The Organic Machine

The Remaking of the Columbia River

Richard White

Organic Machine The Remaking Of The Columbia River

David J. Jepsen, David J. Norberg

Organic Machine The Remaking Of The Columbia River:

The Organic Machine Richard White, 2011-04-01 The Hill and Wang Critical Issues Series concise affordable works on pivotal topics in American history society and politics In this pioneering study White explores the relationship between the natural history of the Columbia River and the human history of the Pacific Northwest for both whites and Native Americans He concentrates on what brings humans and the river together not only the physical space of the region but also and primarily energy and work For working with the river has been central to Pacific Northwesterners competing ways of life It is in this way that White comes to view the Columbia River as an organic machine with conflicting human and natural claims and to show that whatever separation exists between humans and nature exists to be crossed *The Organic Machine* Richard White, 1996-01-31 In *The Organic Machine* Richard White a distinguished historian and leading scholar of the American West explores the intimate relationship between nature and mankind along the Columbia River Working on the cutting edge of environmental and social history White demonstrates how over the centuries both native peoples and settlers have continually remade the river treating it as a machine designed to churn out energy and sustenance He assesses the impact on the Northwest ecology of enterprises that have marked the river's history from salmon fishing to the Hanford Energy Works nuclear plant and eloquently reveals the insights and illusions of those who work with the river *The Organic Machine* Richard White, 1995

Consuming Nature Gregory Summers, 2006 Takes readers to Wisconsin's Fox River Valley more than fifty years ago to recount how technological and economic progress contributed to residents growing opposition to the industrial pollution of the river *The Yellow River* Ruth Mostern, 2021-01-01 A three thousand year history of the Yellow River and the legacy of interactions between humans and the natural landscape From Neolithic times to the present day the Yellow River and its watershed have both shaped and been shaped by human society Using the Yellow River to illustrate the long term effects of environmentally significant human activity Ruth Mostern unravels the long history of the human relationship with water and soil and the consequences at times disastrous of ecological transformations that resulted from human decisions As Mostern follows the Yellow River through three millennia of history she underlines how governments consistently ignored the dynamic interrelationships of the river's varied ecosystems grasslands riparian forests wetlands and deserts and the ecological and cultural impacts of their policies With an interdisciplinary approach informed by archival research and GIS geographical information system records this groundbreaking volume provides unique insight into patterns transformations and devastating ruptures throughout ecological history and offers profound conclusions about the way we continue to affect the natural systems upon which we depend

The Bureau of Reclamation: Origins and growth to 1945 William D. Rowley, 2006 On cover Reclamation Managing Water in the West Tells the history of the Bureau of Reclamation from 1902 1945 Reclamation Managing Water in the West, The Bureau of Reclamation: Origins and Growth to 1945, Vol. 1, 2006 , 2006

Negotiating a River Daniel Macfarlane, 2014-03-01 It was a megaproject half a

century in the making a technological and engineering marvel that stands as one of the most ambitious borderlands undertakings ever embarked upon by two countries The planning and building of the St Lawrence Seaway and Power Project is one of the defining episodes in North American history The project began with transnational negotiations that spanned two world wars and the formative years of the Cold War and included a failed attempt to construct an all Canadian seaway which was scuttled by US national security fears Once an agreement was reached the massive engineering and construction operation began as did the efforts to move people and infrastructure away from the thousands of acres of land that would soon be flooded Negotiating a River looks at the profound impacts of this megaproject from the complex diplomatic negotiations political manoeuvring and environmental diplomacy to the implications on national identities and transnational relations

Contested Boundaries David J. Jepsen, David J. Norberg, 2017-03-09 Contested Boundaries A New Pacific Northwest History is an engaging contemporary look at the themes events and people that have shaped the history of the Pacific Northwest over the last two centuries An engaging look at the themes events and people that shaped the Pacific Northwest Washington Oregon and Idaho from when only Native Peoples inhabited the land through the twentieth century Twelve theme driven essays covering the human and environmental impact of exploration trade settlement and industrialization in the nineteenth century followed by economic calamity world war and globalization in the twentieth Written by two professors with over 20 years of teaching experience this work introduces the history of the Pacific Northwest in a style that is accessible relevant and meaningful for anyone wishing to learn more about the region s recent history A companion website for students and instructors includes test banks PowerPoint presentations student self assessment tests useful primary documents and resource links www.wiley.com/go/jepsen/contestedboundaries

Unlikely Alliances Zoltán Grossman, 2017-06-20 Often when Native nations assert their treaty rights and sovereignty they are confronted with a backlash from their neighbors who are fearful of losing control of the natural resources Yet when both groups are faced with an outside threat to their common environment such as mines dams or an oil pipeline these communities have unexpectedly joined together to protect the resources Some regions of the United States with the most intense conflicts were transformed into areas with the deepest cooperation between tribes and local farmers ranchers and fishers to defend sacred land and water Unlikely Alliances explores this evolution from conflict to cooperation through place based case studies in the Pacific Northwest Great Basin Northern Plains and Great Lakes regions during the 1970s through the 2010s These case studies suggest that a deep love of place can begin to overcome even the bitterest divides

