Prospects for Peace in South Asia Rafiq Dossani, Henry S. Rowen, 2022 Prospects for Peace in South Asia addresses the largely hostile often violent relations between India and Pakistan that date from their independence in 1947 The persistent conflict between the two neighboring countries over Kashmir has defied numerous international attempts at resolution and entered its most dangerous phase when both India and Pakistan became nuclear powers in 1998 The struggle over Kashmir is enduringly rooted in national identity religion and human rights It has also influenced the politicization of Pakistan's army religious radicalism and nuclearization in both countries This incisive volume analyzes these forces their impact on relations between the two countries and alternative roles the United States might play in resolving the dispute While acknowledging the risks the book is optimistic about peace in South Asia The key argument is that many of the domestic concerns such as territorial integrity in both countries and civilian military rapprochement in Pakistan that were fueling the conflict have abated

Forging Peace in Southeast Asia Zachary Abuza, 2016-09-26 Until recently Southeast Asia was plagued by separatist insurgencies that had simmered seemingly intractable for several decades But peace processes in Indonesia and the Philippines have been some of the most innovative and successful in the world a model and counterpoint for Thailand and other protracted conflicts Since the 1970s Indonesia the Philippines and Thailand have wrestled with secessionist groups Each government entered into peace talks then though without any sincerity or willingness to make significant concessions By the turn of the millennium the governments of Indonesia and the Philippines began to reevaluate their strategies while insurgents came to the conclusion that the changed global environment and waning capabilities made victory unlikely Further the impact of the 2004 tsunami brought not only another impetus but also the involvement of the international donor community and peace processes began in both countries where they were successfully implemented Successful devolution of political and economic powers that protected the cultural rights of the minority population as well as substantial wealth sharing brought an end to these conflicts Such successful peace building efforts serve as both a model and counterpoint for Thailand Each of the case studies begins with a history of the insurgency an analysis of the insurgent group s organization operations tactics and capabilities before delving into the history of the peace processes and analyzing the factors that made them successful Nothing is harder than a peace process but the lessons of Southeast Asia show that it is made possible through such factors as a national devaluation of power bold and creative statesmanship the successful neutralization of spoilers and the role of neutral third party facilitators These cases provide important lessons for the fields of counterinsurgency and peace making
