## **Return Of The Baroque Art Theory And Culture In The Modern Age:**

**Between Deleuze and Derrida** Paul Patton, John Protevi, 2003-05-01 Gilles Deleuze and Jacques Derrida are the two leading philosophers of French post structuralism Both theorists have been widely studied but very little has been done to examine the relation between them *Between Deleuze and Derrida* is the first book to explore and compares their work This is done via a number of key themes including the philosophy of difference language memory time event and love as well as relating these themes to their respective approaches to Philosophy Literature Politics and Mathematics Contributors Eric Alliez Branka Arsic Gregg Lambert Leonard Lawlor Alphonso Lingis Tamsin Lorraine Jeff Nealon Paul Patton Arkady Plotnitsky John Protevi Daniel W Smith *Derrida and Religion* Yvonne Sherwood, Kevin Hart, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company *The Baroque in Architectural Culture, 1880-1980* Andrew Leach, John Macarthur, 2016-03-09 In his landmark volume *Space Time and Architecture* Sigfried Giedion paired images of two iconic spirals Tatlin's Monument to the Third International and Borromini's dome for Sant Ivo alla Sapienza The values shared between the baroque age and the modern were thus encapsulated on a single page spread As Giedion put it writing of Sant Ivo Borromini accomplished the movement of the whole pattern from the ground to the lantern without entirely ending even there And yet he merely groped towards that which could be completely effected in modern architecture achieving the transition between inner and outer space The intellectual debt of modern architecture to modernist historians who were ostensibly preoccupied with the art and architecture of earlier epochs is now widely acknowledged This volume extends this work by contributing to the dual projects of the intellectual history of modern architecture and the history of architectural historiography It considers the varied ways that historians of art and architecture have historicized modern architecture through its interaction with the baroque a term of contested historical and conceptual significance that has often seemed to shadow a greater contest over the historicity of modernism Presenting research by an international community of scholars this book explores through a series of cross sections the traffic of ideas between practice and history that has shaped modern architecture and the academic discipline of architectural history across the long twentieth century The editors use the historiography of the baroque as a lens through which to follow the path of modern ideas that draw authority from history In doing so the volume defines a role for the baroque in the history of architectural historiography and in the history of modern architectural culture *Neobaroque in the Americas* Monika Kaup, 2012 In a comparative and interdisciplinary analysis of modern and postmodern literature film art and visual culture Monika Kaup examines the twentieth century's recovery of the baroque within a hemispheric framework embracing North America Latin America and U S Latino a culture As neobaroque comes to the forefront of New World studies attention to transcultural dynamics is overturning the traditional scholarship that confined the baroque to a specific period class and ideology in the seventeenth century Reflecting on the rich nonlinear genealogy of baroque expression *Neobaroque in the Americas* envisions the baroque as an anti proprietary expression that

brings together seemingly disparate writers and artists and contributes to the new studies in global modernity

*Adventures with the Theory of the Baroque and French Philosophy* Nadir Lahiji, 2016-09-22 Analysing the reception of contemporary French philosophy in architecture over the last four decades *Adventures with the Theory of the Baroque and French Philosophy* discusses the problematic nature of importing philosophical categories into architecture Focusing particularly on the philosophical notion of the Baroque in Gilles Deleuze this study examines traditional interpretations of the concept in contemporary architecture theory throwing up specific problems such as the aestheticization of building theory and practice Identifying these and other issues Nadir Lahiji constructs a concept of the baroque in contrast to the contemporary understanding in architecture discourse Challenging the contemporary dominance of the Neo Baroque as a phenomenon related to postmodernism and late capitalism he establishes the Baroque as a name for the paradoxical unity of kitsch and high art and argues that the digital turn has enhanced the return of the Baroque in contemporary culture and architectural practice that he brands a pseudo event in the term neobaroque Lahiji's original critique expands on the misadventure of architecture with French Philosophy and explains why the category of the Baroque if it is still useful to keep in architecture criticism must be tied to the notion of Post Rationalism Within this latter notion he draws on the work of Alain Badiou to theorize a new concept of the Baroque as Event Alongside close readings of Walter Benjamin Theodor Adorno and Michel Foucault related to the criticism of the Baroque and Modernity and discussions of the work of Frank Gehry in particular this study draws on Jacques Lacan's concept of the baroque and presents the first comprehensive treatment of the psychoanalytical theory of the Baroque in the work of Lacan *A Cultural History of the Modern Age* Egon

