*Mohawk Frontier, Second Edition* Thomas E. Burke Jr.,2009-02-05 This is the fascinating story of the Dutch community at Schenectady a village that grew out of the wilderness along the northern frontier of New Netherland in the 1660s Drawing upon a wealth of original documents Thomas Burke renders an engaging portrait of a small but dynamic Dutch village in the twilight years of the New Netherland colony Despite the proximity of the Mohawks Schenectady s residents when they were not quarreling amongst themselves made their living more from farming and raising livestock than trading Due to a scarcity of labor Schenectady became one of the most diverse and energized communities in the region attracting servants and tenant farmers and paving the way for slavery Its northern frontier location however made it a vulnerable target during the many conflicts between the French and English that erupted in the late seventeenth century Bringing Schenectady fully out of the historical shadow of its large neighbor Albany Thomas Burke reveals both the intricate depths of a small Dutch village and how many aspects of its story mirrored the broader histories of New Netherland and New York This second edition of the classic history features a new introduction by William Starna which updates key research and issues that have arisen since its initial publication

*King James VI and I and the Reunion of Christendom* W. B. Patterson,2000-09-14 This book shows King James VI and I king of Scotland and England in an unaccustomed light Long regarded as inept pedantic and whimsical James is shown here as an astute and far sighted statesman whose reign was focused on achieving a permanent union between his two kingdoms and a peaceful and stable community of nations throughout Europe

**Justice, Power and the Political Landscape** Kenneth Olwig,Donald Mitchell,2019-07-09 Landscape is now on the agenda in a new way The increasing interest in justice power and the political landscape expresses a sea change occurring in the meaning of landscape itself from landscape as scenery to landscape as polity and place As Lionella Scazzosi argues The meaning of the term landscape has become broader than that of a view or panorama which characterized many national protection laws and policies until the middle of the 20th century and that of environment or nature to which it has often been limited during the recent years of environmentalist battles This is reflected in the new European Landscape Convention for which Landscape means an area as perceived by people The tide thus has turned towards J B Jackson s view of landscape as not a scenic or ecological entity but as a political or cultural entity changing in the course of history It is in this socio political context that it becomes necessary to consider the role of power and the importance of justice in the shaping of the landscape as an area of practice and performance with both cultural and environmental implications This book was previously published as two special issues of Landscape Research

The Age of Milton C. A. Patrides, Raymond B. Waddington, 1980

The Reformation of Community Charles H. Parker, 1998-11-28 By the time of the Calvinist Reformation the cities of Holland had established a very long tradition of social provision for the poor in the civic community Calvinists however intended to care for their own church members who were by definition within the household of faith through the deaconate a confessional relief agency This book examines the relationship between municipal and ecclesiastical relief agencies in the six chief cities of Holland Dordrecht Haarlem Delft Leiden Amsterdam and Gouda from the public establishment of the Reformed Church in 1572 to the aftermath of the Synod of Dort The author argues that the conflict between charitable organizations reveal competing conceptions of Christian community that came to the fore as a result of the Dutch Reformation This is the first comparative study of poor relief in Holland which contributes to our understanding of the Reformation throughout Europe

**Cultural Contact and the Making of European Art since the Age of Exploration** Mary D. Sheriff, 2010-06-21 Art historians have long been accustomed to thinking about art and artists in terms of national traditions This volume takes a different approach suggesting instead that a history of art based on national divisions often obscures the processes of cultural appropriation and global exchange that shaped the visual arts of Europe in fundamental ways between 1492 and the early twentieth century

Essays here analyze distinct zones of contact between various European states between Asia and Europe or between Europe and so called primitive cultures in Africa the Americas and the South Pacific focusing mainly but not exclusively on painting drawing or the decorative arts Each case foregrounds the centrality of international borrowings or colonial appropriations and counters conceptions of European art as a pure tradition uninfluenced by the artistic forms of other cultures The contributors analyze the social cultural commercial and political conditions of cultural contact including tourism colonialism religious pilgrimage trade missions and scientific voyages that enabled these exchanges well before the modern age of globalization Contributors Claire Farago University of Colorado at Boulder Elisabeth A Fraser University of South Florida Julie Hochstrasser University of Iowa Christopher Johns Vanderbilt University Carol Mavor University of North Carolina at Chapel Hill Mary D Sheriff University of North Carolina at Chapel Hill Lyneise E Williams University of North Carolina at Chapel Hill

*The Renaissance in National Context* Roy Porter, Mikulas Teich, 1992 The Renaissance in National Context aims to dispel the commonly held view that the great efflorescence of art learning and culture in the period from c 1350 to 1550 was solely or even primarily an Italian phenomenon These essays address the development of art literacy and humanism across the length and breadth of Europe showing that the Renaissance had many sources independent of Italy meeting numerous local needs and serving diverse local functions specific to the political economic social and religious climates of various regions and principalities The authors show that though the Renaissance was in a fashion backward looking recovering the culture of antiquity it nevertheless served as the springboard for many specifically modern developments including the rise of diplomacy education printing nationalism and the new science

**Worlds Within Worlds** Steve Rappaport, 2002-04-04 A study of urban life in early modern Britain which combines sophisticated quantitative analysis with vivid empirical detail

**The Age of Battles** Russell F. Weigley, 2004-04-28 One of the most interesting important and ambitious books about the conduct and perhaps the ultimate futility of war Gunther E Rothenberg A highly scholarly and wonderfully absorbing study John Bayley The London Review of Books What Russell F Weigley writes the rest of us read The Age of Battles is a persuasive reminder that even in the age of rational warfare one can honestly wonder why war seemed an unavoidable policy choice Allan R Millett The Journal of American History

**Siege Warfare** Christopher Duffy, 2013-04-15 This classic text is the first integrated survey of the phenomenon of siege warfare during its most creative period Duffy demonstrates the implications of the fortress for questions of military organization strategy geography law architectural values town life and symbolism and imagination The book is well illustrated and will be a valuable companion for enthusiasts of military and architectural history as well as the general medievalist

**European Warfare, 1350-1750** Frank Tallett, D. J. B. Trim, 2010-01-28 Leading military historians illuminate the major developments in European warfare during a period of momentous technological political and military change The chapters provide a comprehensive overview of warfare across Europe presenting new findings and ideas that shed light on the art of war military revolutions state

development and European expansion      The Reformation Diarmaid MacCulloch, 2005-03-25 The Reformation and Counter Reformation represented the greatest upheaval in Western society since the collapse of the Roman Empire a millennium before The consequences of those shattering events are still felt today from the stark divisions between and within Catholic and Protestant countries to the Protestant ideology that governs America the world's only remaining superpower In this masterful history Diarmaid MacCulloch conveys the drama complexity and continuing relevance of these events He offers vivid portraits of the most significant individuals Luther Calvin Zwingli Loyola Henry VIII and a number of popes but also conveys why their ideas were so powerful and how the Reformation affected everyday lives The result is a landmark book that will be the standard work on the Reformation for years to come The narrative verve of The Reformation as well as its provocative analysis of American culture's debt to the period will ensure the book's wide appeal among history readers
