Cronyism and Elite Capture in Egypt Sarah Smierciak,2021-11-29 Examining business state networks in Egypt 1991 2020  
this book highlights the complicity of international actors in facilitating inequality and elite capture Using interdisciplinary  
methodology it argues that Western actors promoting market liberalization have served as central partners in enabling elites  
to capture the fruits of Egypt s economic reforms In the years leading up to the 2011 Revolution Egypt s crony capitalism  
reached new levels of visibility with the appointment of a Businessmen Cabinet The businessmen turned state  
representatives ushered in a wave of market liberalizing reforms expanding avenues for the abuse of power Providing a  
detailed look at some of this period s chief beneficiaries including a number of Egypt s wealthiest oligarchs the volume  
follows their ascent from former President Hosni Mubarak s first round of neoliberal reforms in 1991 through his last wave of  
reforms beginning in 2004 and ending in regime overthrow The final chapter examines the fate of these elites under the brief  
rule of Muslim Brotherhood President Mohammed Morsi and of Abdel Fattah el Sisi s current military backed regime Based  
on five years of fieldwork and dozens of interviews with businessmen and state representatives this book offers a unique look  
into the politics of policy and inequality in Egypt It will be of interest to scholars reading political economy international  
development and Middle East studies      *Cosmopolitanisms* Robert J. Holton,2017-09-16 Cosmopolitanisms explores how  
social groups find ways of living productively with each other This book analyzes theoretical approaches and research to give  
a new understanding of the cultural personal moral and legal dimensions of cosmopolitanism This is a key critical guide to  
cosmopolitanism for all students of globalization and sociology      Rethinking Privilege and Social Mobility in Middle-Class  
Migration Shanthi Robertson,Rosie Roberts,2022-03-24 This volume explores the experiences of a wide variety of middle  
class migrant groups across the globe including ethnic entrepreneurs building new businesses in cosmopolitan  
neighbourhoods in Sydney Chinese grandparents shuttling between Australia China and Singapore to support their extended  
families well off young Indians in Mumbai strategising their future education pathways overseas and Japanese mothers

finding ways to belong in a London middle class neighbourhood This book asks how relatively privileged migrant groups negotiate their life trajectories relationships and aspirations while on the move and how they transform the communities and societies that they move between across time and space The book s chapters consider motives for migration as well as experiences of risk uncertainty and insecurity in diverse local contexts A fresh look at the migration of those who possess skills and resources that can bring about significant economic social and cultural change this book engages critically with the notions of middling migration social mobility and mobile privilege in the global context of hardening borders and immigration complexity It will appeal to scholars with interests in contemporary forms of migration and mobility and their local and transnational consequences **The Palgrave Handbook of African Social Ethics** Nimi Wariboko, Toyin Falola, 2020-03-30

This Handbook provides a robust collection of vibrant discourses on African social ethics and ethical practices It focuses on how the ethical thoughts of Africans are forged within the context of everyday life and how in turn ethical and philosophical thoughts inform day to day living The essays frame ethics as a historical phenomenon best examined as a historical movement the dynamic ethos of a people rather than as a theoretical construct It thereby offers a bold incisive and fresh interpretation of Africa s ethical life and thought **Asia in International Relations** Pinar Bilgin, L.H.M. Harris, 2003-02-21 The history of the 20th century was dominated by the state nationalism national economies national wars Professor Nigel Harris argues that such a global structure is unthinkable in the 21st century Why As the world opens up and barriers between countries come crashing down so the powers of nations nationalisms and the state have begun to dissolve He argues that the notion of national capital is becoming redundant as cities and their citizens increasingly unaffected by borders and national boundaries take centre stage in the economic world Harris deconstructs this phenomenon and argues for the immense benefits it could and should have not just for western wealth but for economies worldwide for international communication and for global democracy Immigration and Asylum Matthew J. Gibney, Randall Hansen, 2005-06-21 A comprehensive and timely examination of the history and current status of immigrants and refugees their stories the events that led to their movement and the place of these movements in contemporary history and politics Immigration and Asylum From 1900 to the Present is an accessible and up to date introduction to the key concepts terms personalities and real world issues associated with the surge of immigration from the beginning of the 20th century to the present It focuses on the United States but is also the first encyclopedic work on the subject that reflects a truly global perspective With contributions from the world's foremost authorities on the subject Immigration and Asylum offers nearly 200 entries organized around four themes immigration and asylum the major migrating groups around the world expulsions and other forced population movements and the politics of migration In addition to basic entries the work includes in depth essays on important trends

