Robert Frost A Tribute To The Source:

Robert Frost, a Tribute to the Source Robert Frost, David Bradley, 1979 Fifty three of Frost's poems are interspersed with forty four color photographs of the New England area that was his home with a biographical profile that explains the influence of this environment on the poet's work

Robert Frost's Visionary Gift William F. Zak, 2022-01-26 In Robert Frost's Visionary Gift Mining and Minding the Wonder of Unexpected Supply William F. Zak provides groundbreaking analysis of well over one hundred of Frost's lyrics considering each poem as an interrelated portion of the poet's overarching constellation of intention Beyond biography this book offers extended close readings of Frost's oeuvre building its case incrementally from deftly examined particulars Zak discusses how the pastoral mode Frost adopts is no depleted homespun idiom retreating from modernism's complexities but a self-conscious determination to assume the prophetic mantle from his predecessors Shakespeare Milton Wordsworth Emerson and Thoreau Frost's version of pastoral represents no escape from life's stresses but the most constructive and life sustaining means to address life's struggles head on in both sense of that last phrase This book makes a case for Frost as America's preeminent philosophical poet The unfortunate effect of Frost's early detractors claim that he was merely an ironic and equivocal anecdotalist has for too long relegated his work to the second tier of the modernist poetic pantheon This study by contrast supports Robert Graves' claim for Frost as the first American poet who could be honestly reckoned a master poet by world standards

Robert Frost and the New England Renaissance

George Monteiro, 2021-05-11 A poem is best read in the light of all the other poems ever written So said Robert Frost in instructing readers on how to achieve poetic literacy George Monteiro's newest book follows that dictum to enhance our understanding of Frost's most valuable poems by demonstrating the ways in which they circulate among the constellations of great poems and essays of the New England Renaissance Monteiro reads Frost's own poetry not against all the other poems ever written but in the light of poems and essays by his precursors particularly Emerson Thoreau and Dickinson Familiar poems such as Mending Wall After Apple Picking Birches Stopping by Woods on a Snowy Evening The Road Not Taken and Mowing as well as lesser known poems such as The Draft Horse The Ax Helve The Bonfire Dust of Snow A Cabin in the Clearing The Cocoon and Pod of the Milkweed are renewed by fresh and original readings that show why and how these poems pay tribute to their distinguished sources Frost's insistence that Emerson and Thoreau were the giants of nineteenth century American letters is confirmed by the many poems variously influenced that derive from them His attitude toward Emily Dickinson however was more complex and sometimes less generous In his twenties he molded his poetry after hers But later after he joined the faculty of Amherst College he found her to be less a benefactor than a competitor Monteiro tells a two stranded tale of attraction imitation and homage countered by competition denigration and grudging acceptance of Dickinson's greatness as a woman poet In a daring move he composes out of Frost's own words and phrases the talk on Emily Dickinson that Frost was never invited to give In showing how Frost's work converses with that of his predecessors

Monteiro gives us a new Frost whose poetry is seen as the culmination of an intensely felt New England literary experience

Enduring Roots Gayle Brandow Samuels,2005-01-03 Trees are the grandest and most beautiful plant creations on earth From their shade giving arching branches and strikingly diverse bark to their complex root systems trees represent shelter stability place and community as few other living objects can Enduring Roots tells the stories of historic American trees including the oak the apple the cherry and the oldest of the world s trees the bristlecone pine These stories speak of our attachment to the land of our universal and eternal need to leave a legacy and demonstrate that the landscape is a gift to be both received and sometimes tragically to be destroyed Each chapter of this book focuses on a specific tree or group of trees and its relationship to both natural and human history while exploring themes of community memory time and place Readers learn that colonial farmers planted marker trees near their homes to commemorate auspicious events like the birth of a child a marriage or the building of a house They discover that Benjamin Franklin s Newtown Pippin apples were made into a pie aboard Captain Cook s Endeavour while the ship was sailing between Tahiti and New Zealand They are told the little known story of how the Japanese flowering cherry became the official tree of our nation s capital a tale spanning many decades and involving an international cast of characters Taken together these and many other stories provide us with a new ways to interpret the American landscape It is my hope the author writes that this collection will be seen for what it is a few trees selected from a great forest and that readers will explore both the trees and the forest and find pieces of their own stories in each
