Road Past Mandalay:

The Road Past Mandalay John Masters, 1963 **The Road Past Mandalay** John Masters, 2022-11-03 The second part of the bestselling novelist's dramatic autobiography about his time in the Gurkhas during the second world war. This is the second part of John Masters' autobiography how he fought with his Gurkha regiment during World War II until his promotion to command one of the Chindit columns behind enemy lines in Burma. Written by a bestselling novelist at the height of his powers, it is an exceptionally moving story that culminates in him having to personally shoot a number of wounded British soldiers who cannot be evacuated before their position is overrun by the Japanese. It is an uncomfortable reminder that Churchill's obsession with special forces squandered thousands of Allied lives in operations that owed more to public relations than strategic calculation. This military and moral odyssey is one of the greatest of World War II frontline memoirs.

The Road Past Mandalay ... A Personal Narrative. [With Maps.]. John MASTERS (Novelist.), 1964 The Road Past Mandalay. (A Personal Narrative.) [With Plates, Including Portraits, and Maps.]. John MASTERS (Novelist.), 1961 *The Road Past Mandalay, Etc. [With Plates, Including Portraits.].* John MASTERS (Novelist.), 1961 **The Road Past Mandalay, Etc.** John MASTERS (Novelist), 1967 A Historical Perspective on Light Infantry Scott Ray McMichael, 1987 This study seeks to clarify the nature of light infantry. General characteristics of light infantry forces are identified and an analysis of how light forces operate tactically and how they are supported is presented. In the process the relationship of the light infantry ethic to its organization is evaluated and the differences between light infantry and conventional infantry is illuminated. For the purpose of this study the term conventional infantry refers to modern day motorized and mechanized infantry and to the large dismounted infantry forces typical of the standard infantry divisions of World War II, the Korean War and the Vietnam War. The study concludes that light infantry is unique and distinct. A light infantry ethic exists and manifests itself in a distinctive tactical style, in a special attitude toward the environment, in a freedom from dependence on fixed lines of communication and in a strong propensity for self-reliance. The study is based on a historical analysis of 4 light infantry forces employed during and since World War II: The Chindits in the 1944 Burma campaign against the Japanese; The Chinese communist Forces during the Korean War; British operations in Malaya and Borneo 1948-66 and the First Special Service Force in the mountains of Italy 1942-44. p 2 of cover **A Myanmar Miscellany: Selected Articles, 2007-2023** Andrew Selth, 2024-09-30 Andrew Selth has been watching Myanmar for 50 years. During this time he has published 10 books and more than 400 other works about the country. In 2020 he released a collection of almost 100 articles that had been posted on the Lowy Institute's Interpreter website. This second anthology brings together another 72 articles written for a range of outlets between 2007 and 2023. This period saw the installation of a disciplined democracy under Aung San Suu Kyi, the 2021 military coup and the country's descent into a bitter civil war. Many of the articles in the book deal with international relations and security issues, but there are also works on Myanmar's history, politics and culture, as well as some personal

reminiscences Together they make a unique contribution from an Old Myanmar Hand with wide ranging interests and insights

The Daring Dozen Gavin Mortimer, 2012-06-20 Gavin Mortimer reveals the 12 legendary Special Forces commanders of World War II Prior to the war the concept of special forces simply didn't exist but thanks to visionary leaders like David Stirling and Charles Hunter our very concept of how wars can be fought and won has totally changed These 12 men not only reshaped military policy but they led from the front accompanying their troops into battle from the sands of North Africa to jumping on D Day and infiltrating behind enemy lines Mortimer also offers a skilful analysis of their qualities as military commanders and the true impact that their own personal actions as well as those of their units had on the eventual outcome of the war

The Burma Campaign Frank McLynn, 2011-10-04 This history reveals the failures and fortunes of leadership during the WWII campaign into Japanese occupied Burma a thoroughly satisfying experience Kirkus Acclaimed historian Frank McLynn tells the story of four larger than life Allied commanders whose lives collided in the Burma campaign one of the most punishing and protracted military adventures of World War II This vivid account ranges from Britain's defeat in 1942 through the crucial battles of Imphal and Kohima known as the Stalingrad of the East and on to ultimate victory in 1945 Frank McLynn narrative focuses on the interactions and antagonisms of its principal players William Slim the brilliant general Orde Wingate the idiosyncratic commander of a British force of irregulars Louis Mountbatten one of Churchill's favorites overpromoted to the position of Supreme Commander S E Asia and Joseph V.
