S. C. Joint Steering Committee, 2013 This e book contains the 2013 Revision of RDA Resource Description and Access and includes the July 2013 Update This e book offers links within the RDA text and the capability of running rudimentary searches of RDA but please note that this e book does not have the full range of content or functionality provided by the subscription product RDA Toolkit Included A full accumulation of RDA the revision contains a full set of all current RDA instructions It replaces the previous version of RDA Print as opposed to being an update packet to that version RDA has gone through many changes since it was first published in 2010 Cataloging practice described by RDA has not

changed dramatically due to the changes above but nearly every page in RDA Print was impacted by the changes with the result that an RDA Print update packet would require nearly as many pages as the full revision. The most current RDA the revision contains all changes to RDA up to and including the 2013 RDA Update approved by the JSC. Annually the JSC considers proposals to update, enhance and maintain RDA as a current cataloging standard. These updates can and often do change the cataloging process as described by RDA. The JSC also periodically issues changes to RDA to fix errors and to clarify meaning. These changes do not typically change cataloging practice as described by RDA. Reworded RDA the revision includes the reworded version of RDA instructions. To improve readability and comprehension of complex instructions RDA has been edited and reworded since its original release. The rewording was carried out by the JSC RDA Copy Editor and reviewed by the U S RDA Test Coordinating Committee.

Neurological Disorders in Famous Artists Julien Bogousslavsky, M. G. Hennerici, H. Baezner, C. Bassetti, 2010-01-01. The third part of *Neurological Disorders in Famous Artists* presents painters, musicians and writers who had to fight against an acute or chronic neurological disease. Sometimes this fight was without success, e.g. Shostakovich, Schumann, Wolf, Pascal, but often a dynamic and paradoxical creativity of the clinical disorder was integrated into their artistic production, e.g. Klee, Ramuz. Occasionally some even wrote the first report of a medical condition they observed in themselves, like Stendhal who made a detailed report of aphasic transient ischemic attacks before dying of stroke shortly thereafter. In rarer instances a neurological disease was inaccurately attributed to an artist in order to explain certain features of his work, e.g. de Chirico, Schiele. Some chapters in this publication focus on neurological conditions reported in artistic work, including descriptions by Shakespeare and Dumas. Bringing new light to both artists and neurological conditions, this book serves as a valuable and entertaining read for neurologists, psychiatrists, physicians and anybody interested in arts, literature and music.