Friedell, 2017-07-12 This is the second volume of Friedell's monumental *A Cultural History of the Modern Age* A key figure in the flowering of Viennese culture between the two world wars this three volume work is considered his masterpiece The centuries covered in this second volume mark the victory of the scientific mind in nature research language research politics economics war even morality poetry and religion All systems of thought produced in this century either begin with the scientific outlook as their foundation or regard it as their highest and final goal Friedell claims three main streams pervade the eighteenth century Enlightenment Revolution and Classicism In ordinary use by Enlightenment we mean an extreme rationalistic tendency of which preliminary stages were noted in the seventeenth century The term Classicism is well understood Under the term Revolution Friedell includes all movements directed against what has been dominant and traditional The aims of such movements were remodeling the state and society banning all esthetic canons and dethronement of reason by sentiment all in the name of the Return to Nature The Enlightenment tendency might be seen as laying the ground for an age of revolution This second volume continues Friedell's dramatic history of the driving forces of the twentieth century *Early Modern Art Theory. Visual Culture and Ideology, 1400-1700* James Hutson, 2016-03 The development of art theory over the course of the Renaissance and Baroque eras is reflected in major stylistic shifts In order

to elucidate the relationship between theory and practice we must consider the wider connections between art theory poetic theory natural philosophy and related epistemological matrices Investigating the interdisciplinary reality of framing art making and interpretation this treatment rejects the dominant synchronic approach to history and historiography and seeks to present anew a narrative that ties together various formal approaches focusing on stylistic transformation in particular artist s oeuvres Michelangelo Annibale Carracci Guercino Guido Reni Poussin and others and the contemporary environments that facilitated them Through the dual understanding of the art theoretical concept of the Idea an evolution will be revealed that illustrates the embittered battles over style and the overarching intellectual shifts in the period between art production and conceptualization based on Aristotelian and Platonic notions of creativity beauty and the goal of art as an exercise in encapsulating the divine truth of nature

**Magic Realism, World Cinema, and the Avant-Garde** Felicity Gee, 2021-04-19 This book follows the hybrid and contradictory history of magic realism through the writings of three key figures art historian Franz Roh novelist Alejo Carpentier and cultural critic Fredric Jameson drawing links between their political aesthetic and philosophical ideas on art s relationship to reality Magic realism is vast in scope spanning almost a century and is often confused with neighbouring styles of literature or art most notably surrealism The fascinating conditions of modernist Europe are complex and contradictory a spirit that magic realism has taken on as it travels far and wide The filmmakers and writers in this book acknowledge the importance of feeling atmosphere and mood to subtly provoke and resist global capitalism Theirs is the history of magic realist cinema The book explores this history through the modernist avant garde in search of a new theory of cinematic magic realism It uncovers a resistant geopolitical form of world cinema moving from Europe through Latin America and the former Soviet Union to Thailand that emerges from these ideas This book is invaluable to any reader interested in world modernism s in relation to contemporary cinema and geopolitics Its sustained analysis of film as a sensory intermedial medium is of interest to scholars working across the visual arts literature critical theory and film philosophy

**The Art of Joaquín Torres-García** Aarnoud Rommens, 2016-08-05 Intertwining art history aesthetic theory and Latin American studies Aarnoud Rommens challenges contemporary Eurocentric revisions of the history of abstraction through this study of the Uruguayan artist Joaquín Torres García After studying and painting for decades in Europe Torres García returned in 1934 to his native home Montevideo with the dream of reawakening and revitalizing what he considered the true indigenous essence of Latin American art Abstract Spirit Rommens rigorously analyses the paradoxes of the painter s aesthetic philosophical doctrine of Constructive Universalism as it sought to adapt European geometric abstraction to the Americas Whereas previous scholarship has dismissed Torres García s theories as self contradictory Rommens seeks to recover their creative potential as well as their role in tracing the transatlantic routes of the avant garde Through the highly original method of reading Torres García s artworks as a critique on the artist s own writings Rommens reveals how Torres García appropriates the colonial language of primitivism to construct the artificial image of

pure pre Columbian abstraction Torres Garc a thereby inverts the history of art this book teases out the important lessons of this gesture and the implications for our understanding of abstraction today     *A Cultural History of the Modern Age Vol. 1*

