labeling in the event of food safety hazards and the trade and development dimensions of labeling As such this volume opens a new frontier on issues related to the economics of labeling **Geographical**

Indication and Global Agri-Food Alessandro Bonanno,Kae Sekine,Hart N. Feuer,2019-06-25 This book addresses the relevance of geographical indication GI as a tool for local and socio economic development and democratization of agri food with case studies from Asia Europe and the Americas A geographical indication is a sign used on products that have a specific geographical origin and possess qualities or a reputation that are due to that origin It provides not only a way for businesses to leverage the value of their geographically unique products but also to inform and attract consumers A highly contested topic GI is praised as a tool for the revitalization of agricultural communities while also criticized for being an instrument exploited by global corporate forces to promote their interests There are concerns that the promotion of GI may hamper the establishment of democratic forms of development The contributing authors address this topic by offering theoretically informed investigations of GI from around the world The book includes case studies ranging from green tea in Japan olive oil in Turkey and dried fish in Norway to French wine and Mexican Mezcal It also places GI in the broader context of the evolution and trends of agri food under neoliberal globalization The book will be of interest to researchers policy makers and students in agri food studies sociology of food and agriculture geography agricultural and rural economics environmental and intellectual property law and social development Planning for Change Matthew Bentley,United Nations Environment Programme,2008 The guidelines show how national governments can plan develop implement and monitor a national programme on sustainable consumption and production SCP This is a flexible approach to SCP programme development which will be adapted to local circumstances The guidelines are also useful to countries that already have a SCP programme but are keen to improve and sustain the process They contain nine case studies and several other examples of good practice which illustrate how governments are implementing SCP programmes all over the world
