independence however these sites have been rededicated in honour of the First War of Independence and are thus sacred to the memory of those who revolted against colonial rule rather than those who saved it The 1857 Indian Uprising and the Politics of Commemoration tells the story of these and other commemorative landscapes and uses them as prisms through which to view over 150 years of Indian history Based on extensive archival research from India and Britain Sebastian Raj Pender traces the ways in which commemoration responded to the demands of successive historical moments by shaping the events of 1857 from the perspective of the present By telling the history of India through the transformation of mnemonic space this study shows that remembering the past is always a political act **Old Melbourne Memories** Rolf

Boldrewood,1899 *An Economic History of India 1707-1857* Tirthankar Roy,2021-09-09 This new edition of An Economic History of Early Modern India extends the timespan of the analysis to incorporate further research This allows for a more detailed discussion of the rise of the British Empire in South Asia and gives a fuller context for the historiography In the years between the death of the emperor Aurangzeb 1707 and the Great Rebellion 1857 the Mughal Empire and the states that rose from its ashes declined in wealth and power and a British Empire emerged in South Asia This book asks three key questions about the transition Why did it happen What did it mean How did it shape economic change The book shows that during these years a merchant friendly regime among warlord ruled states emerged and state structure transformed to allow taxes and military capacity to be held by one central power the British East India Company The author demonstrates that the fall of warlord ruled states and the empowerment of the merchant in consequence shaped the course of Indian and world economic history Reconstructing South Asia s transition starting with the Mughal Empire s collapse and ending with the great rebellion of 1857 this book is the first systematic account of the economic history of early modern India It is an essential reference for students and scholars of Economics and South Asian History Catalogue of the Books in the Senior Section Johannesburg (South Africa).
