Reverence Renewing A Forgotten Virtue:

Reverence Paul Woodruff, 2001 Looks at the meaning of reverence and its role in religion and society **Becoming More Fully Human**, Sacred Nature Jerome A. Stone, 2017-06-26 Sacred Nature examines the crisis of environmental degradation through the prism of religious naturalism which seeks rich spiritual engagement in a world without a god Jerome Stone introduces students to the growing field of religious naturalism exploring a series of questions about how it addresses the environmental crises evaluating the merits of public prophetic discourse that uses the language of spirituality He presents and defends the concept of religious naturalism while drawing out the implications of religious naturalism for addressing some of the major environmental issues facing humans today This book is designed for undergraduate and graduate students as well as scholars specializing in contemporary religious thought or environmental studies **Civility in Politics and Education** Deborah Mower, Wade L. Robison, 2013-03-01 This book examines the concept of civility and the conditions of civil disagreement in politics and education Although many assume that civility is merely polite behavior it functions to aid rational discourse Building on this basic assumption the book offers multiple accounts of civility and its contribution to citizenship deliberative democracy and education from Eastern and Western as well as classic and modern perspectives Given that civility is essential to all aspects of public life it is important to address how civility may be taught While much of the book is theoretical contributors also apply theory to practice offering concrete methods for teaching civility at the high school and collegiate levels **Sagehood** Stephen C. Angle, 2009 Stephen Angle here provides both an exposition of Neo Confucian philosophy and a sustained dialogue with many leading Western thinkers and especially with those philosophers leading the current renewal of interest in virtue ethics The Virtues of Ignorance Bill Vitek, 2008-05-01 Human dependence on technology has increased exponentially over the past several centuries and so too has the notion that we can fix environmental problems with scientific applications The Virtues of Ignorance Complexity Sustainability and the Limits of Knowledge proposes an alternative to this hubristic shortsighted and dangerous worldview The contributors argue that uncritical faith in scientific knowledge has created many of the problems now threatening the planet and that our wholesale reliance on scientific progress is both untenable and myopic Bill Vitek Wes Jackson and a diverse group of thinkers including Wendell Berry Anna Peterson and Robert Root Bernstein offer profound arguments for the advantages of an ignorance based worldview Their essays explore this philosophy from numerous perspectives including its origins its essence and how its implementation can preserve vital natural resources for posterity All conclude that we must simply accept the proposition that our ignorance far exceeds our knowledge and always will Rejecting the belief that science and technology are benignly at the service of society the authors argue that recognizing ignorance might be the only path to reliable knowledge They also uncover an interesting paradox knowledge and insight accumulate fastest in the minds of those who hold an ignorance based worldview for by examining the alternatives to a technology based culture they expand their