Encyclopedia of Politics of the American West Steven L. Danver, 2013-04-25 The Encyclopedia of Politics in the American West is an A to Z reference work on the political development of one of America s most politically distinct not to mention its fastest growing region This work will cover not only the significant events and actors of Western politics but also deal with key institutional historical environmental and sociopolitical themes and concepts that are important to more fully understanding the politics of the West

over the last century

Hybrid Nature Daniel Schneider, 2011 A history of the industrial ecosystem that focuses on the biological sewage treatment plant as an early example Biological sewage treatment like electricity power generation telephones and mass transit has been a key technology and a major part of the urban infrastructure since the late nineteenth century But sewage treatment plants are not only a ubiquitous component of the modern city they are also ecosystems a hybrid variety that incorporates elements of both nature and industry and embodies multiple contradictions In *Hybrid Nature* Daniel Schneider offers an environmental history of the biological sewage treatment plant in the United States and England viewing it as an early and influential example of an industrial ecosystem The sewage treatment plant relies on microorganisms and other plants and animals but differs from a natural ecosystem in the extent of human intervention in its creation and management Schneider explores the relationship between society and nature in the industrial ecosystem and the contradictions that define it the naturalization of industry versus the industrialization of nature the public interest versus private patented technology engineers versus bacterial and human labor and purification versus profits in the marketing of sewage fertilizer Schneider also describes biotechnology's direct connections to the history of sewage treatment and how genetic engineering is extending the reaches of the industrial ecosystem to such natural ecosystems as oceans rivers and forests In a conclusion that shows how industrial ecosystems continue to evolve Schneider discusses John Todd's *Living Machine* a natural purification method of sewage treatment as the embodiment of the contradictions of the industrial ecosystem

Developing the Rivers of East and West Africa Heather J. Hoag, 2013-09-12 How did rivers contribute to the economic and political development of modern Africa How did African and European notions of nature's value and meaning differ And how have these evaluations of Africa's rivers changed between 1850 and the present day Drawing upon examples from across the African continent *Developing the Rivers of East and West Africa* explores the role African waterways played in the continent's economic social and political development and provides the first historical study of the key themes in African river history Rivers acted as more than important transportation byways their waters were central to both colonial and postcolonial economic development efforts This book synthesizes the available research on African rivers with new evidence to offer students of African and environmental history a narrative of how people have used and engaged the continent's water resources It analyzes key themes in Africa's modern history European exploration establishment of colonial rule economic development green politics and each case study provides a lens through which to view social economic and ecological change in Africa

Seven Rivers Vanessa Taylor, 2025-09-23 A magisterial history of the seven rivers representing the great natural arteries running through civilization by virtue of the roles they have played in our shared and conflicted world history Every river deserves its own history The seven rivers in this narrative were chosen because they are major rivers that magnify the common qualities of these great natural arteries that run through civilization The Nile Danube Niger Mississippi Ganges Yangtze and Thames are all world rivers by virtue of the roles they have each

played in our shared and conflicted world history They have served as the power bases for empires and have been fought over as frontiers Their river basins those great systems of tributaries and groundwater all flowing to the main river have been plundered for their gold timber salt oil rubber and their people Vast networks have been forged between these rivers such as the deadly middle passage of the slave trade linking the Congo and Mississippi basins And rivers themselves have always had their own logic their natural beauties their floods droughts water borne diseases their tendency to silt up and mutate into marshland their marshy subsidence below the cities of the unwary their changes of course tipping points and disappearances These rivers have shaped our lives just as we have shaped theirs What follows is the story of humanity in seven rivers

North American Odyssey Craig E. Colten, Geoffrey L. Buckley, 2014-03-27 This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective Leading geographers building on current scholarship in the field explore five central themes Part I explores the settling and resettling of the continent through the experiences of Native Americans early European arrivals and Africans Part II examines nineteenth century European immigrants the reconfiguration of Native society and the internal migration of African Americans Part III considers human transformations of the natural landscape in carving out a transportation network replumbing waterways extracting timber and minerals preserving wilderness and protecting wildlife Part IV focuses on human landscapes blending discussions of the visible imprint of society and distinctive approaches to interpreting these features The authors discuss survey systems regional landscapes and tourist and mythic landscapes as well as the role of race gender and photographic representation in shaping our understanding of past landscapes Part V follows the urban impulse in an analysis of the development of the mercantile city nineteenth and twentieth century planning and environmental justice With its focus on human environment interactions the mobility of people and growing urbanization this thoughtful text will give students a uniquely geographical way to understand North American history Contributions by Derek H Alderman Timothy G Anderson Kevin Blake Christopher G Boone Geoffrey L Buckley Craig E Colten Michael P Conzen Lary M Dilsaver Mona Domosh William E Doolittle Joshua Inwood Ines M Miyares E Arnold Modlin Jr Edward K Muller Michael D Myers Karl Raitz Jasper Rubin Joan M Schwartz Steven Silvern Andrew Sluyter Jeffrey S Smith Robert Wilson William Wyckoff and Yolonda Youngs

