Revengeful Fangs F. W. Bamford,1900 *Society and Nature* Hans Kelsen,2009 The influential jurist Hans Kelsen 1881 1973 here applies his concept of the distinction between society and nature He shows how primitive man developed his interpretation of nature through the laws of retribution and of causality to a modern concept of nature and society He holds that the gradual emancipation of the law of causality from the principle of retribution is the emancipation from a social interpretation of nature The process shows a relation between social and natural science which is very important from the point of view of intellectual history Introduction p viii Extensively annotated Kelsen is known for his theory of pure positive law as postulated in General Theory of Law and State which is also available in a reprint edition from The Lawbook Exchange