events and current conditions There is no better resource for exploring just how profoundly the voluntary and forced movement of asylum seekers and refugees has transformed the world and what that transformation means to us today

Assurance Companies' Returns Great Britain. Board of Trade,1912      *Transnational Return and Social Change* Remus Gabriel Anghel,Margit Fauser,Paolo Boccagni,2019-07-31 Return has long been considered the end of a migration cycle Today returnees continued transnational ties practices and resources have become increasingly visible Transnational Return and Social Change joins what is now a growing field of research and suggests new ways to understand the dynamics of return migration and the social changes that come along It pays tribute to the meso level impacts that follow the practices and resources migrant returnees mobilize across borders With a particular focus on the meso level the book takes up the challenge of transnational research and enquires into the consequences of return for local communities organizations social networks and groups Presenting a collection of case studies dedicated to migrations across Europe and beyond this book contributes new insights into the societal impact of migration in pluralized societies      **Whose Cosmopolitanism?** Nina Glick Schiller,Andrew Irving,2017-05 The term cosmopolitan is increasingly used within different social cultural and political settings including academia popular media and national politics However those who invoke the cosmopolitan project rarely ask whose experience understanding or vision of cosmopolitanism is being described and for whose purposes In response this volume assembles contributors from different disciplines and theoretical backgrounds to examine cosmopolitanism's possibilities aspirations and applications as well as its tensions contradictions and discontents so as to offer a critical commentary on the vital but often neglected question whose cosmopolitanism The book investigates when where and how cosmopolitanism emerges as a contemporary social process global aspiration or emancipatory political project and asks whether it can serve as a political or methodological framework for action in a world of conflict and difference      One People, One Blood Don Seeman,2009 Today along with those Ethiopians who have been recognized as Jews by the State of Israel many who are called Feres Mura the descendants of Ethiopian Jews who have now reasserted their Jewish identity still await full acceptance in Israel Since the 1990s they have sought homecoming through Israel's Law of Return but have been met with reticence and suspicion on a variety of fronts This book documents this tenuous relationship and the challenges facing the Feres Mura      *Law, Legal Expertise and EU Policy-Making* Emilia Korkea-aho,Päivi Leino-Sandberg,2022-10-20 The first socio legal study of legal experts and their influence on EU policy making at national European and international levels      Cosmopolitanism and International Relations Theory Richard Beardsworth,2013-04-16 Globalization has been contested in recent times Among the critical perspectives is cosmopolitanism Yet with the exception of normative theory international relations as a field has ignored cosmopolitan thinking This book redresses this gap and develops a dialogue between cosmopolitanism and international relations The dialogue is structured around three debates between non universalist theories of international relations and contemporary cosmopolitan thought The theories chosen are realism post

Marxism and postmodernism All three criticize liberalism in the international domain and therefore cosmopolitanism as an offshoot of liberalism In the light of each school s respective critique of universalism the book suggests both the importance and difficulty of the cosmopolitan perspective in the contemporary world Beardsworth emphasizes the need for global leadership at nation state level re embedding of the world economy a cosmopolitan politics of the lesser violence and cosmopolitan political judgement He also suggests research agendas to situate further contemporary cosmopolitanism in international relations theory This book will appeal to all students of political theory and international relations especially those who are seeking more articulation of the main issues between cosmopolitanism and its critics in international relations