Egon Friedell, Historian philosopher critic playwright journalist and actor Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars His masterpiece *A Cultural History of the Modern Age* demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization Following a brilliant opening essay on cultural history and why it should be studied the first volume begins with an analysis of the transformation of the Medieval mind as it evolved from the Black Death to the Thirty Years War The emphasis is on the spiritual and cultural vortex of civilization but Friedell never forgets the European roots in pestilence death and superstition that animate a contrary drive toward reason refinement intellectual curiosity and scientific knowledge While these values reached their apogee during the Renaissance Friedell shows that each cultural victory is precarious and Europe was always in danger of slipping back into barbarism Friedell s historical vision embraces the whole of Western culture and its development It is a consistent probing for the divine in the world s course and is therefore theology it is research into the basic forces of the human soul and is therefore psychology it is the most illuminating presentation of the forms of state and society and therefore is politics the most varied collection of all art creations and is therefore aesthetics Thomas Mann regarded Friedell as one of the great stylists in the German language Like the works of the great novelist *A Cultural History of the Modern Age* offers a dramatic history of the last six centuries showing the driving forces of each age The new introduction provides a fascinating biographical sketch of Friedell and his cultural milieu and analyzes his place in intellectual history     *Design, Mediation, and the Posthuman* Dennis M. Weiss, Amy D. Proven, Colbey Emmerson

Reid, 2014-08-14 Though the progress of technology continually pushes life toward virtual existence the last decade has witnessed a renewed focus on materiality *Design Mediation and the Posthuman* bears witness to the attention paid by literary theorists digital humanists rhetoricians philosophers and designers to the crafted environment the manner in which artifacts mediate human relations and the constitution of a world in which the boundary between humans and things has seemingly imploded The chapters reflect on questions about the extent to which we ought to view humans and nonhuman artifacts as having equal capacity for agency and life and the ways in which technological mediation challenges the central tenets of humanism and anthropocentrism Contemporary theories of human object relations presage the arrival of the posthuman which is no longer a futuristic or science fictional concept but rather one descriptive of the present and indeed the past Discussions of the posthuman already have a long history in fields like literary theory rhetoric and philosophy and as advances in design and technology result in increasingly engaging artifacts that mediate more and more aspects of everyday life it becomes necessary to engage in a systematic interdisciplinary critical examination of the intersection of the domains of design technological mediation and the posthuman Thus this collection brings diverse disciplines together to foster a

dialogue on significant technological issues pertinent to philosophy rhetoric aesthetics and science      **The Lure of Dreams** Harvie Ferguson,2005-08-04 From literary theory to social anthropology the influence of Freud runs through every part of the human and social sciences In *The Lure of Dreams* Harvie Ferguson shows how Freud's writings and particularly *The Interpretation of Dreams* contribute both in their content and in the baroque and dream like forms in which they are cast to our understanding of the character of modernity This novel and stimulating approach to Freud and to the dilemmas of modernity and postmodernity will fascinate everyone with an interest in the development of the modern consciousness

Trifonova,2009-09-10 *European Film Theory* explores the Europeanness of European film theory its philosophical origins the culture wars between Continental and Analytical film theory and philosophy the major discursive and epistemological shifts in the history of Continental film theory the relationship between Continental philosophy of art and philosophy of history and European film theory Writing from a range of disciplines and perspectives the contributors to this new volume in the AFI FILM READERS series offer fresh interpretations of European film theorists and illuminate the political potential of European film theory      **The 'Second World' in Contemporary British Writing** Katrin Berndt,Andrew Wells,2024-08-12 The thirteen contributions to this collection all explore or exemplify the ongoing British interest in the socialist world before 1990 In autobiography fiction film history and lexicography these chapters show how contemporary Britain is engaging with the past project to build socialism in Europe and what this means for the present and the future of our continent Contributions come from a wide range of disciplinary and geographical backgrounds and the volume is further enriched by a short story

