Organising Music In Libraries Vol 1 Arrangement And Classification:

Music Classification Systems Mark McKnight, 2002-04-16 Due to the distinctive nature of music as a separate language that non musicians are often unable to read or understand the cataloging and classification of music materials frequently present special challenges In response to this often problematic situation this volume is designed to introduce the principles of music classification to beginning music catalogers as well as to non specialist catalogers and those who only occasionally deal with music materials It will surely relieve the stress level for general catalogers by providing practical guidelines as well as clarifying and explaining the most commonly used classification systems in the United States the Dewey Decimal Classification DDC the Library of Congress Classification LCC and the Alpha Numeric System for Classification of Recordings ANSCR Also included is a general historical overview of music classification from early attempts to organize specific collections to the efforts of Oscar Sonneck and others to adapt fundamental principles of classification to the distinctive characteristics of music materials as well as a discussion of the special needs of the users of those materials

Bibliographic Control of Music, 1897-2000 Richard P. Smiraglia, Bradford J. Young, 2006-06-15 A retrospective bibliography of the literature of the bibliographic control of music in libraries with author title and topical indexes A bibliographic review essay setting the historical and philosophical context is included Moving Beyond the Presentation Layer Joan S. Mitchell, Diane Vizine-Goetz, 2013-05-13 Can the Dewey Decimal System meet the needs of the rapidly changing information environment Moving Beyond the Presentation Layer explores the Dewey Decimal System from a variety of perspectives each of which peels away a bit of the presentation layer the familiar linear notational sequence to reveal the content and context offered by the DDS Library professionals from around the world examine how the content and context offered by the DDS can evolve to meet the needs of the changing information environment with a special focus on the impact of the Internet on current and future developments Moving Beyond the Presentation Layer examines whether the Dewey Decimal System is a rigid structure best suited to a physical information environment or a polymorphic one that can be adapted to meet a variety of physical and virtual needs This unique book reviews the 40 year history of the online use of classification systems the development of the Relative Index over 22 editions of the DDC recommendations to ensure the viability of the DDC in a time of mass digitization using DDS in an environment where it hasn't been used before teaching the DDS special issues related to the use of the DDS in Europe North America and Africa and the future of online classification Topics examined in Moving Beyond the Presentation Layer include using the DDC as the browsing mechanism for resource discovery classification as an online cataloging tool classification as an online end user tool browser behavior in a DDC based Web service the role of the DDS in the ongoing HILT High Level Thesaurus project using the DDS to organize Web resources localization and interoperability in knowledge organization mapping terminologies to classification systems the DeweyBrowser and much more Moving Beyond the Presentation Layer is an essential professional resource for librarians
