Robert Mugabe and the Betrayal of Zimbabwe Andrew Norman, 2004-02-08 Instead of leading his people to the promised land Mugabe the first prime minister of the newly named Zimbabwe has amassed a fortune for himself his family and followers and has presided over the murder torture and starvation of those who oppose him This biography offers some explanations for Mugabe s behavior With the death of his wife in 1992 a moderating influence was lost and as the years go by he continues to show himself intolerant of any opposition as he proceeds toward the creation of a one party state even though evidence suggests that his country is in terminal decline

Robert Mugabe and the Will to Power in an African Postcolony William J. Mpofu, 2021-03-04 This book is a philosopher s view into the chaotic postcolony of Zimbabwe delving into Robert Mugabe s Will to Power The Will to Power refers to a spirited desire for power and overwhelming fear of powerlessness that Mugabe artfully concealed behind performances of invincibility Nietzsche s philosophical concept of the Will to Power is interpreted and expanded in this book to explain how a tyrant is produced and enabled and how he performs his tyranny Achille Mbembe s novel concept of the African postcolony is mobilised to locate Zimbabwe under Mugabe as a domain of the madness of power The book describes Mugabe s development from a vulnerable youth who was intoxicated with delusions of divine commission to a monstrous tyrant of the postcolony who mistook himself for a political messiah This account exposes how post political euphoria about independence from colonialism and the heroism of one leader can easily lead to the degeneration of leadership However this book is as much about bad leadership as it is about bad followership Away from Eurocentric stereotypes where tyranny is isolated to African despots this book shows how Mugabe is part of an extended family of tyrants of the world He fought settler colonialism but failed to avoid being infected by it and eventually became a native coloniser to his own people The book concludes that Zimbabwe faces not only a simple struggle for democracy and human rights but a Himalayan struggle for liberation from genocidal native colonialism that endures even after Robert Mugabe s dethronement and death

Robert Mugabe Sue Onslow, Martin Plaut, 2018-03-05 Zimbabwe s President Robert Mugabe sharply divides opinion and embodies the contradictions of his country s history and political culture As a symbol of African liberation and a stalwart opponent of white rule he was respected and revered by many This heroic status contrasted sharply in the eyes of his rivals and victims with repeated cycles of gross human rights violations Mugabe presided over the destruction of a vibrant society capital flight

and mass emigration precipitated by the policies of his government resulting in his demonic image in Western media This timely biography addresses the coup led by some of Mugabe's closest associates that forced his resignation after thirty seven years in power Sue Onslow and Martin Plaut explain Mugabe's formative experiences as a child and young man his role as an admired Afro nationalist leader in the struggle against white settler rule and his evolution into a political manipulator and survivalist They also address the emergence of political opposition to his leadership and the uneasy period of coalition government Ultimately they reveal the complexity of the man who stamped his personality on Zimbabwe's first four decades of independence

Making History in Mugabe's Zimbabwe Blessing-Miles Tendi, 2010 The crisis that has engulfed Zimbabwe since 2000 is not simply a struggle against dictatorship It is also a struggle over ideas and deep seated historical issues still unresolved from the independence process that both Robert Mugabe's ZANU PF regime and Morgan Tsvangirai's MDC are vying first to define and then to address This book traces the role of politicians and public intellectuals in media civil society and the academy in producing and disseminating a politically usable historical narrative concerning ideas about patriotism race land human rights and sovereignty It raises pressing questions about the role of contemporary African intellectuals in the making of democratic societies In so doing the book adds a new and rich dimension to the study of African politics which is often diluted by the neglect of ideas

Mugabeism? Sabelo J. Ndlovu-Gatsheni, 2015-12-26 What is distinctive about this book is its interdisciplinary approach towards deciphering the complex meanings of President Gabriel Mugabe of Zimbabwe making it possible to evaluate Mugabe from a historical political philosophical gender literal and decolonial perspectives It is concerned with capturing various meanings of Mugabeism

