The Religious Foundations of Internationalism; a Study in International Relations Through the Ages Norman de Mattos Bentwich, 1937 Religious Foundations of Western Civilization Jacob Neusner, 2010-08-01 World Religions Religious Foundations of Western Civilization introduces students to the major Western world religions Judaism Christianity and Islam their beliefs key concepts history as well as the fundamental role they have played and continue to play in Western culture Contributors include Jacob Neusner Alan J Avery Peck Bruce D Chilton Th Emil Homerin Jon D Levenson William Scott Green Seymour Feldman Elliot R Wolfson James A Brundage Olivia Remie Constable and Amila Buturovic This book provides a superb source of information for scientists and scholars from all disciplines who are trying to understand religion in the context of human cultural evolution David Sloan Wilson Professor Departments of Biology and Anthropology Binghamton University Binghamton New York This is the right book at the right time Globalization religious revivalism and international politics have made it more important than ever to appreciate the significant contributions of the Children of Abraham to the formation and development of Western civilization John L Esposito University Professor and Founding Director of the Center for Muslim-Christian Understanding Georgetown University Washington D C Jacob Neusner is Research Professor of Religion and Theology and Senior Fellow of the Institute of Advanced Theology at Bard College Annandale on Hudson New York General Interest Other Religions Comparative Religion **Religious Actors and International Law** Ioana Cismas, 2014-07-17 This book assesses whether a new category of religious actors has been constructed within international law Religious actors through their interpretations of the religion s they are associated with uphold and promote or indeed may transform potentially oppressive structures or discriminatory patterns This study moves beyond the concern that religious texts and practices may be incompatible with international law to provide an innovative

analysis of how religious actors themselves are accountable under international law for the interpretations they choose to put forward The book defines religious actors as comprising religious states international organizations and non state entities that assume the role of interpreting religion and so claim a special legitimacy anchored in tradition or charisma Cutting across the state non state divide this definition allows the full remit of religious bodies to be investigated It analyses the crucial question of whether religious actors do in fact operate under different international legal norms to non religious states international organizations or companies To that end the Holy See Vatican the Organization of Islamic Cooperation and churches and religious organizations under the European Convention on Human Rights regime are examined in detail as case studies The study ultimately establishes that religious actors cannot be seen to form an autonomous legal category under international law they do not enjoy special or exclusive rights nor incur lesser obligations when compared to their respective non religious peers Going forward it concludes that a process of two sided legitimation may be at stake religious actors will need to provide evidence for the legality of their religious interpretations to strengthen their legitimacy and international law itself may benefit from religious actors fostering its legitimacy in different cultural contexts
