In Search of Florentine Civic Humanism, Volume 1 Hans Baron, 2014-07-14 Hans Baron's *Crisis of the Early Italian Renaissance* is widely considered one of the most important works in Italian Renaissance studies Princeton University Press published this seminal book in 1955 Now the Press makes available a two-volume collection of eighteen of Professor Baron's essays most of them thoroughly revised unpublished or presented in English for the first time Spanning the

larger part of his career they provide a continuation of and complement to the earlier book The essays demonstrate that contemporaneously with the revolution in art modern humanistic thought developed in the city state climate of early Renaissance Florence to a far greater extent than has generally been assumed The publication of these volumes is a major scholarly event a reinforcement and amplification of the author s conception of civic Humanism The book includes studies of medieval antecedents and special studies of Petrarch Leonardo Bruni and Leon Battista Alberti It offers a thoroughly re conceived profile of Machiavelli drawn against the background of civic Humanism as well as essays presenting evidence that French and English Humanism of the sixteenth and seventeenth centuries was closely tied to Italian civic thought of the fifteenth The work culminates in a reassessment of Jacob Burckhardt s pioneering thought on the Renaissance Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *In Search of Your European Roots* Angus Baxter,2001 Guides readers through the complexities of genealogical research in Europe and includes up to date information on church state and provincial archives **The 50 most influential people in history** Michael Wenkart,2014-05-07 The history of humanity is littered with great discoveries great invention great ideas and the great people who initiated them Some of them just had one goal one great achievement that contributed to the advancement of civilisation in a meaningful way Others contributed across a wide range of disciplines and achievements There are different ways to influence the course of history and many avenues of thought and action which can achieve this We have picked fifty people here whose contribution was undeniably great and lasting Whether it was discovering new lands and cultures devising schools and methods of thought or science or inventing new devices or concepts to enhance the life of the populous these people represent the best of humanity for the most part and the world was a better or at least a different place because of them *Buried Treasures of California* W. Congress. Senate. Committee on Public Works,1970 **The Rights War in Literature and Culture** Jennifer Rickel,2025-07-31 Rights War tracks how the human rights framework is weaponized against the oppressed and it makes the case for the central place of literature in understanding this seizure of narrative control While literary humanitarianism depoliticizes suffering and positions the reader as a savior to traumatized Others Rights War shows how contemporary fiction by women of color and queer writers across the African diaspora engage innovative narrative paradigms to address structural inequities It analyzes strategies set out in this literature for disarming savior victimism which it identifies as a pernicious cultural phenomenon in which the powerful proclaim themselves saviors to and victims of those they marginalize As the disassociation of national rights from international human rights and the disconnection of civil and political rights from social and economic rights provoke a contest of victimhood this book offers a renewed argument for the indivisibility of rights and the social justice function of literature