imaginations Demonstrating that knowledge based worldviews are more dangerous than useful The Virtues of Ignorance looks closely at the relationship between the land and the future generations who will depend on it The authors argue that we can never improve upon nature but that we can by putting this new perspective to work in our professional and personal lives live sustainably on Earth Animal Theologians Andrew Linzey, Clair Linzey, 2023 Many people who have thought about God have not thought about animals or about the relationship between the two But among those who have are some of the most celebrated religious thinkers including Michel de Montaigne Thomas Tryon John Wesley John Ruskin Leo Tolstoy Mohandas K Gandhi Albert Schweitzer and Paul Tillich This volume comprises 24 scholarly studies that detail challenges to the dominant anthropocentrism of most religious traditions The editors have brought together Jewish Unitarian Christian transcendentalist Muslim Hindu Dissenting deist and Quaker voices each offering a unique theological perspective that counters the neglect of the nonhuman Animal Theologians is divided into three parts starting with the pioneers who first saw a relationship between animals and divinity those who contributed to the expansion of social sensibility to animals and ending with the work of contemporary theologians The essays in this volume use contextual and historical background to describe what led animal theologians to their beliefs and then pave way for further developments in this expanding field This volume is an act of reclaiming different religious traditions for animals by recovering lost voices *The Virtues of Limits* David McPherson, 2022 This book explores the place of limits within a well lived human life and develops and defends an original account of limiting virtues which are concerned with recognizing proper limits in human life The Sacred Depths of Nature Ursula Goodenough, 2023 This eloquent volume reconciles our contemporary scientific understanding of reality with our timeless spiritual yearnings Addressing ideas like evolution emotions sexuality and death The Sacred Depths of Nature allows even non scientists to appreciate that the origins of life and the universe are no less meaningful in light of our scientific understanding of them This new edition offers a deepened consideration of emergent properties and emergent dynamics as well as an exploration of their role as the generators of life s complexity Goodenough also expands upon the ethic of ecomorality in a new chapter and incorporates new quotes figures and poems in her analysis *Meeting Health Information Needs Outside Of Healthcare* Catherine Arnott Smith, Alla Keselman, 2015-08-04 Meeting Health Information Needs Outside of Healthcare addresses the challenges and ethical dilemmas concerning the delivery of health information to the general public in a variety of non clinical settings both in person and via information technology in settings from public and academic libraries to online communities and traditional and social media channels Professionals working in a range of fields including librarianship computer science and health information technology journalism and health communication can be involved in providing consumer health information or health information targeting laypeople This volume clearly examines the properties of health information that make it particularly challenging information to provide in diverse settings Addresses professional challenges and ethical problems of communicating health information to lay people in non clinical settings

Focuses on health information as a challenge for different professionals providing health information in different settings
Emphasizes the shared challenges of information practice across different settings as well as those facing professionals in different roles

Making Nature Sacred John Gatta, 2004-10-14 Since colonial times the sense of encountering an unseen transcendental Presence within the natural world has been a characteristic motif in American literature and culture American writers have repeatedly perceived in nature something beyond itself and beyond themselves In this book John Gatta argues that the religious import of American environmental literature has yet to be fully recognized or understood Whatever their theology American writers have perennially construed the nonhuman world to be a source in Rachel Carson's words of something that takes us out of ourselves Making Nature Sacred explores how the quest for natural revelation has been pursued through successive phases of American literary and intellectual history And it shows how the imaginative challenge of reading landscapes has been influenced by biblical hermeneutics Though focused on adaptations of Judeo-Christian religious traditions it also samples Native American African American and Buddhist forms of ecospirituality It begins with Colonial New England writers such as Anne Bradstreet and Jonathan Edwards re-examines pivotal figures such as Henry Thoreau and John Muir and takes account of writings by Mary Austin Rachel Carson and many others along the way The book concludes with an assessment of the spiritual renaissance underway in current environmental writing as represented by five noteworthy poets and by authors such as Wendell Berry Annie Dillard Marilynne Robinson Peter Matthiessen and Barry Lopez This engaging study should appeal not only to students of literature but also to those interested in ethics and environmental studies religious studies and American cultural history

Forgiveness in International Politics William Bole, Drew Christiansen, Robert T. Hennemeyer, 2004 In this provocative book the authors argue that the core religious value of forgiveness can play a real strategic role in the arena of international conflict and diplomacy

A Common Faith John Dewey, 2013-08-28 In A Common Faith eminent American philosopher John Dewey calls for the emancipation of the true religious quality from the heritage of dogmatism and supernaturalism that he believes characterizes historical religions He describes how the depth of religious experience and the creative role of faith in the resources of experience to generate meaning and value can be cultivated without making cognitive claims that compete with or contend with scientific ones In a new introduction Dewey scholar Thomas M Alexander contextualizes the text for students and scholars by providing an overview of Dewey and his philosophy key concepts in A Common Faith and reactions to the text

Conversations with Scripture Stephen L. Cook, 2008-09 The God of Second Isaiah the Holy One of Israel is increasingly

Divine Motivation Theory Linda Trinkaus Zagzebski, 2004-08-02 Publisher Description

