## River Of Swans:

*River of Swans* Don Coldsmith,1989      The Swan Stephen Moss,2021-11-04 From the renowned naturalist Stephen Moss comes the must have gift for bird lovers this Christmas Wherever there is a stretch of water for them to find food and make their nest you will come across swans With beautiful illustrations throughout this eye opening biography reveals the hidden secrets of one of Britain s best known birds The Mute Swan is not so much a bird as a national treasure the avian equivalent of Sir David Attenborough or the Queen These huge and stately creatures are part of our urban and rural landscapes a constant presence on lakes rivers and ponds throughout Britain Yet despite their familiarity they are often misunderstood and while many people love swans others fear them Swans also feature in myths and legends art and literature dance and music not just in Britain but all around the world Stephen Moss delves into the facts and fiction about these charismatic birds describes their seasonal life cycle and examines their central role in our history and culture He also includes stories about wild swans Whooper and Bewicks that visit us in winter and the Black Swan of Australia A superb naturalist and writer Chris Packham Moss has carved out an enviable niche as a chronicler of the natural world Daily Mail

Office for Subject Cataloging Policy,1990      European Discovery and Exploration of Australia Erwin Feeken,2019-06-21 The map of Australia abounds with fascinating geographical place names the origins of which have for long been hidden in the journals of our early explorers Now after nine years of research Erwin Feeken a highly qualified cartographer and his wife Gerda have finalised the first complete record of Australian geographical place names and the most comprehensive general reference work on Australian exploration ever published In *European Discovery and Exploration of Australia* there are twenty three beautifully drawn four colour maps plus index showing the routes of more than 120 explorers with the locality of their named features numbered to accord with a Key to the Maps The place names in the Key have been numbered approximately in chronological order of their naming though places found during a single expedition have been grouped together There is also a gazetteer containing over four thousand place names alphabetically arranged with notes on their origins The map reference numbers in brackets form a cross reference with the Key to the Maps The work is introduced by a foreword from Lord Casey and an essay on the nature of Australian exploration by Professor O H K Spate director of the Research School of Pacific Studies Australian National University The text comprising a survey of Australian exploration is arranged in the form of

biographies of the explorers describing for the first time several almost unknown figures with emphasis on their expeditions and under the following headings The Approach to Australia Exploration before Settlement 1606 1788 From Botany Bay to the Blue Mountains 1788 1813 Land and Sea Expeditions 1813 1901 This section of the book is very fully illustrated with 18 full colour plates and some 150 black and white photographs mostly reproductions of early prints Concluding the book are bibliographies of sources and references a list of illustrations and an index of explorers and ships The comprehensive nature of this work will ensure that it becomes a valuable reference book for students while the text and illustrations will appeal to all who are interested in our history Collectors of Australiana will welcome this most attractive addition to the ever increasing number of available publications      *Anthropological Papers of the American Museum of Natural History* ,1912
