André,2018-05-31 James St Andr applies the perspective of cross identity performance to the translation of a wide variety of Chinese texts into English and French from the eighteenth to the twentieth centuries Drawing on scholarship in cultural studies queer studies and anthropology the author argues that many cross identity performance techniques including blackface passing drag mimicry and masquerade provide insights into the history of translation practice He makes a strong case for situating translation in its historical social and cultural milieu reading translated texts alongside a wide variety of other materials that helped shape the image of John Chinaman A reading of the life and works of George Psalmanazar whose cross identity performance as a native of Formosa enlivened early eighteenth century salons opens the volume and provides a

bridge between the book's theoretical framework and its examination of Chinese-European interactions. The core of the book consists of a chronological series of cases each of which illustrates the use of a different type of cross-identity performance to better understand translation practice. St Andr provides close readings of early pseudotranslations including Marana's Turkish Spy 1691 and Goldsmith's Citizen of the World 1762 as well as adaptations of Hatchett's The Chinese Orphan 1741 and Voltaire's Orphelin de la Chine 1756. Later chapters explore Davis's translation of Sorrows of Han 1829 and genuine translations of nonfictional material mainly by employees of the East India Company. The focus then shifts to oral/aural aspects of early translation practice in the nineteenth century using the concept of mimicry to examine interactions between Pidgin English and translation in the popular press. Finally the work of two early modern Chinese translators Gu Hongming and Lin Yutang is examined as masquerade. Offering an original and innovative study of genres of writing that are traditionally examined in isolation, St Andr's work provides a fascinating examination of the way three cultures interacted through the shifting encounters of fiction, translation, and nonfiction, and in the process helped establish and shape the way Chinese were represented. The book represents a major contribution to translation studies, Chinese cultural studies, postcolonial studies, and gender criticism.

Finding Life's Lanes Yakov Stul, 2003-10. Humans aren't perfect. Sometimes we get sick or behave irrationally with negative consequences. Although much of our behavior is guided by various social institutions, this formal manner of regulation is less effective than a personally designed system of rational self-management. At a societal level, we eradicated many socially unacceptable behaviors, but most of us have not achieved this on a personal level. Society entrusts each person to maintain his own personal health, but where does he turn to if he needs help preventing a major crisis or correcting destructive behavior? The author offers an innovative approach: solution rational self-management. It starts with establishing rules for a rational lifestyle. In the beginning, the individual may look to someone else's personal experience and adapt it to his own rules. In the next stage, his actions are analyzed to determine if they comply with the rules he has set. These rules are constantly evolving to enhance his behavior. Finally, implementation of the rules is controlled, and results are measured. This rational approach to self-management helps one avoid behaviors that can have devastating consequences, such as drug abuse, crime, and it improves his health and quality of life. Try it. You won't regret it.

Stolen Charleston J. Grahame Long, 2014-07-01. During both the American Revolution and the Civil War, Charleston was not just a symbolic target but also one of the wealthiest at least until the shelling started. Once the redcoats of 1780 and the Yankees of 1865 stormed in, nary a church, business, or private home was spared fevered plundering. Worse, Charleston's own homefront defenders oftentimes helped themselves to unguarded heirlooms. In 1779, Eliza Wilkinson's shoe buckles were stolen right off her feet. In 1865, Union soldiers butchered several of Williams Middleton's valuable water buffalo and stole the others, some of which were later found at the Central Park Zoo in New York City. Join author and historian J. Grahame Long as he recounts the looting and lost treasures of Charleston.
