Scythian Art Crafts Of The Early Eurasian Nomads:

Scythian Art Georges Charrière,1979 **The Art of the Scythians** Esther Jacobson,2022-11-14 This volume considers the art of the Scythians of the northern littoral of the Black Sea as that art was expressed in gold silver bronze and bone Appearing by the seventh century B C at the edge of an expanding Hellenic world the history and art of the Scythians must be considered within a context that recognizes the sources of Scythian culture in the Eurasian Steppe as well as the historical contingency of West Asia and the Greek colonies By approaching the understanding of artistic traditions in terms of an evolving process rooted in an archaic steppe culture but ultimately shaped by the confrontation of Near Eastern Hellenic and Hellenistic tastes this discussion goes beyond the traditional location of Scythian art as a subset of Greek goldwork Particular consideration is given to the gradual transformation of object types and styles from their reflection of archaic zoomorphic representations in carved bone wood and bronze to traditions expressive of Hellenized tastes and sensibilities in gold and silver By examining in detail individual objects as well as classes of objects this volume articulates a specifically Scythian stylistic and iconographic tradition and a specifically Scythian contribution to the working of precious metals related to but ultimately distinguishable from the goldworking traditions of Achaemenid Iran late Classical Greece and the larger Hellenistic world This volume offers substantial bibliography relating to the extensive research on Scythian art archaeology and history published in the Russian and Ukrainian languages over the last 150 years **The Scythian Connection and the Shamanistic Crowns of Ancient Korea** Shirley Fish,2021-08-22 The Three Kingdoms Period in Korean history consisted of the kingdoms of Silla Koguryo and Paekche It was only the Silla kingdom which seemed to have had a connection to the ancient nomadic Scythians These people seemed so different from the indigenous inhabitants who were already living in Korea during the 3th to 6th centuries CE It is the author s opinion is that they were the descendants of the Scythians who although they would not have called themselves Scythians they were none the less the remnant members of nomadic tribes that pushed eastward from Central Asia and Siberia to the Korean peninsula Once in Southern Korea they established the Silla kingdom where their time honored beliefs are depicted in their mound burials wooden burial chambers gold crowns horse riding and also in their Siberian shamanism This time period of the gold crowns and the people who produced the royal headgear was the Maripgan Period and as mentioned they were the descendants of Scythians who although in Central Asia and Siberia were known to have existed as far back as 10 000 years BC they were always on the move searching for new pasturelands for their herds or to avoid conflicts and war with their enemies The Silla crowns were created around the 5th to the 7th centuries in Kyongju the former capital of the Silla people When they were discovered in various archaeological mound sites they were found to be in a highly fragile state The crowns were each designated as national treasures by the Korean government and most weigh about one kilogram Some of the crowns came in two parts an inner gold cap which may have been covered in silk fabric and sat inside of the crown and the crown itself The crowns were

totally shamanistic in their symbolism and represented the belief systems of the Scythians of Central Asia and Siberia which eventually made its way to Korea and the ancient Kingdom of Silla
