The Geotraveller Roger N. Scoon, 2021-03-25 This book describes famous geosites and historical localities in national parks and conservation areas from North America East Africa and Europe The geosites include iconic landforms associated with active volcanoes canyons glaciated landscapes natural rock monoliths and rifts The potential for geotourism in historical localities such as the famous Greco Roman antiquities of Greece Italy and Turkey is emphasised Some of the geosites and historical localities provide evidence that previous civilizations coped with active geology and major climatic cycles whilst others reveal evidence of famous geological events recognized in history and ancient mythology that helped shape our current civilization The book assists tour guides and visitors both geologists and non specialists interested in geotourism by providing an understanding of geological processes in the national parks and historical locations with the assistance of photographs and simplified geological maps

The Encyclopædia Britannica Hugh

Chisholm, James Louis Garvin, 1926 *The Nile River System, Africa* Bakenaz A. Zeidan, Aly Islam Metwally Aly, 2024-02-17

The Nile River System Africa Ecohydrology and Management from Catchment to Coast Volume Two provides a critical synthesis of knowledge for an important global region. It covers water availability and needs in the Nile basin focusing on socioeconomic hydrological and ecological aspects and the catchment coast continuum also providing the information needed to develop a policy for the river that is less skewed toward immediate human needs and more focused on environmental impacts. Readers will find ecological perspectives recent stresses the current status of the basin and more. The greater integration of ecological and river management themes is the main strength of this book making it a strong reference for academics and water resources managers as well as fishery experts aquatic scientists and social scientists. Provides a basis for improved environmental management of the Nile River basin from its headwaters to the Mediterranean Sea. Presents a multidisciplinary approach covering both environmental and societal needs. Includes case studies from this diverse river that can be applied globally **Steamboat Inspection Report**, 1914 **The Encyclopædia Britannica**, 1911 **Shared Waters, Shared Opportunities** Bernard Calas, Mumma Martinon, 2010-10-25

The importance of watercourses to human life and development cannot be overemphasised. From communication trade agriculture and the location of human settlements they have played an immeasurable role. Almost 60% of Africa lies within shared rivers and lake basins. The Nile is shared by more than seven nations the Zambezi by six and the Congo by nine. With populations on the rise many countries have been labeled water scarce nations and in fifteen years it is predicted that many people on earth will be exposed to water shortage consequences such as famine and disease. Thirteen African nations already suffer water stress and soon another twelve will join the list unless something is done to thwart the problem. On March 20 2009 in Nairobi Hekima College collaborated with Jesuit Hakimani Centre and the French Institute for Research in Africa IFRA to host the Hekima College Water Day Academic Seminar with the theme Shared Waters Shared Opportunities. This book is the result of critical research and presentations by internationally renowned scholars researchers and experts and students of the Institute of Peace Studies and International Relations Hekima College. For most of 2009 Kenya suffered severe problems caused by flooding which took many lives and destroyed homes and important infrastructures. It highlighted the issues of water management and water conflicts not only in Kenya but in other parts of East Africa as it was made abundantly clear that not only scarcity of water but excess water incorrectly managed can be disastrous. This timely scholarly book presents discussions of the issues which underlie the major water crises in the region. They open the debate into the water problems of Kenya and East Africa in an effort to join the global campaign to find solutions to these difficulties *Acts of the Parliament of South Australia* South Australia, 1915
