River Rats Caroline Stevermer, 2022-03-15 Calling to mind such widely disparate writers as Mark Twain Andre Norton and Peter Dickinson Stevermer paints a realistic ruin of society Publishers Weekly The award winning author of the Scholarly Magic series delivers the thrilling adventure of a crew of young kids working their way through a post apocalyptic world on a steamboat they call home No one knows for sure what caused the Flash They just know that nothing has been the same since Cities have been destroyed by pestilence riots and fires The paddleboat River Rat once a museum was turned into an orphanage But a dangerous storm forced the children to flee with the boat to safer waters making it theirs for good Since then Tomcat Toby Esteban Lindy Spike and Jake have traveled bartered and performed their way up and down the Mississippi River One rule that has served them well no passengers But after watching a man on shore being pursued by a vicious pack of locals the group has no choice but to save him At every stop the boat is met by the man's tireless hunters They want what the fugitive knows the location of a bunker filled with guns A currency more valuable than gold and one that the crew of the River Rat might well pay for with their lives An unusual compelling futuristic novel wry sharp lively and perceptive The Horn Book starred review Too good to miss Booklist An ALA Best Book for Young Adults A New York Public Library Book for the Teen Age

The Old-Time River Rats Kenny Salwey, 2009-11-15 Colorful characters once populated the Upper Mississippi River Valley swamps and floodplain forests These are the river rats hill folk and swamp dogs whose stories Kenny Salwey tells so well Now long gone these legendary denizens of the river bottoms come alive in Kenny's signature brand of storytelling rife with insight and laughter woodlore and a time tested philosophy of the natural world With a foreword by regional historian Gary Schlosstein this deep delving into the old time community of the Mississippi River presents a rich picture of a life as fascinating as it is fast disappearing in our fast paced high tech world
