Bazaar and State in Iran Arang Keshavarzian, 2007-04-12 The Tehran Bazaar has always been central to the Iranian economy and indeed to the Iranian urban experience Arang Keshavarzian s fascinating book compares the economics and politics of the marketplace under the Pahlavis who sought to undermine it in the drive for modernisation and under the subsequent revolutionary regime which came to power with a mandate to preserve the bazaar as an Islamic institution The

outcomes of their respective policies were completely at odds with their intentions Despite the Shah's hostile approach the bazaar flourished under his rule and maintained its organisational autonomy to such an extent that it played an integral role in the Islamic revolution Conversely the Islamic Republic implemented policies that unwittingly transformed the ways in which the bazaar operated thus undermining its capacity for political mobilisation Arang Keshavarzian's book affords unusual insights into the politics economics and society of Iran across four decades

Reconstruction and Regional Diplomacy in the Persian Gulf H. Amirahmadi, N. Entessar, 2023-05-26 First Published in 1992 *Reconstruction and Regional Diplomacy in the Persian Gulf* goes beyond a description of the recent events by analysing the social political and economic patterns of interaction between the Gulf states The argument is strengthened by a consideration of the role of the superpowers in the region's political discourse and of religion as a force for a change Not only do the authors provide an easily accessible basis for explaining the current problems in the region but they also offer their own sometimes provocative policy prescriptions This book is an important read for scholars and researchers of Middle East politics and Middle East history

Is the Tehran Bazaar Dead? Foucault, Politics, and Architecture Farzaneh Haghighi, 2018-10-01 To examine the political role of architecture this book presents an original engagement with the largest center of attraction in Tehran namely its bazaar Through a rigorous study it goes beyond the conventional sociopolitical and architectural discourses of this marketplace by considering architecture as an event This book offers alternative modes of spatial thinking on a micropolitical level Emphasis is placed on the focused exploration of key notions mainly drawn from the works of Michel Foucault It deploys effective methods and shows how philosophical concepts can be deployed as a tool to analyse the ways through which architecture transforms individuals through the act of exchange whether of words things bodies or thoughts

Revolutionary Contagion and International Politics Chad E. Nelson, 2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an

ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion

Persian Mirrors Elaine Sciolino, 2000-10-03 No American reporter has more experience covering Iran or more access to the private corners of Iranian society than Elaine Sciolino As a correspondent for Newsweek and The New York Times she has reported on the key events of the past two decades She was aboard the airplane that brought Ayatollah Ruhollah Khomeini to Tehran in 1979 she was there for the Iranian revolution the hostage crisis the Iran Iraq war the rise of President Mohammad Khatami and the riots of the summer of 1999 In *Persian Mirrors* Sciolino takes us into the public and private spaces of Iran the bazaars beauty salons aerobics studios courtrooms universities mosques and the presidential palace to capture the vitality of a society so often misunderstood by Americans She demystifies a country of endless complexity where on the streets women swathe themselves in black and behind high walls they adorn themselves with makeup and jewelry where the laws of Islam are the law of the land and yet the government advertises as tourist attractions the ruins of the pre Islamic imperial capital at Persepolis and the synagogue where Queen Esther is said to be buried and where even the most austere clerics recite sensual romantic poetry insisting that it refers to divine and not earthly love Iran is also a place with a dark side where unpredictable repression is carried out officially and unofficially by forces intent on maintaining power and influence Sciolino deftly uses her travels throughout Iran and her encounters with its people to portray the country as an exciting daring laboratory where experiments with two highly volatile chemicals Islam and democracy are being conducted Like the mirror mosaics found in Iran's royal palaces and religious shrines there is more to the whole of the country than the fragments revealed to outsiders *Persian Mirrors* captures this elusive Iran Sciolino paints in astonishing detail and rich color the surprising inner life of this country where a great battle is raging not for control over territory but for the soul of the nation

Iran's Grand Strategy Vali Nasr, 2025-05-20 Two pervasive fears of external aggression and internal dissolution have dominated political discourse and state action in Iran for many decades and arguably for centuries This book closely examines these fears how they've shaped political trends in Iran and specifically how they have undergirded the conduct of state actors during both the regime of the Shah the Pahlavi monarchy of the twentieth century and the Islamic Republic since the 1979 revolution Drawing on archival sources in the West and in Iran as well as interviews with key Iranian decision makers both past and present Vali Nasr traces this thread of national security through key modern historical episodes in Iran By viewing modern Iranian history through this lens Nasr argues that decrying the current Iranian regime as a theocracy is a tired rhetorical move and inaccurate as an explanation for how it conducts itself in the world Today's Islamic Republic functions as a modern legal rational nation state It is one that has evolved around a distinct and deeply held view of national interest and national security rooted in both recent and not so recent history Nasr's book will serve as a corrective to a deeply rooted view in policy making circles that the Iranian ruling

elite s commitment to Islamic theocracy has driven the country s foreign policy since the time of the revolution
