## **Rasayana Ayurvedic Herbs For Longevity And Rejuvenation:**

**Rasayana** H.S. Puri, 2003-08-29 Until relatively recently much of the information on India's research into their medicinal plants has remained within India mainly published within Indian journals. However today the field of Ayurveda is expanding with the integration of herbs and minerals discovered in other countries and the strengthening of academic knowledge networks worldwide. Focusing on Rasayana the least understood branch of Ayurveda this volume provides detailed information on the plants used in various polyherbal polymineral Rasayana preparations and describes their therapeutic benefits for numerous disorders. It is a comprehensive reference suitable for anyone involved in medicinal and aromatic plant research. Ayurvedic Healing Hari M. Sharma, Christopher Clark (MD.), Marc S. Micozzi, 2011-10-12 Rev ed of Contemporary Ayurveda Hari M Sharma and Christopher S Clark 1998 **Healing Plants of Nigeria** Anselm Adodo, Maurice M. Iwu, 2020-03-17 Healing Plants of Nigeria Ethnomedicine and Therapeutic Applications offers comprehensive information on the use of herbal medicines in West Africa. Combining an evidence based ethnobotanical perspective with a pharmacological and pharmaceutical approach to phytomedicine the book bridges the gap between the study of herbal plants pharmacological properties and active compounds for the development of clinical drugs and community oriented approaches emphasising local use. It demonstrates how the framework of African traditional medicine can be preserved in a contemporary clinical context. The book outlines the history and beliefs surrounding the traditional use of herbs by the local population alongside their application in contemporary phytotherapy in Nigeria and West Africa. It features a critical assessment of the scientific rationale behind the use of these plants in ethnomedicine and offers a composite catalogue of phytotherapeutic and wellness agents detailing the safety profile efficacy and scientific integrity of plants used to treat diseases and optimise health. Features An ethnobotanical survey containing over 200 full colour photographs of Nigerian and West African plants. A unique combination of ethnobotany and pharmacognosy bridging the divide between pharmaceutical and community oriented approaches to herbal medicine research. Contextual discussion of the therapeutic potential of Nigerian herbal medicine. Offers a template which can be used to separate the superstitious aspects of ethnomedicine from culturally inherited deposits of knowledge. A handbook for herbal and natural medicine practitioners the book is aimed at African thinkers scientists healthcare providers and students of pharmacology and ethnomedicine.

With contributions from international experts, these two volumes present chapters that detail the history of these major medicinal and aromatic plants and also report on systematic botany, advanced production and propagation technologies, plant nutrition, moisture management, intercultivation, plant protection, postharvest technology, processing, value addition and marketing, trade. Further, the book presents promising low-cost and ecofriendly plant products and biomolecules which are free from side effects for use as pharmaceuticals and herbal drugs. The most ancient form of medical therapies involving herbs has been neglected for a few decades back and has regained enormous popularity because of the effectiveness and fewer hazardous properties of many medicinal and aromatic plants. Nature has all sorts of protective medicinal compounds within its huge bioresources which are still being identified for beneficial health purposes. Herbs containing aromatic properties because of their essential oils also have medicinal uses apart from being used as dependable sources of natural fragrance for cosmetics, perfumery and food industries competing with synthetic aroma chemicals. These volumes will be an excellent and comprehensive compendium for academicians and professionals working in plant resources. The compilation will also be valuable for students, researchers, medical practitioners, farmers, entrepreneurs, traders, industrialists and NGOs who are involved in research and development and production and pharmaceuticals of medicinally important plants.
