They Will Have Their Game Kenneth Cohen,2017-12-15

In *They Will Have Their Game* Kenneth Cohen explores how sports drinking gambling and theater produced a sense of democracy while also reinforcing racial gender and class divisions in early America Pairing previously unexplored financial records with a wide range of published reports unpublished correspondence and material and visual evidence Cohen demonstrates how investors participants and professional managers and performers from all sorts of backgrounds saw these sporting activities as stages for securing economic and political advantage over others *They Will Have Their Game* tracks the evolution of this fight for power from 1760 to 1860 showing how its roots in masculine competition and risk taking gradually developed gendered and racial limits and then spread from leisure activities to the consideration of elections as races and business as a game The result reorients the standard narrative about the rise of commercial popular culture to question the influence of ideas such as gentility and respectability and to put men like P T Barnum at the end instead of the beginning of the process unveiling a new take on the creation of the white male republic of the early nineteenth century in which sporting activities lie at the center and not the margins of economic and political history

Claiming the Pen Catherine Kerrison,2015-05-05

In 1711 the imperious Virginia patriarch William Byrd II spitefully refused his wife Lucy s plea for a book a century later Lady Jean Skipwith placed an order that sent the Virginia bookseller Joseph Swan scurrying to please These vignettes bracket a century of change in white southern women s lives *Claiming the Pen* offers the first intellectual history of early southern women It situates their reading and writing within the literary culture of the wider Anglo Atlantic

world thus far understood to be a masculine province even as they inhabited the limited provincial social circles of the plantation South Catherine Kerrison uncovers a new realm of female education in which conduct of life advice both the dry pedantry of sermons and the risqu plots of novels formed the core reading program Women she finds learned to think and write by reading prescriptive literature not Greek and Latin classics in impromptu home classrooms rather than colleges and universities and from kin and friends rather than schoolmates and professors Kerrison also reveals that southern women in their willingness to take up the pen and so claim new rights seized upon their racial superiority to offset their gender inferiority In depriving slaves of education southern women claimed literacy as a privilege of their whiteness and
