the twenty first century on the theory and practice of democracy The attitude of each Prime Minister is assessed by considering their general views on democracy and their use of that term and concept in their discourse and thereby their role in advancing or resisting democratic political change Particular attention is paid to their role in electoral reform together with their stance on the composition and powers of the House of Lords and the role of the monarchy in the governing process Their attitudes to the democratic aspects of some major international issues are also considered The Women in the Room Nan Sloane, 2018-09-30 In February 1900 a group of men representing trade unionists socialists Fabians and Marxists gathered in London to make another attempt at establishing an organisation capable of getting working class men elected to Parliament The body they set up was the Labour Representation Committee six years later when 29 of its candidates were elected to the House of Commons it changed its name to the Labour Party No women took part in that first meeting but several watched from the public gallery Amongst them was Isabella Ford an active socialist and trade unionist who would have been familiar to most of the men assembled below She had been asked by her friend Millicent Fawcett to attend and report back on what happened Millicent was the President of the National Union of Women's Suffrage Societies and Isabella had been involved with the suffrage movement for a long time A few years later she would become the first woman to speak at a Labour Party conference moving a resolution on votes for women but at the Party's inception in 1900 she and every other woman in the hall was silent Throughout Labour's history even in its earliest years women were present in the room but they were not always recorded or remembered They came from many different backgrounds and they worked for the causes they believed in as organisers campaigners negotiators polemicists public speakers and leaders They took on the vested interests of their time sometimes they won Yet the vast majority of them have been forgotten by the Labour movement that they helped to found Even Margaret Bondfield who became Britain's first woman cabinet minister often barely merits a footnote Women made real and substantial contributions to Labour's earliest years and had a significant impact on the Party's ability to attract and maintain women's votes after World War I In addition to Margaret and Isabella in many of the rooms in which the Labour Party found its feet remarkable women wait to be rediscovered This book tells their story **Access to History: Britain 1900-57 Second Edition** Michael Lynch, 2015-10-09 Exam Board AQA Edexcel OCR WJEC Level A level Subject History First Teaching September 2015 First Exam June 2016 Give your students the best chance of success with this tried and tested series combining in depth analysis engaging narrative and accessibility Access to History is the most popular trusted and wide ranging series for A level History students This title Supports the content and assessment requirements of the 2015 A level History specifications Contains authoritative and engaging content Includes thought provoking key debates that examine the opposing views and approaches of historians Provides exam style questions and guidance for each relevant specification to help students understand how to apply what they have learnt This title is suitable for a variety of courses including AQA Wars and Welfare Britain in Transition 1906 1957 OCR Britain 1900 1951 **Fabian Socialism and English**