especially written for this book and by an in depth interview with the author of a recent popular history of the GDR Together these chapters offer a unique perspective into contemporary British writing on the second world and the enduring fascination with the failures of futures past     The Fascist Turn in the Dance of Serge Lifar Mark Franko,2020 Ukrainian dancer and choreographer Serge Lifar 1905 86 is recognized both as the modernizer of French ballet in the twentieth century and as the keeper of the flame of the classical tradition upon which the glory of French ballet was founded Having migrated to France from Russia in 1923 to join Diaghilev s Ballets Russes Lifar was appointed star dancer and ballet director at the Paris Op ra in 1930 Despite being rather unpopular with the French press at the start of his appointment Lifar came to dominate the Parisian dance scene through his publications as well as his dancing and choreography until the end of the Second World War reaching the height of his fame under the German occupation of Paris 1940 44 Rumors of his collaborationism having remained inconclusive throughout the postwar era Lifar retired in 1958 This book not only reassess Lifar s career both aesthetically and politically but also provides a broader reevaluation of the situation of dance specifically balletic neoclassicism in the first half of the twentieth century The Fascist Turn in the Dance of Serge Lifar is the first book not only to discuss the resistance to Lifar in the French press at the start of his much mythologized career but also the first to present substantial evidence of Lifar s collaborationism and relate it to his artistic profile during the preceding decade In examining the political significance of the critical discussion of Lifar s body and technique author Mark Franko provides the ground upon which to understand the narcissistic and heroic images of Lifar in the 1930s as prefiguring the role he would play in the occupation Through extensive archival research into unpublished documents of the era police reports the transcript of his postwar trial and rarely cited newspaper columns Lifar wrote Franko reconstructs the dancer s political activities political convictions and political ambitions during the Occupation     **Baroquemanía** Laura Moure Cecchini,2022-01-11

**Baroquemanía** explores the intersections of art architecture and criticism to show how reimagining the Baroque helped craft a distinctively Italian approach to modern art Offering a bold reassessment of post unification visual culture the book examines a wide variety of media and ideologically charged discourses on the Baroque both inside and outside the academy Key episodes in the modern afterlife of the Baroque are addressed notably the Decadentist interpretation of Gianlorenzo Bernini the 1911 universal fairs in Turin and Rome Roberto Longhi s historically grounded view of Futurism architectural projects in Fascist Rome and the interwar reception of Adolfo Wildt and Lucio Fontana s sculpture Featuring a wealth of visual materials **Baroquemanía** offers a fresh look at a central aspect of Italy s modern art     **The Oxford Handbook of the Baroque** John D. Lyons,2019-08-08 Few periods in history are so fundamentally contradictory as the Baroque the culture flourishing from the mid sixteenth to the mid eighteenth centuries in Europe When we hear the term Baroque the first images that come to mind are symmetrically designed gardens in French chateaux scenic fountains in Italian squares and the vibrant rhythms of a harpsichord Behind this commitment to rule harmony and rigid structure however the Baroque also

embodies a deep fascination with wonder excess irrationality and rebellion against order The Oxford Handbook of the Baroque delves into this contradiction to provide a sweeping survey of the Baroque not only as a style but also as a historical cultural and intellectual concept With its thirty eight chapters edited by leading expert John D Lyons the Handbook explores different manifestations of Baroque culture from theatricality in architecture and urbanism to opera and dance from the role of water to innovations in fashion from mechanistic philosophy and literature to the tension between religion and science These discussions present the Baroque as a broad cultural phenomenon that arose in response to the enormous changes emerging from the sixteenth century the division between Catholics and Protestants the formation of nation states and the growth of absolutist monarchies the colonization of lands outside Europe and the mutual impact of European and non European cultures Technological developments such as the telescope and the microscope and even greater access to high quality mirrors altered mankind s view of the universe and of human identity itself By exploring the Baroque in relation to these larger social upheavals this Handbook reveals a fresh and surprisingly modern image of the Baroque as a powerful response to an epoch of crisis

**The Tears of Sovereignty** Philip Lorenz, 2013-06-26 The Tears of Sovereignty is a comparative study of the representation of the concept of sovereignty in paradigmatic plays of early modern English and Spanish drama It argues that baroque drama produces the critical terms through which contemporary philosophical criticism continues to think through the problems of sovereignty today