Social Aesthetics and the School Environment Adam I. Attwood, 2017-09-30 This book theorizes aesthetic classroom management through a hermeneutical approach with three fields of literature history and philosophical foundations of chivalry chivalry's promulgation through the Victorian Age and parallel issues of identity in twenty-first century teacher education The aim of

the book is to examine the relationship between chivalric ethos and education The presented case study addresses more specifically the following question how can chivalry be re imagined or theorized in an educational setting Few studies address the concept of aesthetics and hermeneutical context in American classroom management and classroom life and Attwood pinpoints and traces the medieval social concept of chivalry through the centuries and argues it has manifested itself in classroom social construction in the twenty first century

Routledge Handbook of Biodiversity and the Law Charles R. McManis,Burton Ong,2017-11-27 This volume provides a reference textbook and comprehensive compilation of multifaceted perspectives on the legal issues arising from the conservation and exploitation of non human biological resources Contributors include leading academics policy makers and practitioners reviewing a range of socio legal issues concerning the relationships between humankind and the natural world The Routledge Handbook of Biodiversity and the Law includes chapters on fundamental and cutting edge issues including discussion of major legal instruments such as the Convention on Biological Diversity and the Nagoya Protocol The book is divided into six distinct parts based around the major objectives which have emerged from legal frameworks concerned with protecting biodiversity Following introductory chapters Part II examines issues relating to conservation and sustainable use of biodiversity with Part III focusing on access and benefit sharing Part IV discusses legal issues associated with the protection of traditional knowledge cultural heritage and indigenous human rights Parts V and VI focus on a selection of intellectual property issues connected to the commercial exploitation of biological resources and analyse ethical issues including viewpoints from economic ethnobotanical pharmaceutical and other scientific industry perspectives

Biodiversity and the Law Charles R. McManis,2012-05-04 How do we promote global economic development while simultaneously preserving local biological and cultural diversity This authoritative volume written by leading legal experts and biological and social scientists from around the world aims to address this question in all of its complexity The first part of the book focuses on biodiversity and examines what we are losing why and what is to be done The second part addresses biotechnology and looks at whether it is part of the solution or part of the problem or perhaps both The third section examines traditional knowledge explains what it is and how if at all it should be protected The fourth and final part looks at ethnobotany and bioprospecting and offers practical lessons from the vast and diverse experiences of the contributors

Understanding Moral Sentiments Hilary Putnam,Susan Neiman,Jeffrey P. Schloss,2014-07-18 This volume brings together leading scholars to examine Darwinian perspectives on morality from widely ranging disciplines evolutionary biology anthropology psychology philosophy and theology They bring not only varied expertise but also contrasting judgments about which and to what extent differing evolutionary accounts explain morality They also consider the implications of these explanations for a range of religious and non religious moral traditions The book first surveys scientific understandings of morality Chapters by Joan Silk and Christopher Boehm ask what primatology and anthropology tell us about moral origins Daniel Batson and Stephen Pinker provide contrasting accounts of how evolution

shapes moral psychology and Jeffrey Schloss assesses a range of biological proposals for morality and altruism Turning to philosophical issues Martha Nussbaum argues that recognizing our animal nature does not threaten morality Stephen Pope and Timothy Jackson explore how Darwinian accounts of moral goodness both enrich and require understandings outside the sciences Hilary Putnam and Susan Neiman ask whether Darwin is truly useful for helping us to understand what morality actually is and how it functions The book is a balanced effort to assess the scientific merits and philosophical significance of emerging Darwinian perspectives on morality

God, Science and the Universe John Swanson, 2010-03 No religion that claims to be relevant in today's world can ignore the truths that science teaches us Nor can it ignore the spiritual values and teachings of past generations The deep religious heritage of humanity is like a pirate's buried treasure chest The ancient chest decays into rotten wood and rusty iron but the precious jewels inside remain as fresh as the day they were buried They need only to be reclaimed and then placed in a fresh container The same is true for our religious heritage Religion today is undergoing a radical transformation that is affecting all aspects of our lives This book presents a synthesis between traditional values and our changing understanding of the universe We live in an age of science and technology that profoundly affects the way we see things God, Science and the Universe presents the outline for a new faith grounded in the natural world
