Amelia Earhart, the Final Story Vincent V. Loomis, Jeffrey L. Ethell, 1985. Recounts the author's investigation and search to solve the mystery of Amelia Earhart.

One More Good Flight Ric Gillespie, 2024-09-17. Shortly before embarking on her attempt to circumnavigate the globe, Amelia Earhart confided to a friend, "I have a feeling there is just about one more good flight left in my system, and I hope this trip around the world is it." This book is the product of The Earhart Project, a thirty-four year investigation of the Earhart tragedy by The International Group for Historic Aircraft Recovery (TIGHAR). Investigators had no agenda. They were not out to advocate, excuse, honor, or impugn. They saw the Earhart disappearance as an aviation accident and reasoned the answer to its cause and outcome should be discoverable if they could find, assemble, and analyze the relevant data. To understand why she died, it was necessary to strip away the myths and sentimentality that have grown up over the years and examine the hard truths behind how Earhart's trip around the world came about and why it went so terribly wrong. The U.S. Navy and Coast Guard were major players in the 1937 flight disappearance and search for Amelia Earhart, and in the aftermath. The story of the pressures and frustrations the services faced and the mistakes they made contain valuable lessons for today's commanders. Gillespie's first book, *Finding Amelia: The True Story of the Earhart Disappearance*, Naval Institute Press, 2006, chronicled what was known at that time. This new book updates the story with important new information from historical documents discovered since then and also provides extensive prequel and sequel narratives that complete the saga and give new perspective to the life and death of an American icon.

Earhart a popular female pilot who set many aviation records wanted to increase her popularity by flying around the world This would be a huge accomplishment that no pilot man or woman had attempted before She left California March 17 1937 in a twin engine Lockheed Electra and flew to Honolulu on the first leg of her historic flight with Fred Noonan and Harry Manning as her navigators Unfortunately she crashed on take off and her Electra was so badly damaged it had to be shipped back to the Lockheed plant in California for repairs Amelia and her publisher husband George Putnam didn't have the money to repair her Electra and make another attempt to fly around the world so Mr Putnam approached President Roosevelt and asked if the U S government could help FDR had met Amelia previously and knew of her plans to fly around the world In 1937 FDR believed the Japanese were illegally preparing for war on Mandated islands in the Pacific Marine Colonel Earl Ellis tried to sneak into Truk Atoll to gather information but was caught on the island of Palau and killed FDR believed that maybe a civilian pilot who was going to fly around the world might have a better chance to obtain the information he needed so agreed to help Amelia on her request But FDR only did so if Amelia would agree to take a few pictures of Japanese island fortifications along the way Although a staunch pacifist Amelia agreed to the president's stipulations The U S government helped plan her second attempt provided her plane with larger engines installed additional fuel tanks and reconnaissance cameras but did so with little fanfare or publicity Instead of flying from East to West as she planned on her first attempt she flew West to East with only Fred Noonan as her navigator Prior to her flight it's reported she was sworn into the Army Air Force as an officer and confided to a friend Imagine me being a spy Amelia left California on May 21st and headed for Miami Puerto Rico Brazil Africa India Bangkok Singapore and Dutch East Indies where Mr F O Furman a Lockheed maintenance specialist met Amelia and checked her Electra and cameras for 3 days At each stop 55 gallon drums of fuel would be waiting for her even if she flew into a field that was not on her announced itinerary She and Fred Noonan left Lae New Guinea on July 1st 1937 and headed for Howland Island 2 556 miles away The Coast Guard Cutter ITASCA waited just off Howland to handle all communications as she approached Unfortunately when Harry Manning was the designated navigator on her first attempt he arranged for Navy ships to communicate with her in Morse Code No one told the Navy vessels that Manning was no longer her navigator Neither Amelia or Fred could read Morse Code Amelia Earhart's Final Flight tells the story of how she crashed on Mili Atoll in the Marshall Islands was captured by the Japanese taken to Saipan where she was held in prison for several years before being killed Eye witnesses in the Marshall Islands and on Saipan provided the true accounts of what actually happened to Amelia on her historic flight what happened when she was captured how she was killed and reaction by U S and Japanese leaders It also relates how U S Marines found Amelia's briefcase and also found her Electra on Saipan when they attacked in 1944 David O Malley a member of the Writers Guild wrote an interesting screenplay that's based on these eye witness reports It gives a rational explanation why both the U S and Japan have kept Amelia's capture and death a secret since her Final Flight
