Fagan,2006 Including case studies this collection of engaging and stimulating essays written by a diverse group of scholars scientists and writers examines the phenomenon of pseudoarchaeology from a variety of perspectives New Maps: More Uncollected John Sladek John Sladek, Light and Dark Dr Trevor J. Hawkeswood,2013-01-31 Trevor J Hawkeswood is a scientist who has experienced hundreds of paranormal events in his lifetime In Light and Dark he recounts some of these incredible interactions He believes that reality occurs on two separate but interwoven planes of existencethe Earth plane and the multiple levels of the spiritual planes including the lower levels from where the dark souls of humans who have died reach out to us He has experienced more than one hundred sightings of the shadow people or black ghosts He credits guardian angels with saving him from harm or certain death on a number of occasions Hawkeswood also shares accounts of his numerous sightings of strange aerial phenomena he believes were caused by UFOs He has personally experienced clairaudiencevoices from beyondand precognition or the ability to see the future His detailed account of a unique out of body experience OOB challenges what is known about this remarkable ability His OOB was unlike anything that has ever been described by others who have experienced itand he shares it all in Light and Dark But it hasnt all been safe or pleasant At eighteen he survived a terrifying encounter with a demon gargoyle who tried to steal his soul energy after paralysing him A comprehensive handbook for the paranormal enthusiast Hawkeswoods work also provides a glossary and reference list of English language UFO books In Light and Dark he shares a lifetime of experiences ideas and theories about this fascinating field of study Solar Flares Andrew M. Butler,2012-10-16 An engaging and accessible book looking at 1970s sf writing film and television alongside music and architecture to reclaim the decade as a crucial period in the history of science fiction Black Sun Nicholas Goodrick-Clarke,2002 Black Sun examines the new neofascist ideology showing how hate groups militias and conspiracy cults attempt to gain influence Based on interviews and extensive research into underground groups Black Sun documents the new Nazi and fascist sects that have sprung up from the 1970s through the 1990s and examines the mentality and motivation of these far right extremists The result is a detailed grounded portrait of the mythical and devotional aspects of Hitler cults among Aryan mystics racist skinheads and Nazi satanists heavy metal music fans and in occult literature **BOOK JACKET** **Slave Species of the Gods** Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However

as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin s revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world s religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe

UFOs, Conspiracy Theories and the New Age David G. Robertson,2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies UFOs Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion
