A. Drake, 2025-02-17 This book is about four cornerstones of modern thought that were put in place by people living in the ancient Mediterranean world. It covers approximately 2 000 years in time from ca 1000 BCE to 1000 CE and spatially moves from the Tigris and Euphrates rivers in Mesopotamia roughly modern Iraq through Greece and Rome to the new Germanic states growing in what is now western Europe. The four ideas as author H A Drake proposes are monotheism the idea that there is only one god not many individual rights the idea that there is a limit to what the state can order us to do naturalized citizenship the idea that the full rights and privileges of citizenship can be extended to people who have no birthright to them and creation of a standard by which to judge the performance of states. It is easy now to take these ideas for granted. For believers it seems obvious that only a singular omnipotent deity can account for the splendour of the universe. Similarly the common notion that individuals can stand up for their rights that citizenship can be freely given or that governments ought to be held to a standard of justice for all is often accompanied by the assumption that at the time they were introduced such ideas must have been immediately recognized as superior and gratefully accepted. The record is far more complicated and that makes the story of their success far more interesting. By discussing these ideas in their historical context with clarity and wit *The Wisdom of the Ancients* reminds readers how preposterous they were originally and how different our world would be if they had not taken hold *Israel's Lord* David E. Wilhite, Adam Winn, 2024-07-15 *Israel's Lord* YHWH as Two Powers in Second Temple Literature addresses the nature of Jewish monotheism in Second Temple literature advancing an argument that much of the literature reflects the existence of two powers in heaven that are both rightly understood as YHWH. To this end Wilhite and Winn review various figures such as God's Word God's Wisdom the Angel of the Lord the Son of Man and others that bear features closely associated with the God of Israel. Using criteria related to these features they argue that most though not all of these figures are rightly identified as the figure who appeared in Israel's scriptures and was called YHWH. Such a two powers paradigm is relevant for understanding early Christian commitments regarding Jesus. The debate about Jesus' divinity depends in large part on what options were available for the earliest Christians when considering his titles and status. The authors contend that with such a two powers paradigm available to the earliest Christians it should inform any reading of New Testament texts and their varying depictions of Jesus as Lord

**God, Trump, and the 2020 Election** Stephen E. Strang, 2020-01-14 From the best selling author of *God and Donald*

Trump which was brandished by the president at the World Economic Forum in Davos What's at stake in this election EVERYTHING In 2016 God raised up Donald Trump to lead America at a pivotal time Evangelicals who recognized this backed him more than any other presidential candidate in history Heading into 2020 the stakes in his reelection are even higher This election nine months after this book releases is a new fight for the soul of America Stephen E Strang makes the case that God wants America to be great because God has raised up America beginning with our Founding Fathers to be a beacon of light and hope for the world We've been the nation with religious liberty that has supported those who have spread the gospel around the world In this book Strang looks at the election Trump and America from a spiritual perspective and helps Christians and others see God's hand at work This book is as much about God and His purposes as about Donald Trump But it is also an articulate impassioned apologetic about why all Christians must support this imperfect president because he has God's blessing and because the destiny of America is riding on his reelection This book also explores why he might lose if his base is overconfident and doesn't vote or if his opponents are dishonest enough to steal the election God Trump and the 2020 Election is an inside look at how the political climate is affected by spiritual warfare an important subject for Bible believing Christians The satanic schemes are so brazen on key issues that the book was written to explain what's at stake Strang believes that the intersection of faith and politics needs to be part of the national discussion about the division in our country Other Books By Stephen E Strang God and Donald Trump 2017 ISBN 13 978 1629994864 Trump Aftershock 2018 ISBN 13 978 1629995557