Robert Mugabe's Zimbabwe, 2nd Edition Roberta Wiener, James R. Arnold, 2012-08-01 Robert Mugabe one of the world's most infamous dictators rose to power in Rhodesia the southern African region now known as independent Zimbabwe As a leader in Rhodesia's nationalist resistance movement of the 1970s Mugabe mobilized his compatriots in their struggle for control of the white ruled African nation which had declared independence from Great Britain in 1965 The bloody civil war finally ended with Zimbabwe's independence in 1980 As the president of the newly free nation Mugabe was a beacon for black African self rule raising hopes on the continent and around the world However through a series of ill conceived economic programs and a disastrously mismanaged land redistribution scheme Mugabe and his corrupt government brought ruin to his homeland Creating a harsh climate of fear brutality and zero tolerance for opposition Mugabe's rule drained a once prosperous nation of its economic and human resources In Robert Mugabe's Zimbabwe learn more about the internal workings of one of the modern world's most devastating dictatorships

Hatsheput of Egypt 1490 1468 BC and Hannibal the military commander and strategist of Carthage 243 183 BC to Kwame Nkrumah of Ghana 1909 1972 Miriam Makeba and Nelson Mandela of South Africa 1918 **Revolutionary Monsters**

Donald T. Critchlow, 2021-10-05 Lenin Mao Castro Mugabe Khomeini All sparked movements in the name of liberating their people from their oppressors capitalists foreign imperialists or dictators in their own country These revolutionaries rallied the masses in the name of freedom only to become more tyrannical than those they replaced Much has been written about the anatomy of revolution from Edmund Burke to Crane Brinton Crane Franz Fanon and contemporary theorists of revolution found in the modern academy Yet what is missing is a dissection of the revolutionary minds that destroyed the old for the creation of a more harmful new Revolutionary Monsters presents a collective biography of five modern day revolutionaries who came into power calling for the liberation of the people only to end up killing millions of people in the name of revolution Lenin Russia Mao China Castro Cuba Mugabe Zimbabwe and Khomeini Iran Revolutionary Monsters explores basic questions about the revolutionary personality and examines how these revolutionaries came to envision themselves as prophets of a new age The World's Ten Most Evil Men - From Twisted Dictators to Child Killers Nigel Cawthorne, 2009-05-04

In this hard hitting collection acclaimed author Nigel Cawthorne examines ten of the most sickeningly twisted men who are still alive today Some of them like serial killer Dennis Nilsen and cult leader Charles Manson are thankfully behind bars Others including the world's most wanted terrorist Osama bin Laden are still at large Unbelievably one of them Robert Mugabe is still clinging to the reins of power and continues to inflict suffering and economic mayhem on the desperate people of Zimbabwe Inside this book is the gut twisting story of Charles Taylor the blood soaked African general who has recruited thousands of child soldiers and one of the most shocking cases of recent years that of Josef Fritzl the Austrian man who imprisoned and sexually abused his own daughter for almost a quarter of a century This collection is a terrifying reminder that monsters really do exist *Life-Writing from the Margins in Zimbabwe* Oliver Nyambi, 2019-05-20 This book explores the unique contributions of various forms of post 2000 life writings such as the autobiography epistles and biographies to discourses about the nature and socio politics of what has become known as the Zimbabwean crisis c 2000 2009 Much of what has been written about the Zimbabwean crisis a decade long period of unprecedented economic collapse and political upheavals in the southern African country is strictly discipline specific and therefore limited to unidimensional modes of theorising the crisis's many and complex dimensions and dynamics In this context this book charts a paradigm shift in hermeneutic and epistemological approaches to comprehending the Zimbabwean crisis Life Writing from the Margins in Zimbabwe centres the experiences and memories of ordinary Zimbabweans in pluralizing modes of seeing and knowing the crisis The book argues that these life writings present a rich site for encountering versions of the crisis that relate in counter discursive ways to the dominant state authored narrative of the nation in crisis Oliver Nyambi's analysis contributes new ideas to ongoing debates about how cultural texts reflect on the postcoloniality of both power and experiences and