Manufacturing National Park Nature J. Keri Cronin, 2011-07-01 Jasper National Park is an international travel destination world heritage site and icon of Canadian identity Although national parks occupy a prominent place in the Canadian imagination we are only beginning to understand how their visual imagery has shaped and continues to inform our perception of the natural world ecological issues and ourselves In *Manufacturing National Park Nature* J Keri Cronin draws on visual images such as postcards and tourist snapshots to show that popular forms of picturing nature can have ecological implications that extend far beyond the frame of the image Adopting an ecocritical approach to visual culture she reveals that packaging Jasper as a series of breathtaking vistas and adorable

looking animals masks the real threats to the park s ecosystems In telling the story of how various groups have used photography to shape our ideas about nature this book sets the stage for a re examination of protection policies and acknowledgment of environmental damage in national parks

Living with Lead Bradley D. Snow,2017-06-30 The Coeur d Alenes a twenty five by ten mile portion of the Idaho Panhandle is home to one of the most productive mining districts in world history Historically the globe s richest silver district and also one of the nation s biggest lead and zinc producers the Coeur d Alenes legacy also includes environmental pollution on an epic scale For decades local waters were fouled with tailings from the mining district s more than one hundred mines and mills and the air surrounding Kellogg Idaho was laced with lead and other toxic heavy metals issuing from the Bunker Hill Company s smelter The same industrial processes that damaged the environment and harmed human health however also provided economic sustenance to thousands of local residents and a string of proud working class communities Living with Lead endeavors to untangle the costs and benefits of a century of mining milling and smelting in a small western city and the region that surrounds it

Trading Environments Gordon M. Winder,Andreas Dix,2015-12-07 This volume examines dynamic interactions between the calculative and speculative practices of commerce and the fruitfulness variability materiality liveliness and risks of nature It does so in diverse environments caught up in new trading relationships forged on and through frontiers for agriculture forestry mining and fishing Historical resource frontiers are understood in terms of commercial knowledge systems organized as projects to transform landscapes and environments The book asks how were environments traded and with what environmental and landscape consequences How have environments been engineered standardized and transformed within past trading systems What have been the successes and failures of economic knowledge in dealing with resource production in complex environments It considers cases from northern Europe North and South America Central Africa and New Zealand in the period between 1750 and 1990 and the contributors reflect on the effects of transnational commodity chains competing economic knowledge systems environmental ignorance and learning and resource exploitation In each case they identify tensions blind spots and environmental learning that plagued commercial projects on frontiers

Ecotheology in the Humanities Melissa Brotton,2016-05-20 This book is a collection of essays about the interaction between God humans and nature in the context of the environmental challenges and Biblical studies Chapters include topics on creation care and Sabbath sacramental approaches to earth care classical and medieval cosmologies ecotheodicy how we understand the problem of nonhuman suffering in a world controlled by a good God ecojustice and how humans help to alleviate nonhuman suffering The book seeks to provide a way to understand Judeo Christian perspectives on human to nonhuman interaction through Biblical literary cultural film and music studies and as such offers an interdisciplinary approach with emphasis on the humanities which provides a broader platform for ecotheology

The Wilderness Debate Rages on Michael P. Nelson,J. Baird Callicott,2008 Ten years ago The Great New Wilderness Debate began a cross disciplinary conversation about

the varied constructions of wilderness and the controversies that surround them *The Wilderness Debate Rages On* will reinvigorate that conversation and usher in a second decade of debate Like its predecessor the book gathers both critiques and defenses of the idea of wilderness from a wide variety of perspectives and voices *The Wilderness Debate Rages On* includes the best explorations of the concept of wilderness from the past decade underappreciated essays from the early twentieth century that offer an alternative vision of the concept and importance of wilderness and writings meant to clarify or help us rethink the concept of wilderness Narrative writers such as Wendell Berry Scott Russell Sanders Marilynne Robinson Kathleen Dean Moore and Lynn Maria Laitala are also given a voice in order to show how the wilderness debate is expanding outside the academy The writers represented in the anthology include ecologists environmental philosophers conservation biologists cultural geographers and environmental activists The book begins with little known papers by early twentieth century ecologists advocating the preservation of natural areas for scientific study not as did Thoreau Muir and the early Leopold for purposes of outdoor recreation The editors argue that had these writers influenced the eventual development of federal wilderness policy our national wilderness system would better serve contemporary conservation priorities for representative ecosystems and biodiversity

Embark on a transformative journey with Written by is captivating work, Discover the Magic in **Organic Machine The Remaking Of The Columbia River** . This enlightening ebook, available for download in a convenient PDF format , invites you to explore a world of boundless knowledge.
