The Native Languages of South America Loretta O'Connor, Pieter Muysken, 2014-03-20 In South America indigenous languages are extremely diverse There are over one hundred language families in this region alone Contributors from around the world explore the history and structure of these languages combining insights from archaeology and genetics with innovative linguistic analysis The book aims to uncover regional patterns and potential deeper genealogical relations between the languages Based on a large scale database of features from sixty languages the book analyses major language families such as Tupian and Arawakan as well as the Quechua Aymara complex in the Andes the Isthmo Colombian region and the Andean foothills It explores the effects of historical change in different grammatical systems and fills gaps in the World Atlas of Language Structures WALS database where South American languages are underrepresented An important resource for students and researchers interested in linguistics anthropology and language evolution

Amerindian Socio-Cosmologies between the Andes, Amazonia and Mesoamerica Ernst Halbmayer, 2020-01-10 This book offers a new anthropological understanding of the socio cosmological and ontological characteristics of the Isthmo Colombian Area beyond established theories for Amazonia the Andes and Mesoamerica It focuses on a core region that has been largely neglected by comparative anthropology in recent decades Centering on relations between Chibchan groups and their neighbors the contributions consider prevailing socio cosmological principles and their relationship to Amazonian animism and Mesoamerican and Andean analogism Classical

notions of area homogeneity are reconsidered and the book formulates an overarching proposal for how to make sense of the heterogeneity of the region's indigenous groups. Drawing on original fieldwork and comparative analysis, the volume provides a valuable anthropological addition to archaeological and linguistic knowledge of the Isthmo-Colombian Area.
