Religious Devotion and the Poetics of Reform George Pati, 2019-02-18 The poetry emanating from the bhakti tradition of devotional love in India has been both a religious expression and a form of resistance to hierarchies of caste gender and colonialism Some scholars have read this art form through the lens of resistance and reform but others have responded that imposing an interpretive framework on these poems fails to appreciate their authentic expressions of devotion This book argues that these declarations of love and piety can simultaneously represent efforts towards emancipation at the spiritual political and social level This book through a close study of Nalini 1911 a Malayalam lyric poem as well as other poems authored by Mahakavi Kumaran 1873-1924 a low caste Kerala poet demonstrates how he employed a theme of love among humans during the modern period in Kerala that was grounded in the native South Indian bhakti understanding of love of the deity he believed that personal religious freedom comes from devotion to the deity and that love

for humans must emanate from love of the deity In showing how devotional religious expression also served as a resistance movement this study provides new perspective on an understudied area of the colonial period Bringing to light an under explored medium in both religious and artistic terms this book will be of great interest to scholars of religious studies Hindu studies and religion and literature as well as academics with an interest in Indian culture *Cross-Cultural Perspectives on the Experience and Expression of Love* Victor Karandashev, 2019-06-05 This ambitious volume integrates findings from various disciplines in a comprehensive description of the modern research on love and provides a systematic review of love experience and expression from cross cultural perspective It explores numerous interdisciplinary topics bringing together research in biological and social sciences to explore love probing the cross cultural similarities and differences in the feelings thoughts and expressions of love The book s scope which includes a review of major theories and key research instruments provides a comprehensive background for any reader interested in developing an enlightened understanding of the cultural diversity in the concepts experience and expression of love Included among the chapters How do people in different cultures conceptualize love How similar and different are the experiences and expressions of love across cultures What are the cultural factors affecting the experience and expression of love Cross cultural understanding of love as passion joy commitment union respect submission intimacy dependency and more A review of the past and looking into the future of cross cultural love research Critical reading for our global age *Cross Cultural Perspectives on the Experience and Expression of Love* promotes a thorough understanding of cross cultural similarities and differences in love and in so doing is valuable not only for love scholars emotion researchers and social psychologists but also for practitioners and clinicians working with multicultural couples and families The most striking feature of this book is the broad array of perspectives that is covered Love is portrayed as a universally found emotion with biological underpinnings The text expands from this core incorporating a wide range of manifestations of love passion admiration of and submission to a partner gift giving and benevolence attachment and trust etc Information on each topic comes from a variety of sources cross culturally and interdisciplinary The text is integrative with a focus on informational value of ideas and findings If you take an interest in how love in its broadest sense is experienced and expressed you will find this to be a very rich text Ype H Poortinga Tilburg University The Netherlands Catholic University of Leuven Leuven Belgium In this wide ranging book Victor Karandashev expertly guides us through the dazzling complexity of our concept and experience of love Not only does he show the many different ingredients that make up our conceptions of love in particular cultures such as idealization of the beloved commitment union intimacy friendship and others he draws our attention to the bewildering array of differences between their applications in different cultural contexts or to their presence or absence in a culture In reading the book we also get as a bonus an idea of how an elusive concept such as love can be scientifically studied by a variety of methodologies all to our benefit A masterful accomplishment K vecses Zolt n E tv s Lor nd University Budapest Hungary Long considered a research purview of only a

Thornton, 2022-11-17 Sharon Thornton gives pastoral theology new ears that hear the true depth and breadth of suffering She dares to look beyond the accepted perspectives of pastoral theology to discern a new vision of hope made possible by the cross Thornton brings pastoral theology into conversation with public theology reading them from the perspective of the cross When interpreted from its political standpoint the cross offers new and challenging pastoral perspectives on the complex experiences of modern life The cross of Christ names suffering for what it is giving us a means of radically critiquing all attempts to camouflage minimize or distort the truth of pain Sharing her experiences of ministering to those anguished by poverty and oppression Thornton brings to light the external forces that contribute both directly and indirectly to human brokenness And through these same stories and the work of a faith community modeling alternative practices in pastoral care she shows us that there is hope for healing **The Bloomsbury Handbook of Dance and Philosophy**, 2021-01-28
