Trechsel,2020-04-01 Elections are the means by which democratic nations determine their leaders and communication in the context of elections has the potential to shape people s beliefs attitudes and actions Thus electoral persuasion is one of the most important political processes in any nation that regularly holds elections Moreover electoral persuasion encompasses not only what happens in an election but also what happens before and after involving candidates parties interest groups the media and the voters themselves This volume surveys the vast political science literature on this subject emphasizing contemporary research and topics and encouraging cross fertilization among research strands A global roster of authors provides a broad examination of electoral persuasion with international perspectives complementing deep coverage of U S politics Major areas of coverage include general models of political persuasion persuasion by parties candidates and outside groups media influence interpersonal influence electoral persuasion across contexts and empirical methodologies for understanding electoral persuasion One Nation, Two Realities Morgan Marietta,David C. Barker,2019-03-18 The deep divides that define politics in the United States are not restricted to policy or even cultural differences anymore Americans no longer agree on basic questions of fact Is climate change real Does racism still determine who gets ahead Is sexual orientation innate Do immigration and free trade help or hurt the economy Does gun control reduce violence Are false convictions common Employing several years of original survey

data and experiments Marietta and Barker reach a number of enlightening and provocative conclusions dueling fact perceptions are not so much a product of hyper partisanship or media propaganda as they are of simple value differences and deepening distrust of authorities These duels foster social contempt even in the workplace and they warp the electorate The educated on both the right and the left carry the biggest guns and are the quickest to draw And finally fact checking and other proposed remedies don t seem to holster too many weapons they can even add bullets to the chamber Marietta and Barker s pessimistic conclusions will challenge idealistic reformers