negotiations of power in the context of crisis This book will be of interest to scholars and students of African literature Zimbabwean African studies postcolonial literature life writing and cultural studies *The Poorer Nations: A Possible History of the Global South* Vijay Prashad, 2013-03-12 A truly global history that examines the prospects of a worldwide power shift from North to South In *The Darker Nations* Vijay Prashad provided an intellectual history of the Third World and traced the rise and fall of the Non Aligned Movement With *The Poorer Nations* Prashad takes up the story where he left off Since the 70s the countries of the Global South have struggled to build political movements Prashad analyzes the failures of neoliberalism as well as the rise of the BRICS countries the World Social Forum issuebased movements like Via Campesina the Latin American revolutionary revival in short efforts to create alternatives to the neoliberal project advanced militarily by the US and its allies and economically by the IMF the World Bank the WTO and other instruments of the powerful Just as *The Darker Nations* asserted that the Third World was a project not a place *The Poorer Nations* sees the Global South as a term that properly refers not to geographical space but to a concatenation of protests against neoliberalism In his foreword to the book former Secretary General of the United Nations Boutros Boutros Ghali writes that Prashad has helped open the vista on complex events that preceded today's global situation and standoff *The Poorer Nations* looks to the future while revising our sense of the past

Postcolonial Imagination and Moral Representations in African Literature and Culture

Chielozona Eze, 2011-01-01 Following in the footsteps of Chinua Achebe's *Things Fall Apart* the tenor of the postcolonial African culture has been justifiably anti imperialist In the 21st century however there has been a gradual but certain shift away from the write back discourse paradigm towards more integrative globally inflected cultural interpretive models in Africa This book celebrates the emergence of new interpretive paradigms such as in African philosophy gender studies and literature *Postcolonial Imaginations and Moral Representations in African Literature and Culture* Chielozona Eze, 2011-12-16 The postcolonial African culture as it is discoursed in the academia is largely influenced by Africa's response to colonialism To the degree that it is a response it is to considerably reactive and lacks forceful moral incentives for social critical consciousness and nation building Quite on the contrary it allows especially African political leaders to luxuriate in the delusions of moral rectitude imploring at will the evil of imperialism as a buffer to their disregard of their people This book acknowledges the social and psychological devastations of colonialism on the African world It however argues that the totality of African intellectual response to colonialism and Western imperialism is equally if not more damaging to the African world In what ways does the average African leader indeed the average African judge and respond to his world How does he conceive of his responsibility towards his community and society The most obvious impact of African response to colonialism is the implicit search for a pristine innocent paradigm in for instance literary philosophical social political and gender studies This search has its own moral implication in the sense that it makes the taking of responsibility on individual and social level highly difficult Focusing on the moral impact of responses to colonialism in Africa and the African Diaspora this book

analyzes the various manifestations of delusions of moral innocence that has held the African leadership from the onerous task of bearing responsibility for their countries it argues that one of the ways to recast the African leaders responsibility towards Africa is to let go on the one hand the gaze of the West and on the other of the search for the innocent African experience and cultures Relying on the insights of thinkers such as Frantz Fanon Wole Soyinka Kwame Anthony Appiah Achille Mbembe and Wolfgang Iser this book suggests new approaches to interpreting African experiences It discusses select African works of fiction as a paradigm for new interpretations of African experiences **Robert Mugabe, Kcb** Esau Ncube, 2020-02-13 Robert Mugabe KCB is about two countries forced into one by British imperialistic interests cemented by the optimism of African nationalism and plundered by the wrath of Africa's longest serving tyrant It traces 19th Century King Mzilikazi and his peoples settlement in Matabeleland through the colonization of Mashonaland in 1890 the destruction and occupation of the Ndebele State in 1893 by the B S A Company before examining the politics of African nationalism by ZAPU and ZANU in the quest for black majority rule It dissects the gukurahundi genocide unleashed by the independent and majoritarian government on the ethnic minorities of Matabeleland and the Ndebele speaking parts of the Midlands province It interrogates the concepts of gukurahundism policy of annihilation zanuism longevity of the leader and his/her ethnic group and mugabeism mastery of demagoguery in order to deceive It portrays the genocide and the three isms as the four pillars that have sustained the leprosy that ravaged the Zimbabwean anatomy from day one of independence to two years after Mugabe's unceremonious fall by the barrel of the same gun that had ushered him in in 1980 Ncube explores possible solutions which include a rotational presidency devolution of government power federalism restoration of the Ndebele monarchy and the secession of the pre colonial Mthwakazi State from Zimbabwe **What Postcolonial Theory Doesn't Say** Anna Bernard, Ziad Elmarsafy, Stuart Murray, 2015-08-11 This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary political developments such as Zimbabwean land reform postcommunism and the economic rise of

Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems Transitional Justice in Africa Ruth Murambadoro, 2020-06-25 This book provides insight on the effect of political violence and transitional justice in Africa focusing on Zimbabwe and comparing it to Rwanda Uganda and Mozambique The case of Zimbabwe is unique since political violence observed in some areas has manifested as contestations for power between members of various political parties These political contestations have infiltrated family clan structures at the community level and destroyed the human and social relations of people Also the author examines an understanding of how communities in the most polarized and conflict ridden areas in Africa are addressing their past The project would appeal to graduate students academics researchers and practitioners as it will help them to understand African justice systems and the complex network of relationships shaping justice processes during transitions *The Roots and Consequences of 20th-Century Warfare* Spencer C. Tucker, 2016-09-06 This unique reference book introduces readers to the causes and effects of the 20th century s most significant conflicts and explains how the impact of these conflicts still resonates today *The Roots and Consequences of 20th Century Warfare* Conflicts That Shaped the Modern World introduces students to the causes and effects of the 20th century s most significant conflicts Covering conflicts that occurred in all regions of the world readers will gain knowledge on the causes and consequences of each conflict and become familiar with the historical context needed to understand the roots and consequences of these seminal events The text also identifies key opponents in each conflict and illuminates the reasons why each country or group decided to fight the scope of their involvement in the war and the impact of the war Reference entries on key battles are presented in chronological order supplying engaging details on the events and people who shaped each war The book also supplies maps of the key battles to illuminate the strategic movements of both sides of the conflict A lengthy bibliography offers a wealth of options to readers seeking more sources of information on any of the conflicts *The Overthrow of Robert Mugabe* Blessing-Miles Tendi, 2025-01-21 *The Overthrow of Robert Mugabe* Gender Coups and Diplomats argues the 2017 coup that ousted long time Zimbabwean president Robert Gabriel Mugabe and the generality of coups cannot be accurately and rigorously understood without examining the crucial role of gender and women s politics in military seizures of power Tendi s book shows that gender and women s politics pervade military coup causes dynamics justifications and international responses to coups Contrary to influential representations of Zimbabwe s 2017 coup and other recent coups as markedly different from past coups Tendi draws on long gendered histories of military coups in Africa to argue that there are significant continuities in coup characteristics across time Additionally Tendi s highly original study of Zimbabwe s 2017 coup identifies the motives dynamics and trigger of the coup Despite the existence of an international anti

coup norm and democracy promotion in Africa by Western states Zimbabwean coup makers direct intervention in politics was largely not publicly condemned or penalized by Western and African diplomats Tendi uses original interviews with diplomats and politicians involved in external responses to the coup to address this important puzzle **Making Politics in Zimbabwe's Second Republic** Gordon Moyo, Kirk Helliker, 2023-05-16 The book provides a fresh and innovative interpretation of the new government of Zimbabwe led by Emmerson Mnangagwa which emerged in late 2017 after the downfall of Robert Mugabe It demonstrates the contradictory character of the Mnangagwa government involving both continuities and discontinuities in relation to Mugabe's regime The temptation amongst Zimbabwean scholars has been to focus on the continuities and to dismiss the significance of any discontinuities notably reform measures This book adopts an alternative approach by identifying and focusing specifically on the existence of a formative project of the Mnangagwa's Second Republic further analysing its political significance as well as risks and limitations While doing so the book covers topics such as reform measures reconciliation transitional justice corruption the media agriculture devolution and the debt crisis as well as health and education Discussing the limitations of these different reform measures the book highlights that any scholarly failure to identify the risks of the project leads to an incomplete understanding of what constitutes the Mnangagwa's Second Republic The book appeals to students scholars and researchers of Zimbabwean and African studies political science and international relations as well as policymakers interested in a better understanding of political reform processes
