## Return Of The Sphinx:

**Return of the Sphinx** Hugh MacLennan, 2009-05-01 Alan Ainslie is an able and dedicated man high in the government Daniel Ainslie his son is a member of an explosive movement impelled by the naive rebelliousness of the New Left Hugh MacLennan weaves a complex and story of two generations in conflict Originally published in 1967 Return of the Sphinx is something of a sequel to the more optimistic Two Solitudes and reflects MacLennan's disenchantment with the world in general and the apparently intractable French English debate in Canada *Return of the Sphinx* Seacee, 2010 **Faith and Fiction** Barbara Pell, Canadian Corporation for Studies in Religion, 1998-11-02 Is it possible to write an artistically respectable and theoretically convincing religious novel in a non religious age Up to now there has been no substantial application of theological criticism to the works of Hugh MacLennan and Morley Callaghan the two most important Canadian novelists before 1960 Yet both were religious writers during the period when Canada entered the modern non religious era and both greatly influenced the development of our literature Faith and Fiction A Theological Critique of the Narrative Strategies of Hugh MacLennan and Morley Callaghan is a significant contribution to the relatively new field studying the relation between religion and literature in Canada **Return of the Sphinx: a Novel** Hugh MacLennan, 1967 **Return of the sphinx, N.Y., C. The series is wide in scope traversing disciplines regions and viewpoints. Topics given particular prominence are those which while of interest to academic lawyers have significant bearing on policymaking and current public discourse on the interaction between art heritage and the law. Book jacket *China, Cultural Heritage, and International Law* Hui Zhong, 2017-11-27 China is a country that is rich in antiquities but it is also a victim of looting that occurred during the period from the First Opium War to the end of the Japanese Occupation 1840-1945 when innumerable cultural objects were lost overseas. The Chinese Government insists on asserting its interest over its wrongfully removed cultural heritage and has sought for the return of lost cultural heritage by all means in accordance with relevant international conventions and Chinese laws. However securing the return has been and continues to be problematic. Little research has been done regarding the question as to whether China has a legal basis for recovery which is the first legal hurdle that China needs to get over. In addition China does not have a legal basis for all cultural heritage taken during the period of 1840-1945. Claims for return without a legal basis are usually silenced or at best discussed only but very rarely facilitated. This book provides an answer for the return of Chinese cultural heritage. It examines the law contemporaneous to the removal of Chinese cultural heritage and its application. For this lack of a legal basis this book argues that a new customary international law is emerging according to which the interests of the states of origin in their wrongfully removed heritage should be prioritised. This proposed customary rule supports the return of wrongfully removed heritage. Once this proposed customary rule is accepted it will provide a stronger argument not only for China but also for other states of origin with a similar dilemma including South Korea Egypt Greece Cambodia Turkey Peru and Italy to recover their wrongfully removed heritage. While dealing with a large pool of return cases this book is valuable to museums and art collectors in the event of buying and accepting art objects and settling recovery disputes with states of origin. It will also be of interest to researchers academics policymakers and students in the fields of cultural heritage law international law international trade and human rights law E-Quels
